

# Valid Test CIPP-US Bootcamp | CIPP-US Guaranteed Passing

The advertisement for Measure IT's Training Course features a woman with glasses and dark hair, smiling and wearing a light-colored top, sitting at a desk in a data center. She is looking towards the camera. In the background, there are computer monitors displaying data. The Measure IT logo, which includes a stylized puzzle piece graphic and the text 'measure IT THE MEASUREMENT COMPANY', is prominently displayed at the top. Below the logo, the words 'TRAINING COURSE' are written in large, bold, orange letters. To the left of the woman, there are two logos: a white box with a green 'ni' logo and the text 'Authorized Distributor', and a green box with a white 'ni' logo and the text 'Training Partner'.

The Channel Partner Program Certified Information Privacy Professional/United States (CIPP/US) CIPP-US certification is a valuable credential earned by individuals to validate their skills and competence to perform certain job tasks. Your Certified

Information Privacy Professional/United States (CIPP/US) CIPP-US Certification is usually displayed as proof that you've been trained, educated, and prepared to meet the specific requirement for your professional role.

IAPP CIPP-US Certification Exam covers various topics, including privacy program governance, risk management, and incident management. It tests proficiency in applying privacy laws to the collection, use, retention, and disclosure of personal information. Privacy professionals who hold the CIPP/US certification are well-equipped to handle the increasing demand for privacy compliance in the digital age. Attaining this certification showcases a commitment to the privacy field and sets the individual apart as a subject matter expert in the industry.

## **IAPP Certified Information Privacy Professional/United States (CIPP/US) Sample Questions (Q136-Q141):**

### **NEW QUESTION # 136**

According to FERPA, when can a school disclose records without a student's consent?

- A. If the disclosure is to practitioners who are involved in a student's health care
- B. If the disclosure is not to be conducted through email to the third party
- C. If the disclosure would not reveal a student's student identification number
- D. **If the disclosure is to provide transcripts to a school where a student intends to enroll**

**Answer: D**

### **NEW QUESTION # 137**

Federal laws establish which of the following requirements for collecting personal information of minors under the age of 13?

- A. Affirmative consent of a parent or guardian before collecting personal information of a minor offline (e.g., in person), which also satisfies any requirements for online consent.
- B. Implied consent from a minor's parent or guardian, or affirmative consent from the minor.
- C. **Affirmative consent from a minor's parent or guardian before collecting the minor's personal information online.**
- D. Implied consent from a minor's parent or guardian before collecting a minor's personal information online, such as when they permit the minor to use the internet.

**Answer: C**

### **NEW QUESTION # 138**

Smith Memorial Healthcare (SMH) is a hospital network headquartered in New York and operating in 7 other states. SMH uses an electronic medical record to enter and track information about its patients. Recently, SMH suffered a data breach where a third-party hacker was able to gain access to the SMH internal network.

Because it is a HIPPA-covered entity, SMH made a notification to the Office of Civil Rights at the U.S. Department of Health and Human Services about the breach.

Which statement accurately describes SMH's notification responsibilities?

- A. **If SMH must make a notification in any other state in which it operates, it must also make a notification to individuals in New York.**
- B. If SMH makes credit monitoring available to individuals who inquire, it will not have to make a separate notification to individuals in the state of New York.
- C. If SMH is compliant with HIPAA, it will not have to make a separate notification to individuals in the state of New York.
- D. If SMH has more than 500 patients in the state of New York, it will need to make separate notifications to these patients.

**Answer: A**

### **NEW QUESTION # 139**

What is the most important action an organization can take to comply with the FTC position on retroactive changes to a privacy policy?

- A. Obtaining affirmative consent from its customers.
- B. Reassuring customers of the security of their information.
- C. Publicizing the policy changes through social media.
- D. Describing the policy changes on its website.

**Answer: A**

Explanation:

The FTC has stated that it is a deceptive practice to make retroactive changes to a privacy policy that affect how a company uses or shares previously collected personal information, unless the company obtains affirmative consent from the affected consumers. This means that the company must clearly and conspicuously disclose the changes and obtain the consumers' express agreement to them. Simply describing the policy changes on the website, publicizing them through social media, or reassuring customers of the security of their information are not sufficient to comply with the FTC's position. References:

**NEW QUESTION # 140**

Which of the following privacy rights is NOT available under the Colorado Privacy Act?

- A. The right to access sensitive data.
- B. The right to correct sensitive data.
- C. The right to limit the use of sensitive data.
- D. The right to delete sensitive data.

**Answer: C**

Explanation:

The Colorado Privacy Act (CPA) grants consumers the right to access, correct, or delete their personal data, including sensitive data, that is processed by a controller<sup>1</sup>. Sensitive data is defined as personal data that reveals racial or ethnic origin, religious beliefs, mental or physical health condition or diagnosis, sex life or sexual orientation, citizenship or citizenship status, genetic or biometric data, or personal data from a known child<sup>2</sup>. The CPA also grants consumers the right to opt out of the processing of their personal data for purposes of targeted advertising, the sale of personal data, or certain kinds of profiling<sup>3</sup>. However, the CPA does not grant consumers the right to limit the use of sensitive data for other purposes, such as providing a product or service requested by the consumer, complying with legal obligations, or protecting the vital interests of the consumer or another person. Therefore, option D is the correct answer, as it is not a privacy right available under the CPA.
