ACMP Global Certified Change Management Professional Sample Questions (Q37-Q42):

NEW QUESTION # 37

During the execution phase, what can a change manager do to ensure the most effective use of people?

- **A. Integrate human resources with the change to give input on how to execute**
- B. Implement a process for creating, storing, and sharing documents and reports
- C. Establish a process to monitor physical resources and their performance
- D. Implement a controlled spending request and approval process

Answer: A

Explanation:

People are the key enablers of change. To ensure their effective use, ACMP recommends integrating human resources into execution by involving them in planning, coaching, and execution decisions. HR can help align staffing, training, and performance systems to support adoption. Controlled spending (B), monitoring physical resources (C), and document management (D) address other aspects of resource management but not the people side. Thus, option A reflects ACMP's focus on effective utilization of human resources.

(Reference: ACMP Standard, Process Group 4 - Execute; Activity: Leverage human resources effectively to drive change execution.)

NEW QUESTION # 38

How would you best define a change sponsor?

- A. An individual who is accountable for the change implementation
- B. An individual who expects the change implementation to happen
- C. An individual who is enthusiastic about the change implementation
- D. An individual who clearly understands benefits and costs of the change implementation

Answer: A

Explanation:

The sponsor is the accountable executive who owns the outcomes and benefit realization, secures resources, resolves cross-functional issues, and models commitment. Enthusiasm and understanding are helpful, but accountability is the defining characteristic in ACMP guidance. (Reference: ACMP Standard, Sponsorship- accountability for change success; Process Groups 2-4: Sponsorship strategy and engagement.)

NEW QUESTION # 39

What set of inputs would a change manager use to develop an external environment impact assessment?

- A. Stakeholder analysis, vision statement and research
- B. Business case, vision statement and strategic plan
- C. Strategic plan, risk plan and business case
- D. Stakeholder analysis, change inputs and charter

Answer: B

Explanation:

An external environment impact assessment evaluates how external factors (market, social, regulatory) influence the change. ACMP identifies business case, vision statement, and strategic plan as critical inputs.

The business case explains rationale and benefits, the vision provides direction, and the strategic plan ensures alignment. Stakeholder analysis (A, B) is internal, while risk plans (D) address implementation risks.

Therefore, option C is correct.

(Reference: ACMP Standard, Process Group 1 - Evaluate; Activity: Assess external environment using strategic, vision, and business case inputs.)

NEW QUESTION # 40

An organizational design project involving the restructuring of the sales force has just gotten underway and the change management lead is planning where (s)he can apply the recently completed stakeholder analysis assessment. What set of plans would a stakeholder analysis be used to develop?

- A. Sponsorship plan, communication plan and training plan
- B. Resistance management plan, coaching plan and training plan
- C. Sponsorship plan, coaching plan, and training plan
- D. Stakeholder engagement plan, communication plan and training plan

Answer: D

Explanation:

Stakeholder analysis reveals who is impacted, their level of influence, and their readiness. ACMP specifies this analysis as an input to multiple plans, particularly:

* Stakeholder engagement plan (who needs to be engaged and how),

* Communication plan (what messages to whom, by whom, and when),

* Training plan (who requires what type of capability development). Resistance and coaching plans also use insights, but the most direct set linked to stakeholder analysis is answer A. (Reference: ACMP Standard, Process Group 3 - Develop Plan; Inputs:

Stakeholder analysis; Outputs: Stakeholder engagement, communication, and learning plans.)

NEW QUESTION # 41

Why should feedback mechanisms be used to monitor performance of a change management plan?

- A. To enable the team to develop responses and monitor the effectiveness of the change plan
- B. To ensure change adoption and measure change management effectiveness
- C. To identify gaps and outstanding training and development needs
- D. To monitor and track key performance indicators and expected benefits

Answer: A

Explanation:

Feedback mechanisms (surveys, focus groups, one-on-one sessions) serve as a monitoring tool to ensure the change plan is working as intended. According to ACMP, they provide actionable information that allows the change team to develop responses to emerging challenges and adjust the plan. Options B, C, and D are outcomes of feedback but not the fundamental reason for using feedback mechanisms. The core purpose is option A - to monitor effectiveness and adjust accordingly.

(Reference: ACMP Standard, Process Group 4 - Execute; Activity: Use feedback to monitor effectiveness of the plan and inform corrective action.)

NEW QUESTION # 42

.....

Review the products offered by us by downloading CCMP free demos and compare them with the study material offered in online course free and vendors' files. You will find our CCMP exam dumps the better than our competitors such as exam collection and others. The excellent quality of our CCMP exam dumps content, their relevance with the actual CCMP Exam needs and their interactive and simple format will prove them superior and quite pertinent to your needs and requirements. If you just make sure learning of the content in the guide, there is no reason of losing the CCMP exam
