

權威的2V0-11.25考試心得，最有效的考試指南幫助妳壹次性通過2V0-11.25考試

此外，這些VCESoft 2V0-11.25考試題庫的部分內容現在是免費的：https://drive.google.com/open?id=1SR_p3B_GXv2faE0Liu_JPG4iVP0VkwR7

希望成為擁有2V0-11.25認證的IT專業人士嗎？想減少獲得2V0-11.25認證的成本嗎？想通過所有的VMware認證嗎？如果“是”，VCESoft是考生最明智的選擇，為您提供涵蓋最新認證考試問題的最佳題庫學習資料。2V0-11.25題庫可以在您考前模擬真實的考試環境，也是最有效的考古題。利用VMware的2V0-11.25考古題，您將達到你的目的，得到最佳的效果，給您帶來無限大的利益，在您以后的IT行業道路上可以走的更遠。

你已經報名參加了2V0-11.25認證考試嗎？是不是面對一大堆的復習資料和習題感到頭痛呢？VCESoft可以幫您解決這一問題，它絕對是你可以信賴的網站！只要你選擇使用VCESoft網站提供的資料，絕對可以輕鬆通過考試，與其花費時間在不知道是否有用的復習資料上，不如趕緊來體驗VCESoft帶給您的服務，還在等什麼趕緊行動吧。

2V0-11.25考試題庫 & 最新2V0-11.25考證

每個人都有自己的人生規劃，選擇不同得到的就不同，所以說選擇很重要。VCESoft VMware的2V0-11.25考試認證培訓資料是幫助每個IT人士實現自己人生宏偉目標的最好的方式方法，它包括了試題及答案，並且和真實的考試題目不相上下，真的是所謂稱得上是最好的別無二選的培訓資料。

VMware 2V0-11.25 考試大綱：

主題	簡介
主題 1	<ul style="list-style-type: none">Plan and Design the VMware by Broadcom Solution: There are no testable objectives in this section. Still, it is intended for solution architects who need to plan and design VMware Cloud Foundation deployments, focusing on sizing, architecture selection, and networkstorage design.

主題 2	<ul style="list-style-type: none"> • Install, Configure, Administrate the VMware by Broadcom Solution: This section of the exam measures skills of the VMware Cloud Foundation administrator and covers the installation and configuration processes for VMware Cloud Foundation components, deploying and configuring management domains, NSX Edge Clusters, and the VMware Aria Suite Lifecycle. It assesses the ability to deploy workload domains, enable vSphere IaaS control plane, create vSphere namespaces, manage stretched clusters, and use VMware Cloud Foundation APIs. Candidates are also tested on scaling deployments, performing Day 2 operations like backup, recovery, lifecycle management, VM lifecycle management, configuring networking and storage, managing ESXi hosts, implementing encryption, and operationalizing VMware NSX, vSAN, and Aria Suite. The section is comprehensive, targeting those responsible for the ongoing administration and optimization of VMware environments.
主題 3	<ul style="list-style-type: none"> • Troubleshoot and Optimize the VMware by Broadcom Solution: This section of the exam measures skills of the cloud infrastructure support engineer and covers diagnosing and resolving technical issues related to VMware Cloud Foundation deployment and operations. It includes troubleshooting the deployment process, vSphere, networking, vSAN, SDDC Manager, and Aria Suite. The section also evaluates the ability to optimize infrastructure performance, manage resources, and ensure efficient operation, focusing on the practical aspects of maintaining and enhancing VMware Cloud Foundation environments.
主題 4	<ul style="list-style-type: none"> • IT Architectures, Technologies, Standards: There are no testable objectives in this section. However, this area establishes the foundational knowledge expected of cloud administrators, such as understanding basic IT infrastructure, virtualization, and cloud models. This section is relevant for cloud administrators and infrastructure engineers.
主題 5	<ul style="list-style-type: none"> • VMware by Broadcom Solution: This section of the exam measures skills of the cloud administrator and covers identifying VMware Cloud Foundation components like vSphere, vSAN, and NSX, as well as their architecture, including stretched configurations. It also assesses knowledge of requirements for implementing private cloud solutions, use cases for VMware Aria Suite components, vSphere IaaS control plane, Data Services Manager, and VMware Cloud Foundation Add-Ons. The focus is on the ability to recognize and apply the correct VMware solutions for various enterprise scenarios.

最新的 VCP-VCF Administrator 2V0-11.25 免費考試真題 (Q117-Q122):

問題 #117

An administrator is tasked to configure a Content Library to share its contents across multiple vCenter Server instances. What are the necessary steps and considerations to ensure the library is accessible for the consumption by the other vCenter instances?

- A. Create a Local Content Library on each vCenter Server instance and manually synchronize the content.
- B. Create a Subscribed Content Library on each vCenterServer instance without enabling synchronization.
- C. create a Subscribed Content Library on the primary vCenter instance and enable the "Publish" option.
- **D. create a Local Content Library on a primary vCenter Server instance and enable the "Publish" option.**

答案: D

解題說明:

You first create a Local Content Library on the primary vCenter and enable the "Publish" option; this makes its publishing URL available. Then, on each additional vCenter, you create a Subscribed Content Library that points to that URL so content can be automatically synchronized.

問題 #118

An administrator is tasked with troubleshooting an issue where some VMs are not appearing in the vCenter inventory after a recent migration to a new vSphere environment.

Which two components should the administrator examine to resolve this issue? (Choose two.)

- A. The network settings of the new vSphere environment.
- B. The vSphere permissions assigned to the VMs.
- **C. The compatibility of the VM hardware version with the new vSphere environment.**

- D. The registration status of the VMs in the new vSphere environment.
- E. The storage policies applied to the VMs.

答案： C,D

解題說明：

If the hardware version of the virtual machines is incompatible with the new vSphere environment, the VMs may not appear or may fail to register properly. Ensuring compatibility between the VM hardware version and the vSphere environment is essential for successful VM migration.

If the VMs are not correctly registered in the new vSphere environment after migration, they won't show up in the vCenter inventory. Checking the registration status helps to identify if this is the issue.

問題 #119

While deploying the first VI workload domain in a VMware Cloud Foundation (VCF) solution, which two steps will always be performed by SDDC Manager? (Choose two.)

- A. Deploy and configure a new vCenter Server instance for the VI workload domain.
- B. Connect a new vCenter Server instance to the Application Virtual Network.
- C. Deploy a new NSX Manager instance for the VI workload domain.
- D. Configure vSAN as a principal storage for the VI workload domain.
- E. Deploy an NSX Edge cluster and configure BGP routing on the T0 Gateway.

答案： A,C

解題說明：

SDDC Manager always deploys a dedicated NSX Manager instance and a new vCenter Server for each VI workload domain during initial deployment.

問題 #120

An Administrator is tasked with setting up a new workload domain with VMware Cloud Foundation. The workload domain will have the following configuration:

vSphere with Tanzu to support Kubernetes workloads

NSX for container and virtual machine networking

Aria Operations will be configured for monitoring of the infrastructure Which three steps should be taken to complete the installation and configuration of this workload domain? (Choose three.)

- A. Integrate IaaS Control Plane with the existing vCenter Server.
- B. Enable workload management in vCenter Server.
- C. Deploy the Supervisor Cluster for IaaS Control Plane.
- D. Configure NSX segments for Kubernetes namespaces.
- E. Install Aria Operations agents on all ESXi hosts.

答案： B,C,D

解題說明：

NSX segments need to be configured for Kubernetes namespaces to provide network connectivity and isolation for the Kubernetes workloads that will be deployed.

The Supervisor Cluster must be deployed as part of the IaaS Control Plane to manage the Kubernetes workloads and enable vSphere with Tanzu.

Enabling workload management in vCenter Server allows the deployment and management of Kubernetes workloads alongside virtual machines, utilizing vSphere with Tanzu.

問題 #121

What is the primary purpose of configuring a Key Management Server (KMS) in vCenter for VM Encryption?

- A. To manage encryption keys for securing VM data.
- B. To provide high availability for virtual machines.
- C. To monitor network traffic for VMs.
