有效的JN0-253題庫資訊, 高質量的考試題庫幫助妳輕鬆通過JN0-253考試

JN0-253認證考試是現今很受歡迎的考試。還沒有取得這個考試的認證資的你, 肯定也想參加這個考試了吧。確實, 這是一個困難的考試, 但是這也並不是說不能取得高分輕鬆通過考試。那麼, 還不知道通過考試的捷徑的你, 想知道技巧嗎? 我現在告訴你, 那就是PDFExamDumps的JN0-253考古題。

最新的 JNCIA-MistAI JN0-253 免費考試真題 (Q32-Q37):

問題 #32

What are Audit Logs used for in Juniper Mist?

- A. to view error information about all devices in the organization
- B. to manage subscriptions and orders
- **C. to view a complete record of logins**
- D. to set up your organization

答案: C

解題說明:

Audit Logs in Juniper Mist are used to view a complete record of logins. The documentation states: "On the Audit Logs page, you can see who logged in to the Juniper Mist portal, when they logged in, and what they did." Audit Logs also record configuration and

administrative actions by users on all sites within the organization, enabling administrators to track activity for compliance, troubleshooting, and security. This comprehensive record assists with accountability and change tracking, but they do not manage subscriptions, organization setup, or error logs for all devices. Filtering options allow for activity analysis over selectable time periods, by users, and by site to provide detailed insights into administrative behavior and user access history.

問題 #33

You are troubleshooting a wireless client's issue and you suspect it is related to DHCP latency.
In this scenario, which SLE should you review in the Mist UI?

- A. Capacity
- B. Throughput
- C. Coverage
- **D. Time to Connect**

答案: D

解題說明:

Identify the Problem: Suspected issue related to DHCP latency while troubleshooting a wireless client.

Understanding SLEs:

Capacity: Related to the number of clients and bandwidth. Time to Connect: Measures the time taken for clients to connect, including DHCP latency.

Throughput: Measures the data transfer rate.

Coverage: Measures the signal strength and coverage area.

Selecting the Appropriate SLE:

Time to Connect is the relevant SLE as it includes metrics on DHCP latency, which affects the connection time.

Review the SLE:

Analyze the Time to Connect SLE to identify any latency issues with DHCP.

問題 #34

Exhibit:

Referring to the exhibit, how many sites have unused Marvis for Wireless subscriptions?

- A. 0
- **B. 1**
- C. 2
- D. 3

答案: B

解題說明:

In the Juniper Mist Cloud, the Subscriptions page provides administrators with detailed information about the status of service licenses and subscriptions associated with devices, sites, and organizations. This includes visibility into the number of active devices, sites, and any unused subscriptions across the organization.

According to the Juniper Mist Cloud Licensing and Subscription Management Guide, the "Sites" section under Subscriptions Summary shows:

"The total number of configured sites within the organization and the number of sites that currently do not have assigned subscriptions." In the exhibit, the summary shows:

* 82 Sites total

* 15 Unused sites

This indicates that 15 sites currently have no active or assigned Marvis for Wireless subscriptions. The

"Unused" label under Sites refers specifically to the count of sites not yet utilizing their allocated subscription entitlements.

Therefore, the correct answer is B. 15.

問題 #35

Setting the correct time zone for a Mist site provides which benefit?

- A. synchronization of device clocks for accurate scheduling of events
- B. enablement of remote access to the site during specific time slots
- C. optimization of network performance based on time-of-day usage
- **D. facilitation of troubleshooting by aligning event timestamps with local time**

答案： D

解題說明：

Time Zone Importance: Setting the correct time zone for a Mist site ensures that all events and logs are timestamped accurately according to the local time of the site. This is crucial for effective monitoring and troubleshooting.

Facilitation of Troubleshooting: By aligning event timestamps with the local time, network administrators can correlate events more easily with specific incidents reported by users, thereby simplifying the troubleshooting process.

問題 #36

What does the "Exceeded" status mean for a subscription?

- A. The subscription is nearing its expiration date.
- **B. The allowed usage within the subscription has been surpassed.**
- C. The subscription has been cancelled.
- D. The subscription exceeds the number of maximum allowable APs.

答案： B

解題說明：

The "Exceeded" status for a subscription means that the allowed usage defined within the subscription has been surpassed.

This typically refers to exceeding limits such as the number of devices, data usage, or other metrics specified in the subscription plan. Exceeding these limits may require action such as upgrading the subscription plan to accommodate the additional usage.

問題 #37

.....

面對激烈競爭，每個大學生都在為使自己在人才市場上脫穎而出而努力，多一張國際通行證無疑是為他們在就業及其他競爭中在同學中脫穎而出的法寶。所以，通過 Juniper 的 JN0-253 考試認證是我人生中的一大挑戰，需要拼命的努力學習，不過不要緊，你可以購買PDFExamDumps Juniper 的 JN0-253 考試認證培訓資料，幫你輕鬆通過考試。
