When dealing with any kind of exams, the most important thing is to find a scientific way to review effectively. Our 400-007 practice materials compiled by the most professional experts. Till now, we have over tens of thousands of customers around the world supporting our 400-007 exam torrent. If you are unfamiliar with our 400-007 Study Materials, please download the free demos for your reference. To some unlearned exam candidates, you can master necessities by our 400-007 practice materials quickly So our materials are elemental materials you cannot miss.

Cisco 400-007 exam is intended for network architects, network designers, and network engineers who have a deep understanding of network design principles and methodologies. 400-007 exam tests the candidate's ability to design complex networks, analyze business requirements, and develop solutions that meet the needs of their organization.

Cisco 400-007 exam covers a wide range of topics, including network design methodologies, network infrastructure design, routing and switching protocols, security and network management. 400-007 Exam is designed to test the candidate's ability to design complex networks that meet the needs of modern businesses, and it requires a deep understanding of network protocols, technologies, and design principles. Passing the Cisco 400-007 exam is a significant achievement that demonstrates a high level of expertise in network design, and it can help network professionals advance their careers and achieve their professional goals.

Cisco 400-007 Unlimited Exam Practice | 400-007 Hottest Certification

Cisco 400-007 exam materials of TestBraindump is developed in accordance with the latest syllabus. At the same time, we also constantly upgrade our training materials. So our exam training materials is simulated with the practical exam. So that the pass rate of TestBraindump is very high. It is an undeniable fact. Through this we can know that TestBraindump Cisco 400-007 Exam Training materials can brought help to the candidates. And our price is absolutely reasonable and suitable for each of the candidates who participating in the IT certification exams.

Cisco Certified Design Expert (CCDE) Written Exam Sample Questions (Q11-Q16):

NEW QUESTION # 11

The first step to a resilient network is to have a clear strategy for how to achieve it and consider that simplicity modularity, and security play important roles. What is critically important to understand thoroughly while you build a resilient IP network?

- A. high-performance feature of the hardware
- **B. factors affecting the performance of the network**
- C. choice of the device speed to build the network
- D. device speed impacting data plane protocols

Answer: B

NEW QUESTION # 12

Refer to the exhibit.

There are multiple trees in the Cisco FabricPath All switches in the Layer 2 fabric share the same view of each tree. Which two concepts describe how the multicast traffic is load-balanced across this topology? (Choose two)

- **A. A specific (S,G) multicast traffic is load-balanced across all trees due to better link utilization efficiency.**
- B. A specific (S,G) traffic is not load-balanced
- **C. All trees are utilized at the same level of the traffic rate**
- D. The multicast traffic is generally load-balanced across all trees
- E. Every leaf node assigns the specific (S,G) to the same tree.

Answer: A,C

NEW QUESTION # 13

When consumers that leverage IaaS reach 100% resource capacity, what can be used to redirect the overflow of traffic to the public cloud so there is no disruption to service?

- A. Cloud policing
- B. Cloud spill
- **C. Cloud bursting**
- D. Cloud shaping

Answer: C

Explanation:

Cloud Bursting is the process by which applications or workloads that run in a private cloud or data center environment are "bursting" into a public cloud infrastructure during high-demand periods. This prevents service degradation and ensures performance continuity without manual intervention.

In CCDE design strategy terms, this enables:

- * Elastic scalability
- * Cost-effective use of public infrastructure on-demand
- * Seamless service delivery to end users

Options like "cloud policing" and "cloud shaping" are not standard terms, and "cloud spill" is not an established mechanism. "Cloud bursting" is the correct architectural mechanism that addresses this overflow requirement.

NEW QUESTION # 14

During a pre-sales meeting with a potential customer the customer CTO asks a question about advantages of controller-based networks versus a traditional network What are two advantages to mention? (Choose two)

- A. programmatic APIs available per device
- B. distributed control plane
- C. abstraction of individual network devices
- D. per device forwarding tables
- E. consistent device configuration

Answer: C,E

NEW QUESTION # 15

Enterprise XYZ wants to implement fast convergence on their network and optimize timers for OSPF.

However, they also want to prevent excess flooding of LSAs if there is a constantly flapping link on the network. Which timers can help prevent excess flooding of LSAs for OSPF?

- A. OSPF flooding timers
- B. OSPF throttling timers
- C. OSPF delay timers
- D. OSPF propagation timers

Answer: B

Explanation:

OSPF throttling timers control the pacing and frequency of SPF calculations and LSA generation. They help strike a balance between fast convergence and control-plane stability. The key timers include:

- * LSA generation throttling (min/max interval between LSA originations)
- * SPF calculation throttling (delays between consecutive SPF runs)

By tuning these timers, network designers can:

- * Prevent CPU overload caused by rapid or repeated LSA updates due to flapping links
- * Smooth out instability while still enabling responsive convergence

This approach aligns with CCDE v3.1 under "Protocol Design Implications" for optimizing IGP behavior in large, dynamic topologies.

NEW QUESTION # 16

.....

As is known to us, if there are many people who are plugged into the internet, it will lead to unstable state of the whole network, and you will not use your study materials in your lunch time. If you choose our 400-007 exam question as your study tool, you will not meet the problem. Because the app of our 400-007 Exam Prep supports practice offline in anytime. If you buy our products, you can also continue your study when you are in an offline state. You will not be affected by the unable state of the whole network. You can choose to use our 400-007 exam prep in anytime and anywhere.
