

# Practice ADA-C02 Test Engine & New ADA-C02 Learning Materials

Comparing to other training institution, our valid ADA-C02 vce dumps are affordable, latest and cost-effective, which can overcome the difficulty of valid ADA-C02 Actual Test and ensure you pass the exam. It can not only save your time and money, but also help you clear Snowflake practice exam with high rate.

To add all these changes in the ADA-C02 exam questions we have hired a team of exam experts. They regularly update the SnowPro Advanced Administrator ADA-C02 (ADA-C02) exam questions as per the latest ADA-C02 Exam Syllabus. So you have the option to get free ADA-C02 exam questions update for up to 1 year from the date of ADA-C02 exam questions purchase.

## New ADA-C02 Learning Materials - ADA-C02 Exam Questions Answers

You can get prepared with our Snowflake ADA-C02 exam materials only for 20 to 30 hours before you go to attend your exam we can claim that you will achieve guaranteed success with our ADA-C02 study guide for that our high pass rate is unmatched 98% to 100%. And all the warm feedback from our clients proved our strength, you can totally rely on us with our Snowflake ADA-C02 practice quiz!

## Snowflake SnowPro Advanced Administrator ADA-C02 Sample Questions (Q26-Q31):

### NEW QUESTION # 26

A user with the proper role issues the following commands when setting up and activating network policies:

```
CREATE OR REPLACE NETWORK POLICY foo_policy
ALLOWED_IP_LIST = ('1.1.1.0/24', '2.2.2.0/24', '3.3.3.0/24')
BLOCKED_IP_LIST = ('1.1.1.1')
COMMENT = 'Account level policy';
ALTER ACCOUNT SET NETWORK_POLICY=foo_policy;
CREATE OR REPLACE NETWORK POLICY bar_policy
ALLOWED_IP_LIST = ('3.3.3.0/24')
BLOCKED_IP_LIST = ('3.3.3.10')
COMMENT = 'user level policy';
ALTER USER user1 SET NETWORK_POLICY=BAR_POLICY;
```

Afterwards, user1 attempts to log in to Snowflake from IP address 3.3.3.10. Will the login be successful?

- A. Yes, because 3.3.3.10 is found in the ALLOWED\_IP\_LIST of bar\_policy.
- B. No, because 3.3.3.10 is found in the BLOCKED\_IP\_LIST of bar\_policy.

- C. No, because 3.3.3.10 is not found in the ALLOWED\_IP\_LIST of foo\_policy.
- D. Yes, because 3.3.3.10 is found in the ALLOWED\_IP\_LIST of foo\_policy.

**Answer: B**

Explanation:

Although 3.3.3.10 is in the ALLOWED\_IP\_LIST, it is also explicitly listed in the BLOCKED\_IP\_LIST of the user-level policy (bar\_policy). Blocked IPs always take precedence over allowed IPs in Snowflake network policies, so the login attempt will fail.

#### NEW QUESTION # 27

Which function is the role SECURITYADMIN responsible for that is not granted to role USERADMIN?

- A. Reset a Snowflake user's password
- B. Create new users
- C. Create new roles
- D. Manage system grants

**Answer: D**

Explanation:

The SECURITYADMIN role is responsible for managing system grants, such as granting or revoking privileges on roles, which is not permitted for the USERADMIN role.

#### NEW QUESTION # 28

A retailer uses a TRANSACTIONS table (100M rows, 1.2 TB) that has been clustered by the STORE\_ID column (varchar(50)). The vast majority of analyses on this table are grouped by STORE\_ID to look at store performance.

There are 1000 stores operated by the retailer but most sales come from only 20 stores. The Administrator notes that most queries are currently experiencing poor pruning, with large amounts of bytes processed by even simple queries.

Why is this occurring?

- A. The table is not big enough to take advantage of the clustering key.
- B. Sales across stores are not uniformly distributed.
- C. The cardinality of the stores to transaction count ratio is too low to use the STORE\_ID as a clustering key.
- D. The STORE\_ID should be numeric.

**Answer: B**

Explanation:

Clustering is effective when data distribution across the clustering key is relatively uniform. In this case, most transactions are concentrated in only 20 of the 1000 stores, leading to skewed data distribution. This imbalance causes poor pruning, since large portions of micro-partitions still need to be scanned, even for queries targeting specific stores.

#### NEW QUESTION # 29

An Administrator loads data into a staging table every day. Once loaded, users from several different departments perform transformations on the data and load it into different production tables.

How should the staging table be created and used to MINIMIZE storage costs and MAXIMIZE performance?

- A. Create it as an external table, which will not incur Time Travel costs.
- B. Create it as a transient table with a retention time of 0 days.
- C. Create it as a permanent table with a retention time of 0 days.
- D. Create it as a temporary table with a retention time of 0 days.

**Answer: B**

Explanation:

A transient table is best suited for staging because it avoids long-term storage costs by not maintaining Fail-safe and can have Time Travel retention set to 0 days. This minimizes storage costs while still providing performance comparable to permanent tables, making it the optimal choice for daily staging data.

### NEW QUESTION # 30

An Administrator needs to create a sample of the table LINEITEM. The sample should not be repeatable and the sampling function should take the data by blocks of rows.

What select command will generate a sample of 20% of the table?

- A. select \* from LINEITEM sample system (20);
- B. select \* from LINEITEM tablesample block (20 rows);
- C. select \* from LINEITEM sample bernoulli (20);
- D. select \* from LINEITEM tablesample system (20) seed (1);

**Answer: A**

Explanation:

SYSTEM sampling performs block sampling, meaning Snowflake selects entire blocks of rows rather than evaluating each row individually. This satisfies the requirement that the sampling function take data by blocks of rows. Using SYSTEM (20) returns approximately 20% of the table and, since no seed value is specified, the result is not repeatable.

### NEW QUESTION # 31

.....

As soon as you enter the learning interface of our system and start practicing our Snowflake ADA-C02 learning materials on our Windows software, you will find small buttons on the interface. These buttons show answers, and you can choose to hide answers during your learning of our Snowflake ADA-C02 Exam Quiz so as not to interfere with your learning process.

**New ADA-C02 Learning Materials:** <https://www.actual4dumps.com/ADA-C02-study-material.html>

Believe it or not, our ADA-C02 study materials are powerful and useful, which can solve all your pressures about reviewing the ADA-C02 exam, Snowflake Practice ADA-C02 Test Engine Laziness will ruin your life one day, In the same way, IE, Firefox, Opera and Safari, and all the major browsers support the web-based ADA-C02 practice test, In order to enhance your skills in the Actual4Dumps New ADA-C02 Learning Materials world, one has to be efficient enough to keep his/her Actual4Dumps New ADA-C02 Learning Materials skills updated.

Many forensic tools offer you built-in methods for identifying Practice ADA-C02 Test Engine and linking evidence as you uncover it, An Ethernet topology: Only one computer can transmit data at a time.

Believe it or not, our ADA-C02 Study Materials are powerful and useful, which can solve all your pressures about reviewing the ADA-C02 exam, Laziness will ruin your life one day.

## 100% Pass 2026 ADA-C02: SnowPro Advanced Administrator ADA-C02 – Valid Practice Test Engine

In the same way, IE, Firefox, Opera and Safari, and all the major browsers support the web-based ADA-C02 practice test, In order to enhance your skills in the Actual4Dumps ADA-C02 world, one has to be efficient enough to keep his/her Actual4Dumps skills updated.

And in order to obtain the ADA-C02 certification, taking the ADA-C02 exam becomes essential.
