## Latest DEP-2025 Cram Materials & Download DEP-2025 Pdf

If you search for exam materials for your coming exam, you will find that there are so many websites to choose from. And our website is the most reliable one. You can just compare the quality and precision of the DEP-2025 exam questions with ours. Then you will find that our DEP-2025 Study Materials are the best among all the study sources available to you. And we have become a famous brand in this career. You won't regret for your choice.

## Apple Deployment and Management Exam Sample Questions (Q148-Q153):

### NEW QUESTION # 148

Which technology can you use to streamline authentication flows for users enrolling devices using account-driven enrollment into MDM?

- A. Sign in with Apple at Work & School
- **B. Enrollment single sign-on (SSO) for iPhone and iPad**
- C. Biometric authentication
- D. Sign in with Apple

**Answer: B**

Explanation:

Enrollment SSO streamlines account-driven enrollment. The iOS Deployment Reference states, "Enrollment SSO simplifies authentication during account-driven enrollment by allowing users to authenticate once with their Managed Apple ID across the process." Option B is incorrect as it's not a distinct technology here.

Reference:

iOS Deployment Reference, "Enrollment SSO" section.

Apple Platform Deployment Guide, "Account-driven Enrollment" section.

#### NEW QUESTION # 149

What's the benefit of using Managed Apple IDs?

- A. Improves network performance
- B. Simplifies enrollment
- C. Enables organizational control
- D. Allows personalization

**Answer: C**

Explanation:

Managed Apple IDs, created via Apple Business Manager (ABM) or Apple School Manager (ASM), enable organizational control by allowing administrators to manage accounts, restrict features (e.g., iCloud backups), and integrate with MDM for policy enforcement. This contrasts with personal Apple IDs, which prioritize user autonomy. Personalization (option A) is limited with Managed Apple IDs. Network performance (option C) is unrelated, and simplified enrollment (option D) pertains to ADE, not IDs. The Apple Platform Deployment Guide emphasizes control as the key benefit.

#### NEW QUESTION # 150

Which type of Apple ID should an organization create for its employees to separate personal and work data?

- A. Apple ID
- B. Personal Apple ID
- C. Shared Apple ID
- D. Managed Apple ID

**Answer: D**

Explanation:

Managed Apple IDs are created by organizations via Apple Business Manager or Apple School Manager to provide employees or students with accounts that separate personal and work/school data. Unlike personal Apple IDs (options A and C, which are the same), Managed Apple IDs are controlled by the organization, restricting certain features (e.g., iCloud backups) to maintain data separation. Shared Apple IDs (option D) don't exist as a formal type; Shared iPad uses temporary sessions, not IDs. The Apple Platform Deployment Guide recommends Managed Apple IDs for organizational use.

#### NEW QUESTION # 151

Which type of Apple ID should an organization create for its employees to separate personal and work data?

- A. Apple ID
- B. Personal Apple ID
- C. Shared Apple ID
- D. Managed Apple ID

**Answer: D**

Explanation:

Managed Apple IDs are created by organizations via Apple Business Manager or Apple School Manager to provide employees or students with accounts that separate personal and work/school data. Unlike personal Apple IDs (options A and C, which are the same), Managed Apple IDs are controlled by the organization, restricting certain features (e.g., iCloud backups) to maintain data separation. Shared Apple IDs (option D) don't exist as a formal type; Shared iPad uses temporary sessions, not IDs. The Apple Platform Deployment Guide recommends Managed Apple IDs for organizational use.

Reference:Apple Platform Deployment Guide(Chapter: Managed Apple IDs).

### NEW QUESTION # 152

### When does an MDM server token expire?

- A. When new Terms and Conditions are accepted
- B. Every 6 months
- C. Every 12 months
- D. When the Managed Apple Account password is changed

**Answer: C**

Explanation:

Server tokens expire annually. The Apple Business Manager User Guide states, "The MDM server token expires every 12 months and must be renewed to maintain enrollment functionality." References:

Apple Business Manager User Guide, "MDM Server Token" section.

Mobile Device Management Protocol Reference, "Token Renewal" section.

### NEW QUESTION # 153

• • • • •

Purchasing our DEP-2025 training test is not complicated, there are mainly four steps: first, you can choose corresponding version according to the needs you like. Next, you need to fill in the correct email address. And if the user changes the email during the subsequent release, you need to update the email. Then, the user needs to enter the payment page of the DEP-2025 Learning Materials to buy it. Finally, within ten minutes of payment, the system automatically sends the DEP-2025 study materials to the user's email address. And then you can quickly study and pass the DEP-2025 exam.
