Such failure can lead to the loss of time, money, and confidence.

IIBA Entry Certificate in Business Analysis (ECBA) Sample Questions (Q180-Q185):

NEW QUESTION # 180

What is the input status of requirements used by business analysts (BAs) for undertaking requirement verification activities?

- A. Specified and Modeled
- B. Maintained and Reusable
- C. Stated and Unconfirmed
- D. Validated and Prioritized

Answer: A

Explanation:

Input - Requirements (specified and modelled): Any requirement, design, or set of those may be verified to ensure that text is well structured and that matrices and modelling notation are used correctly.

NEW QUESTION # 181

Which of the following techniques is used to elicit business analysis information by examining available materials that describe either the business environment or existing organizational assets?

- A. Observation
- **B. Document analysis**
- C. Use cases and scenarios
- D. Process analysis

Answer: B

NEW QUESTION # 182

What is the main purpose of the "Approve Requirements" task?

- A. Select appropriate techniques
- B. Establish requirements baseline
- **C. Obtain agreement**
- D. Assess alternative approaches

Answer: C

Explanation:

The main purpose of the "Approve Requirements" task in business analysis is to obtain agreement and approval on the requirements and designs from all stakeholders involved in the governance process. This step ensures that there is a shared understanding and commitment to the requirements, which is essential for the successful implementation of the solution. References: The information aligns with the standards and practices outlined in the Business Analysis Body of Knowledge (BABOK) and other learning resources provided by the International Institute of Business Analysis (IIBA)123.

NEW QUESTION # 183

Stakeholders commonly face challenges in prioritizing requirements due to:

- **A. different perceived values.**
- B. inability to work with others.
- C. lack of knowledge.
- D. project time constraints.

Answer: A

Explanation:

Stakeholders often face challenges in prioritizing requirements due to different perceived values. This challenge arises because stakeholders may have varying opinions on what is most important, leading to conflicts and difficulties in reaching a consensus on priority. The diversity in stakeholders' backgrounds, roles, and interests can result in a wide range of perspectives on which requirements should take precedence.

This concept is discussed in the context of business analysis, where prioritizing requirements is a crucial step that aligns project goals with business objectives and stakeholder needs. The differences in perceived values among stakeholders are a well-known challenge in this process 1 .

NEW QUESTION # 184

What is a valid reason for prioritization?
