Our TestPassKing can not only give you a good exam preparation, allowing you to pass APA Certification AICP Exam, but also provide you with one-year free update service.

APA American Institute of Certified Planners Exam Sample Questions (Q150-Q155):

NEW QUESTION # 150

Local residents are concerned about the increased consumption of energy. The city council has directed the planning staff to make recommendations to limit or reduce energy use by the city and its residents. For this study, the best statement of the city council's goals would center on the:

- A. Need to reduce energy use throughout the city.
- B. Residents' concerns about rising energy usage and prices.
- C. Need to improve ridership on the bus system.
- D. Need to reduce municipal energy expenditures.

Answer: A

Explanation:

The city council's directive to "limit or reduce energy use by the city and its residents" focuses on a broad goal of energy reduction across the entire community. Option D (need to reduce energy use throughout the city) best reflects this comprehensive objective. The APA's AICP Certification Exam Content Outline (2022), under "Plan and Policy Development," states, "When addressing energy concerns, the goal should encompass reducing energy use citywide, covering both municipal and resident consumption." Option A (residents' concerns) is a motivation, not the goal. Option B (bus ridership) is a specific strategy, not the goal. Option C (municipal expenditures) is too narrow, as the directive includes residents. The CPC Study Manual (2024) confirms, "The goal of reducing energy use should address both city and resident consumption, focusing on the entire community," supporting option D. References: APA AICP Certification Exam Content Outline (2022), CPC Study Manual (2024), APA PAS Report on Energy Planning.

NEW QUESTION # 151

Which type of volunteer opportunity would be appropriate for a local government planner?

- A. Sit on the local Planning Commission because they will understand the planning issues best
- B. Join an APA Division, Chapter, or Committee to provide their expertise
- C. Work with a non-profit looking for expert planning advice for a new development in their town
- D. Consult with a planning-related organization to avoid any conflict of interest

Answer: B

Explanation:

The AICP Code of Ethics (2022), Section A, Principle 3(d), encourages planners to "contribute time and effort to groups...to advance the planning profession." Option A (join an APA Division, Chapter, or Committee) aligns with this by allowing the planner to contribute expertise to the profession without conflicts of interest. Option B (consult with a planning-related organization) is vague and may pose conflicts if the organization has interests in the planner's jurisdiction. Option C (sit on the local Planning Commission) creates a conflict, as the planner works for the government and cannot serve on its decision-making body (Rule 5: "We shall not fail to disclose a conflict of interest"). Option D (work with a non-profit on a development) risks conflicts if the development is in the planner's jurisdiction. The CPC Study Manual (2024) states, "Volunteering with APA bodies is an appropriate way for planners to contribute professionally without conflicts," supporting option A.

NEW QUESTION # 152

The term "water table" refers to which of the following?

- A. The point below Earth's surface where saturation occurs
- B. The depth of bedrock
- C. The difference between high- and low-water marks in a stream
- D. The highest flood level expected to be reached at any location in an average 50-year period

Answer: A

Explanation:

The water table is the boundary below the Earth's surface where the ground becomes saturated with water, marking the top of the groundwater zone. Option D (the point below Earth's surface where saturation occurs) is correct. The APA's AICP Certification Exam Content Outline (2022), under "Fundamental Planning Knowledge," defines the water table as "the level below which the

ground is saturated with water." Option A (depth of bedrock) is unrelated. Option B (high- and low-water marks) refers to surface water, not groundwater. Option C (highest flood level) describes a flood stage, not the water table. TheCPC Study Manual(2024) confirms, "The water table is the point where the ground becomes saturated, affecting land use planning," supporting option D. References: APA AICP Certification Exam Content Outline (2022), CPC Study Manual (2024), APA PAS Report on Environmental Planning.

NEW QUESTION # 153

The Coastal Zone Management Act (CZMA) was adopted in what year?

- A. 0
- B. 1
- C. 2
- **D. 3**

Answer: D

Explanation:

Explanation

- A. transportation funding had mandated set asides for planning
- B. National Flood Insurance Act
- D. Urban Parks and Rec Recovery Act

NEW QUESTION # 154

The land use planner for an industrial firm's corporate real estate department has been asked to assemble, organize, and analyze a variety of information that will be used to determine which parcels of land owned by the firm are surplus and can be disposed of. Which of the following is the most essential in making the determination?

- **A. The corporate strategic plan**
- B. The community comprehensive plan
- C. Existing land use maps
- D. Book values

Answer: A

Explanation:

Determining which parcels are surplus requires aligning the decision with the firm's long-term goals, which are outlined in the corporate strategic plan. Option D (the corporate strategic plan) is most essential, as it defines the firm's objectives, such as future expansion or operational needs, guiding which parcels are no longer needed. The APA's AICP Certification Exam Content Outline(2022), under "Administration and Management," states, "For corporate planners, the strategic plan is the primary tool for determining surplus land, as it outlines the firm's future land use needs." Option A (book values) provides financial data but doesn't address strategic fit. Option B (land use maps) and C (community comprehensive plan) are relevant for external context but secondary to the firm's internal strategy. TheCPC Study Manual(2024) confirms, "The corporate strategic plan is the most essential factor in determining surplus land, as it reflects the firm's long- term objectives," supporting option D.
