SAP C-ACDET-2506 Practice Material is from our company which made these C-ACDET-2506 practice materials with accountability. And C-ACDET-2506 Training Materials are efficient products. What is more, SAP C-ACDET-2506 Exam Prep is appropriate and respectable practice material.

SAP C-ACDET-2506 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Field Configuration: This domain evaluates the knowledge of an SAP Deployment Specialist and focuses on customizing and configuring business fields in the SAP system according to client-specific needs. This includes adjusting system settings for master data, transaction data, and other essential field-level controls to support business processes effectively. The section tests the candidate's ability to use configuration tools, apply SAP standard templates, and ensure that the field configurations align with the desired operational workflows of the business. It also touches upon validation, testing, and documenting the configuration changes made during the implementation.
Topic 2	<ul style="list-style-type: none">Deploy and Migration: This part of the exam assesses the expertise of an SAP Deployment Specialist and focuses on the final deployment of the configured solution and the data migration process. Candidates should demonstrate a solid grasp of how to move configurations from a testing environment into production while minimizing disruption. It also includes knowledge of tools and strategies used for data extraction.

Topic 3	<ul style="list-style-type: none"> • Project Overview, Roles and Responsibilities: This section of the exam measures the skills of an SAP Cloud Consultant and covers the fundamental understanding of SAP Activate methodology within the context of a cloud implementation project. Candidates are expected to be familiar with the project lifecycle, including phases such as Prepare, Explore, Realize, Deploy, and Run. This part also focuses on identifying key roles and responsibilities within a cloud project team, ensuring clarity in collaboration between consultants, clients, and SAP. It checks whether the consultant understands governance, stakeholder management, and the high-level structure of cloud deployment using SAP best practices.

Free PDF C-ACDET-2506 - Authoritative SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite Valid Test Practice

We have to admit that the professional certificates are very important for many people to show their capacity in the highly competitive environment. If you have the SAP certification, it will be very easy for you to get a promotion. If you hope to get a job with opportunity of promotion, it will be the best choice chance for you to choose the C-ACDET-2506 study question from our company. Because our study materials have the enough ability to help you improve yourself and make you more excellent than other people. The C-ACDET-2506 learning dumps from our company have helped a lot of people get the certification and achieve their dreams. Now you also have the opportunity to contact with the SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite test guide from our company.

SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite Sample Questions (Q11-Q16):

NEW QUESTION # 11

Which of the following applies in a Greenfield deployment scenario when migrating configurations from your test site?

- A. You can revert migrated configurations from the target site.
- **B. The status changes to Complete when migration is finished.**
- **C. You cannot make other configuration updates in ICM when a migration operation is in progress.**
- D. If any configuration type fails during the migration process, you cannot create a new migration request.

Answer: B,C

Explanation:

During Greenfield migrations using the Intelligent Configuration Manager (ICM), no other configuration updates can be made in ICM while a migration operation is active to ensure stability and consistency of the migration bundle. Additionally, once the migration finishes successfully, the status updates to

"Complete", indicating the configuration is fully migrated and applied.

Contrary to option A, there is no built-in revert or rollback feature in ICM for deployed configurations; changes require new migration cycles. Option D is incorrect because if a migration fails, you can correct the issues and create a new migration request to retry. This process ensures controlled and orderly deployment of configurations.

NEW QUESTION # 12

Which syntax is used for writing custom Validity Conditions?

- A. XML
- B. Python
- **C. Scheme**
- D. Regular expression

Answer: C

NEW QUESTION # 13

Custom partner bundles can be leveraged to share and apply baselines in which deployment scenario?

- A. Greenfield
- B. Bluefield
- C. Brownfield
- D. Grayfield

Answer: A

NEW QUESTION # 14

What is the recommended order of operations for creating a required Flex Master Data (FMD) type field in a project header?

- A. 1. Create the FMD template 2. Create the FMD type field 3. Load the data
- B. 1. Load the data 2. Create the FMD type field 3. Create the FMD template
- C. 1. Create the FMD type field 2. Create the FMD template 3. Load the data
- D. 1. Create the FMD template 2. Load the data 3. Create the FMD type field

Answer: A

Explanation:

The correct order is to first create the Flex Master Data (FMD) template, which defines the structure and attributes of the data. Then, create the FMD type custom field in the project header referencing that template. Finally, load the master data records into the template via CSV import. This sequence ensures the field has a valid template to reference, and data is available when users interact with the field.

NEW QUESTION # 15

Which data elements are shared in a Suite-Integrated Environment? (Select 3 correct answers)

- A. Exception Types
- B. Users
- C. Supplier Catalogs
- D. User Group mapping
- E. Suppliers

Answer: B,D,E

Explanation:

In a Suite-Integrated SAP Ariba environment, master data elements such as Suppliers, Users, and User Group mappings are shared across sourcing and procurement modules, enabling unified access and data consistency. Supplier Catalogs and Exception Types are not typically shared master data in this context. This integration supports seamless workflows and consistent security roles, enhancing usability and governance.

NEW QUESTION # 16

.....

It is not easy for you to make a decision of choosing the C-ACDET-2506 prep guide from our company, because there are a lot of study materials about the exam in the market. However, if you decide to buy the C-ACDET-2506 test practice files from our company, we are going to tell you that it will be one of the best decisions you have made in recent years. As is known to us, the C-ACDET-2506 study braindumps from our company are designed by a lot of famous experts and professors in the field. There is no doubt that the C-ACDET-2506 prep guide has the high quality beyond your imagination. Choosing the C-ACDET-2506 study braindumps from our company can but prove beneficial to all people. We believe that our products, at all events, worth a trial.
