NEW QUESTION # 107

Which of the following entities assumes ownership of goods once loaded on an ocean vessel using Incoterms freight on board (FOB)?

- A. The carrier
- B. The insurer
- **C. The buyer**
- D. The seller

Answer: C

Explanation:

Under Incoterms 2020, freight on board (FOB) means that the seller fulfills their obligation to deliver when the goods have passed over the ship's rail at the named port of shipment. At this point, the buyer assumes ownership and responsibility for the goods, including any risk of loss or damage during transit. The carrier, seller, and insurer do not assume ownership; rather, their roles pertain to transport, provision of goods, and risk coverage, respectively. References:

NEW QUESTION # 108

Which of the following factors typically is most important to a company that uses the chase production strategy when evaluating potential suppliers for a component?

- A. Supplier's certification status
- B. Quoted delivery time
- **C. Supplier's agility**
- D. Quoted total price

Answer: C

Explanation:

The chase production strategy aims to match production rates to demand by adjusting output to meet fluctuating demand levels. For a company using this strategy, a supplier's agility is paramount. Agility refers to the supplier's ability to rapidly respond to changes in demand, which is critical for maintaining production schedules and minimizing inventory costs. The supplier's certification status, quoted delivery time, and quoted total price are also important but secondary to the ability to quickly adjust to changing needs, ensuring a smooth and responsive supply chain.
