

# Microsoft - DP-700 - Implementing Data Engineering Solutions Using Microsoft Fabric—Reliable Free Sample Questions

2026 Latest ExamcollectionPass DP-700 PDF Dumps and DP-700 Exam Engine Free Share: <https://drive.google.com/open?id=12pGtK17ThnbSC4UQ6BUgoa8tfCZ9aEuK>

With three versions of products, our DP-700 learning questions can satisfy different taste and preference of customers with different use: PDF & Software & APP versions. Without ambiguous points of questions make you confused, our DP-700 practice materials can convey the essence of the content suitable for your exam. With our DP-700 exam guide, you will achieve what you are expecting with ease.

## Microsoft DP-700 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>• <b>Ingest and transform data:</b> This section of the exam measures the skills of Data Engineers that cover designing and implementing data loading patterns. It emphasizes preparing data for loading into dimensional models, handling batch and streaming data ingestion, and transforming data using various methods. A skill to be measured is applying appropriate transformation techniques to ensure data quality.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>• <b>Monitor and optimize an analytics solution:</b> This section of the exam measures the skills of Data Analysts in monitoring various components of analytics solutions in Microsoft Fabric. It focuses on tracking data ingestion, transformation processes, and semantic model refreshes while configuring alerts for error resolution. One skill to be measured is identifying performance bottlenecks in analytics workflows.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>• <b>Implement and manage an analytics solution:</b> This section of the exam measures the skills of Microsoft Data Analysts regarding configuring various workspace settings in Microsoft Fabric. It focuses on setting up Microsoft Fabric workspaces, including Spark and domain workspace configurations, as well as implementing lifecycle management and version control. One skill to be measured is creating deployment pipelines for analytics solutions.</li></ul>

## Free Sample DP-700 Questions | Pass-Sure Microsoft DP-700: Implementing Data Engineering Solutions Using Microsoft Fabric

The Implementing Data Engineering Solutions Using Microsoft Fabric exam questions are very similar to actual Implementing Data Engineering Solutions Using Microsoft Fabric DP-700 Exam Questions. So it creates a real DP-700 exam scenario for trustworthy users. As it is a Browser-Based Implementing Data Engineering Solutions Using Microsoft Fabric DP-700 practice exam so there is

no need for any installation. The Web-Based Implementing Data Engineering Solutions Using Microsoft Fabric practice exam is supported by all major browsers like Chrome, IE, Firefox, Opera, and Safari. Furthermore, no special plugins are required to start your journey toward a bright career.

## Microsoft Implementing Data Engineering Solutions Using Microsoft Fabric Sample Questions (Q35-Q40):

### NEW QUESTION # 35

You have a Microsoft Power Apps app named App1 that has data stored in Microsoft Dataverse. You need to access the App1 data by using Fabric. What should you use?

- A. Dataflow Gen2
- B. a shortcut
- C. mirroring
- D. a data pipeline

**Answer: A**

### NEW QUESTION # 36

You have a Fabric workspace named Workspace1 that contains a warehouse named Warehouse2. A team of data analysts has Viewer role access to Workspace1. You create a table by running the following statement.

```
CREATE TABLE [warehouse2].[dbo].[CreditCard]
(
    CreditCard varchar(20) NOT NULL
    ,CreditCardType varchar(10) NOT NULL)
GO
```

You need to ensure that the team can view only the first two characters and the last four characters of the Creditcard attribute. How should you complete the statement? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

The screenshot shows the Microsoft Fabric SQL editor interface. The main window displays the following SQL statement:

```
ALTER TABLE [warehouse2].[dbo].[CreditCard]
    ALTER COLUMN [CreditCard]
    WITH (FUNCTION = 'PARTIAL') (2, 'XXXXXXXXXX', 4)
```

The 'ALTER COLUMN' clause is selected, and the 'WITH (FUNCTION = 'PARTIAL')' dropdown menu is open, showing the following options:

- ALTER
- CREATE
- DEFAULT
- DROP
- EMAIL
- PARTIAL
- REPLACE
- UPDATE

The 'PARTIAL' option is selected, and the dropdown menu is closed. The 'ALTER COLUMN' clause is also selected, and the 'WITH (FUNCTION = 'PARTIAL')' dropdown menu is open, showing the following options:

- ALTER
- CREATE
- DEFAULT
- DROP
- EMAIL
- PARTIAL
- REPLACE
- UPDATE

The 'PARTIAL' option is selected, and the dropdown menu is closed. The 'WITH (FUNCTION = 'PARTIAL')' dropdown menu is open, showing the following options:

- ALTER
- CREATE
- DEFAULT
- DROP
- EMAIL
- PARTIAL
- REPLACE
- UPDATE

The 'PARTIAL' option is selected, and the dropdown menu is closed.

**Answer:**

Explanation:

ALTER TABLE dbo.CreditCard  
COLUMN [CreditCard]

ALTER  
CREATE  
DEFAULT  
DROP  
EMAIL  
PARTIAL  
REPLACE  
UPDATE

ALTER  
ALTER  
CREATE  
DEFAULT  
DROP  
EMAIL  
PARTIAL  
REPLACE  
UPDATE

WITH (FUNCTION = ' (2, "XXXXXXXXXX", 4)')

PARTIAL  
ALTER  
CREATE  
DEFAULT  
DROP  
EMAIL  
PARTIAL  
REPLACE  
UPDATE

**NEW QUESTION # 37**

You have an Azure Data Lake Storage Gen2 account named storage1 and an Amazon S3 bucket named storage2. You have the Delta Parquet files shown in the following table.

Name	Stored in	Size	Description
ProductFile	storage1	50 MB	Contains a list of products and their details
TripsFile	storage2	2 GB	Contains one month's worth of taxi trip data
StoreFile	storage2	25 MB	Contains a list of stores and their addresses

You have a Fabric workspace named Workspace1 that has the cache for shortcuts enabled. Workspace1 contains a lakehouse named Lakehouse1. Lakehouse1 has the following shortcuts:

The data from which shortcuts will be retrieved from the cache?

- A. Trips and Stores only
- B. Products, Stores, and Trips
- C. Stores only
- D. Products only
- E. Products and Store only

**Answer: E**

**Explanation:**

When the cache for shortcuts is enabled in Fabric, the data retrieval is governed by the caching behavior, which generally retains data for a specific period after it was last accessed. The data from the shortcuts will be retrieved from the cache if the data is stored in locations that support caching. Here's a breakdown based on the data's location:

**Products:** The ProductFile is stored in Azure Data Lake Storage Gen2 (storage1). Since Azure Data Lake is a supported storage system in Fabric and the file is relatively small (50 MB), this data is most likely cached and can be retrieved from the cache.

**Stores:** The StoreFile is stored in Amazon S3 (storage2), and even though it is stored in a different cloud provider, Fabric can cache data from Amazon S3 if caching is enabled. This data (25 MB) is likely cached and retrievable.

**Trips:** The TripsFile is stored in Amazon S3 (storage2) and is significantly larger (2 GB) compared to the other files. While Fabric can cache data from Amazon S3, the larger size of the file (2 GB) may exceed typical cache sizes or retention windows, causing this file to likely be retrieved directly from the source instead of the cache.

**NEW QUESTION # 38**

You are building a Fabric notebook named MasterNotebook1 in a workspace. MasterNotebook1 contains the following code.

```

DAG = {
  "activities": [
    {
      "name": "execute_notebook_1",
      "path": "notebook_01",
      "timeoutPerCellInSeconds": 600,
      "args": {
        "input_value": "999"
      },
      "retry": 1,
      "retryIntervalInSeconds": 30
    },
    {
      "name": "execute_notebook_2",
      "path": "notebook_02",
      "timeoutPerCellInSeconds": 400,
      "args": {
        "input_value": "888"
      },
      "retry": 1,
      "retryIntervalInSeconds": 30
    },
    {
      "name": "execute_notebook_3",
      "path": "notebook_03",
      "timeoutPerCellInSeconds": 600,
      "args": {
        "input_value": "777"
      },
      "retry": 1,
      "retryIntervalInSeconds": 30
    }
  ],
  "timeoutInSeconds": 43200,
  "concurrency": 0
}

```

You need to ensure that the notebooks are executed in the following sequence:

1. Notebook\_03
2. Notebook\_01
3. Notebook\_02

Which two actions should you perform? Each correct answer presents part of the solution. NOTE: Each correct selection is worth one point.

- A. Move the declaration of Notebook\_02 to the bottom of the Directed Acyclic Graph (DAG) definition.
- B. Change the concurrency to 3.
- C. Add dependencies to the execution of Notebook\_03.
- D. Add dependencies to the execution of Notebook\_02.
- E. Split the Directed Acyclic Graph (DAG) definition into three separate definitions.
- F. Move the declaration of Notebook\_03 to the top of the Directed Acyclic Graph (DAG) definition.

**Answer: D,F**

**NEW QUESTION # 39**

You have a Fabric workspace that contains a semantic model named Modell.  
You need to dynamically execute and monitor the refresh progress of Modell.  
What should you use?

- A. Monitoring hub
- B. dynamic management views in Azure Data Studio
- C. dynamic management views in Microsoft SQL Server Management Studio
- **D. a semantic link in a notebook**

**Answer: D**

Explanation:

Semantic models in Microsoft Fabric are part of Power BI datasets and require refreshes to stay updated with the latest data. Dynamically executing and monitoring the refresh progress requires a tool or approach that integrates with Fabric's capabilities for semantic models.

## NEW QUESTION # 40

.....

Are you still worried about not passing the DP-700 exam? Do you want to give up because of difficulties and pressure when reviewing? You may have experienced a lot of difficulties in preparing for the exam, but fortunately, you saw this message today because our well-developed DP-700 Study Materials will help you tide over all the difficulties. As a multinational company, our DP-700 study materials serve candidates from all over the world. No matter which country you are currently in, you can be helped by our DP-700 study materials.
