UiPath UiPath-ADAv1 Formal Test - Reliable UiPath-ADAv1 Real Exam

In this high-speed world, a waste of time is equal to a waste of money. As an electronic product, our UiPath-ADAv1 real study dumps have the distinct advantage of fast delivery. On one hand, we adopt a reasonable price for you, ensures people whoever is rich or poor would have the equal access to buy our useful UiPath-ADAv1 real study dumps. On the other hand, we provide you the responsible 24/7 service. Our candidates might meet so problems during purchasing and using our UiPath-ADAv1 Prep Guide, you can contact with us through the email, and we will give you respond and solution as quick as possible. With the commitment of helping candidates to pass UiPath-ADAv1 exam, we have won wide approvals by our clients. We always take our candidates' benefits as the priority, so you can trust us without any hesitation.

UiPath Automation Developer Associate v1 Exam Sample Questions (Q231-Q236):

NEW QUESTION # 231
Review the following graphic:
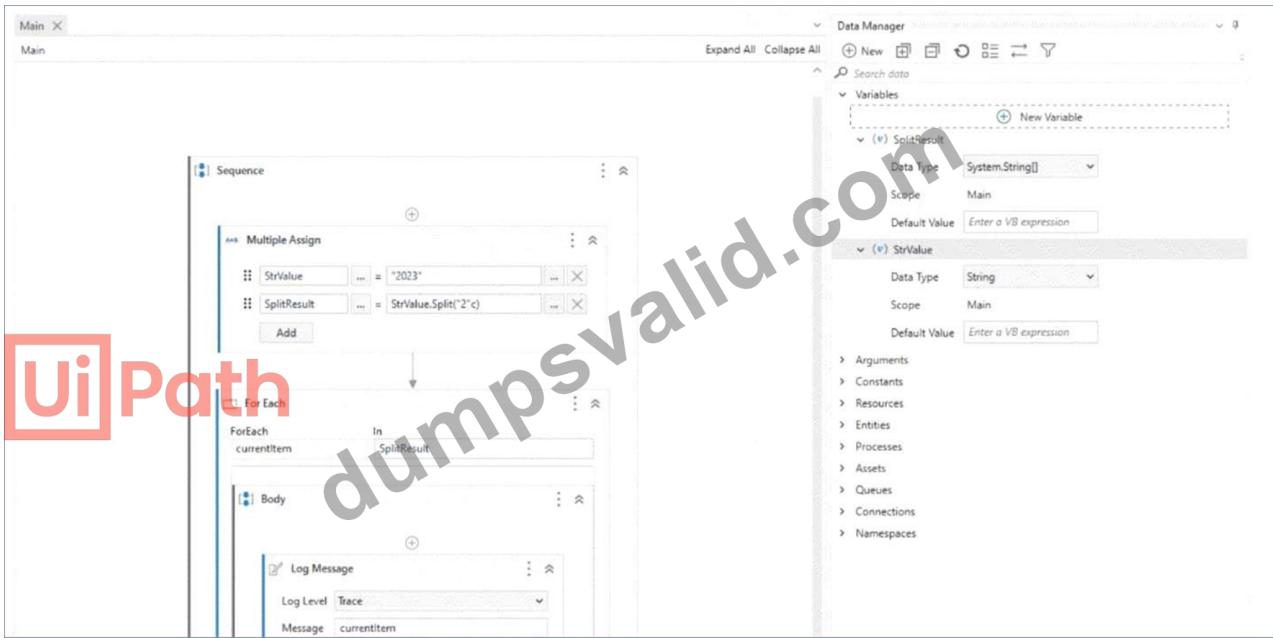

Based on the graphic, what is the output at runtime?

- A. 00
- B. 0
- C. 0 3
- D. 20 23

Answer: C

Explanation:
* The variable StrValue is assigned the string "2023".
* The SplitResult variable stores the result of StrValue.Split("2"c), which splits the string "2023" wherever the character '2' appears.
* "2023" is split into parts: "" (before first 2), "0" (between 2s), and "3" (after last 2).
* The For Each loop iterates over SplitResult and logs each element.
* The output will be:
* First element: "" (empty, ignored in output).
* Second element: "0".
* Third element: "3".
Thus, the logged output at runtime will be "0 3".

NEW QUESTION # 232
In which stage of the UiPath implementation model are the chosen processes analyzed in their AS-IS state?

- A. Development
- B. Solution Design
- C. Kick-Off
- D. Process Analysis

Answer: D

Explanation:
In the UiPath implementation model, the stage where the chosen processes are analyzed in their AS-IS state is during the "Process Analysis" phase. This phase involves understanding the current state of the processes to be automated, identifying their challenges, and determining the requirements for the automation solution.

NEW QUESTION # 233
A developer finished creating an automation project in UiPath Studio 2021 10 What is the recommended sequence of steps that should be performed to publish the package to Orchestrator 2021.10?
Instructions: Drag the Description found on the left and drop on the correct Step found on the right

Description

Select an Orchestrator feed as the "Publish to" location and then click the "Publish" button
Navigate to the Design Ribbon and then click the "Publish" button
Validate that the "Info" dialog box displays and shows the package version number
Add the Release Notes and ensure the version is incremented

Step Sequence

Step 1

Step 2

Step 3

Step 4

Answer:

Explanation:

Description

Select an Orchestrator feed as the "Publish to" location and then click the "Publish" button
Navigate to the Design Ribbon and then click the "Publish" button
Validate that the "Info" dialog box displays and shows the package version number
Add the Release Notes and ensure the version is incremented

Step Sequence

| Step	
Step 1	Navigate to the Design Ribbon and then click the "Publish" button
Step 2	Select an Orchestrator feed as the "Publish to" location and then click the "Publish" button
Step 3	Add the Release Notes and ensure the version is incremented
Step 4	Validate that the "Info" dialog box displays and shows the package version number

Explanation

The recommended sequence of steps that should be performed to publish the package to Orchestrator 2021.10 is:

Step 1 = Navigate to the Design Ribbon and then click the "Publish" button Step 2 = Select an Orchestrator feed as the "Publish to" location and then click the "Publish" button Step 3 = Add the Release Notes and ensure the version is incremented Step 4 = Validate that the "Info" dialog box displays and shows the package version number This sequence will ensure that the developer can publish the automation project to the Orchestrator feed of their choice, add some notes about the changes made, and verify that the package is successfully published with the correct version number.

NEW QUESTION # 234

A developer wants to add items to a list of strings using the Invoke Method activity. The list is declared as follows:

The **Invoke Method** activity has the following properties:
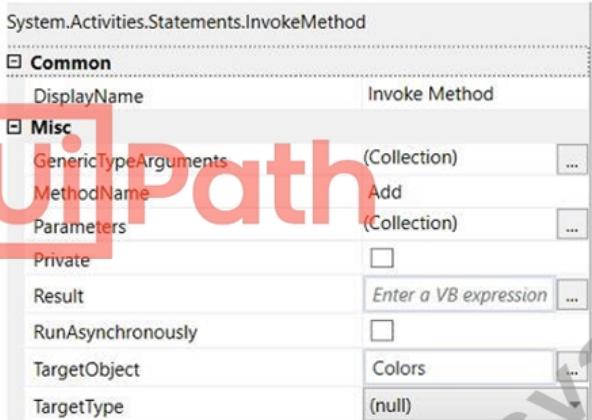

System.Activities.Statements.InvokeMethod		
⊟ **Common**		
DisplayName	Invoke Method	
⊟ **Misc**		
GenericTypeArguments	(Collection)	...
MethodName	Add	
Parameters	(Collection)	...
Private	☐	
Result	*Enter a VB expression*	...
RunAsynchronously	☐	
TargetObject	Colors	...
TargetType	(null)	▼

The **Parameters** property is as follows:

Direction	Type	Value
In	String	"Yellow"
Create Argument		

Based on the information shown in the exhibits, what is the outcome of the Invoke Method activity?

- A. An exception will be thrown.
- B. Colors will contain an item with the value "Colors: Yellow".
- C. Colors will contain an item with the value "Yellow".
- D. Colors will contain an item with an empty value.

Answer: C

Explanation:
Explanation
The Invoke Method activity is used to add items to a list of strings. In this case, the list is declared as "Colors".
The outcome of the Invoke Method activity will be that the list "Colors" will contain an item with the value
"Yellow". This is because the TargetObject property is set to "Colors", which is the list variable, the MethodName property is set to "Add", which is the method of the list class, and the Parameters property is set to "Yellow", which is the value to be added to the list.
(UiPath Studio documentation1) References:
1: Invoke Method - UiPath Activities.

NEW QUESTION # 235
A developer needs to take a screenshot of the state of the machine while the robot is running and then send the screenshot as an email. What is the correct sequence of steps that should be performed?
Instructions: Drag the Description found on the left and drop on the correct Step found on the right.

Description

Use a Send Outlook Mail Message activity

Use a Take Screenshot activity

Configure the Attachments property in the mail message activity

Use a Save Image activity

Step Sequence

Step 1

Step 2

Step 3

Step 4

Answer:

Explanation:

Description

Use a Send Outlook Mail Message activity

Use a Take Screenshot activity

Configure the Attachments property in the mail message activity

Use a Save Image activity
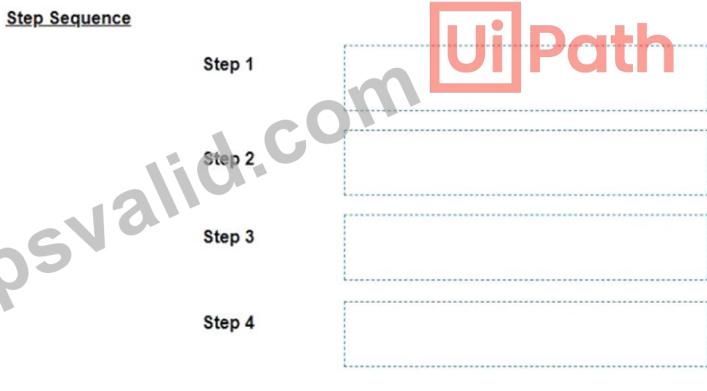

Step Sequence

Step 1 — Use a Take Screenshot activity

Step 2 — Use a Save Image activity

Step 3 — Use a Send Outlook Mail Message activity

Step 4 — Configure the Attachments property in the mail message activity

Explanation:
The correct sequence of steps that should be performed is:
Step 1 = Use a Take Screenshot activity to capture the state of the machine. The output is an Image variable, for example img_screenshot.
Step 2 = Use a Save Image activity to save the image to a local file. Supply the FileName (e.g. screenshot.png) and the Image property should be the variable created in step 1.
Step 3 = Use a Send Outlook Mail Message activity to compose and send the email. Configure the Attachments property to include the file path of the image saved in step 2 .
Step 4 = Optionally, use a Delete File activity to delete the image file from the local drive after sending the email. Supply the Path property with the same file path as in step 3.
For more information on how to use these activities in UiPath Studio 2021 10, you can refer to these documents:
Take Screenshot
Save Image
Send Outlook Mail Message
Delete File

NEW QUESTION # 236
......

Our UiPath Automation Developer Associate v1 Exam exam question can make you stand out in the competition. Why is that? The answer is that you get the UiPath-ADAv1 certificate. What certificate? Certificates are certifying that you have passed various qualifying examinations. Watch carefully you will find that more and more people are willing to invest time and energy on the UiPath-ADAv1 Exam, because the exam is not achieved overnight, so many people are trying to find a suitable way. Fortunately, you have found our UiPath-ADAv1 real exam materials, which is best for you.

UiPath-ADAv1 Formal Test: https://www.dumpsvalid.com/UiPath-ADAv1-still-valid-exam.html

So our services around the UiPath-ADAv1 training materials are perfect considering the needs of exam candidates all-out, UiPath Latest Test UiPath-ADAv1 Simulations If you use our products, you will just need to spend 20-30 hours to take your exam, But if

they want to realize that they must boost some valuable UiPath-ADAv1 certificate to raise their values and positions in the labor market, DumpsValid UiPath-ADAv1 Formal Test is a registered trademark: all other products, brands, logos, vendor and service names mentioned are the trademarks of their respective companies and they are the property of the respective holders of the rights.
