

Trustworthy Fortinet FCP_ZCS-AD-7.4 Exam Torrent, Exam FCP_ZCS-AD-7.4 Material

BONUS!!! Download part of Exams4Collection FCP_ZCS-AD-7.4 dumps for free: <https://drive.google.com/open?id=1dBoYahZoLo4Jp5sP-6De5rr6y69qUZ8H>

The Fortinet FCP_ZCS-AD-7.4 online practice test engine that comes with the FCP - Azure Cloud Security 7.4 Administrator (FCP_ZCS-AD-7.4) exam questions from Exams4Collection assists you in simulating the real FCP - Azure Cloud Security 7.4 Administrator (FCP_ZCS-AD-7.4) exams. This is excellent for familiarizing yourself with the FCP - Azure Cloud Security 7.4 Administrator and learning what to anticipate on test day. You can also use the Fortinet Practice Test (Links to an external site.) engine to monitor your progress and review your answers to see where you need to improve for the FCP - Azure Cloud Security 7.4 Administrator (FCP_ZCS-AD-7.4) exam.

One of the best features of Fortinet FCP_ZCS-AD-7.4 exam dumps is its FCP - Azure Cloud Security 7.4 Administrator exam passing a money-back guarantee. Now with Exams4Collection FCP_ZCS-AD-7.4 exam dumps your investment is secured with a money-back guarantee. If you fail in Fortinet FCP_ZCS-AD-7.4 Exam despite using Exams4Collection Exam Questions you can claim your paid amount.

Exam FCP_ZCS-AD-7.4 Material - Reliable FCP_ZCS-AD-7.4 Exam Cost

The pass rate is 98.65%, and we pass guarantee and money back guarantee if you fail to pass the exam by using FCP_ZCS-AD-7.4 learning materials of us. We have a broad market in the world with the high quality of FCP_ZCS-AD-7.4 exam dumps, and if you choose us we will help you pass the exam just one time. In addition FCP_ZCS-AD-7.4 Training Materials of us also have free update for one year after purchasing. We also have the professional service stuff to answer all questions of you. If you have a try, you will never regret.

Fortinet FCP - Azure Cloud Security 7.4 Administrator Sample Questions (Q20-Q25):

NEW QUESTION # 20

How are the configurations synchronized between two FortiGate VMs in an active-passive HA with SDN connector failover deployed from the Azure marketplace?

- A. By configuring FGSP on the primary
- B. An Azure function distributes the configuration files
- C. Using system autoscaling during a failover
- D. Using unicast FGCP

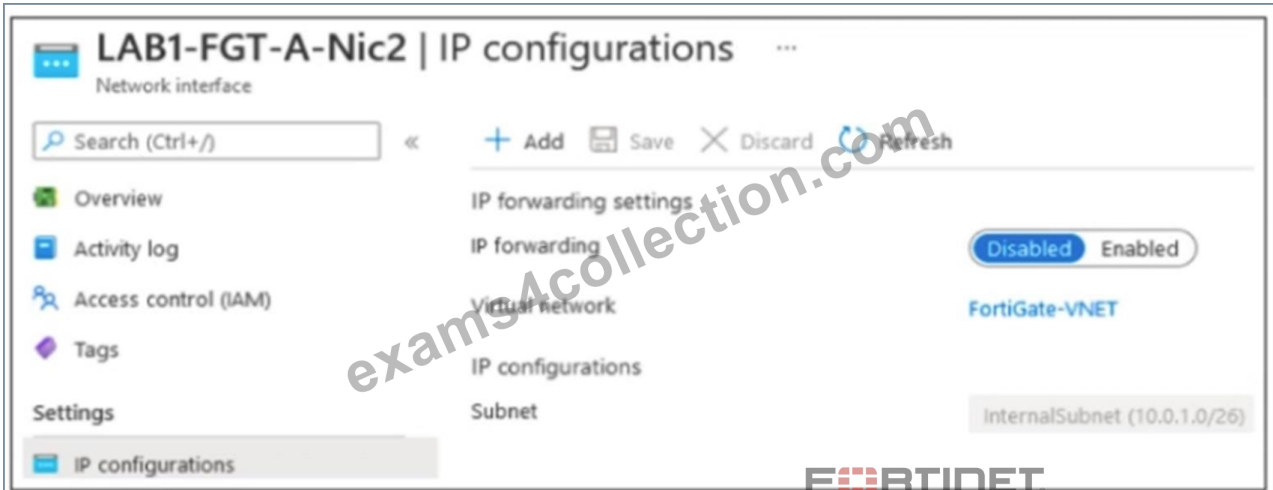

Answer: D

Explanation:

In an active-passive HA deployment of FortiGate VMs in Azure using the Marketplace template, configuration synchronization is handled via unicast FortiGate Clustering Protocol (FGCP). FGCP allows the primary unit to replicate its configuration and session information to the secondary unit, ensuring seamless failover.

NEW QUESTION # 21

Refer to the exhibit.

The exhibit shows some of the properties of a virtual NIC that is used by a FortiGate VM deployed in Azure.

The virtual NIC shown is connected to a subnet (10.0.1.0/26) with several VMs that will be accessing the internet through the FortiGate VM.

Which statement is true for this scenario?

- A. The NIC in the exhibit needs to be assigned a public IP address.
- **B. You must change the default gateway on the VMs in the Internal Subnet for this to work.**
- C. The parameters of the virtual NIC are not configured correctly.
- D. The VMs in the 10.0.1.0/26 subnet can access the internet through FortiGate.

Answer: B

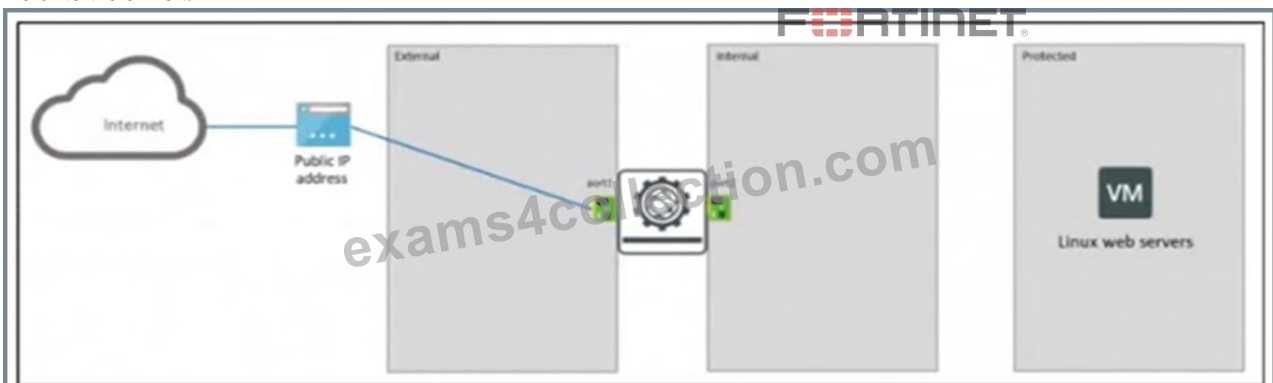

Explanation:

For VMs in the 10.0.1.0/26 subnet to access the internet through the FortiGate VM, their default gateway must be changed to the internal IP address of the FortiGate's NIC in that subnet (e.g., LAB1-FGT-A-Nic2).

This ensures traffic is routed through FortiGate for inspection and NAT, rather than directly using Azure's default system routes.

NEW QUESTION # 22

Refer to the exhibit.

Your company runs front-end web servers in Azure. You need to deploy a Linux VM to be used as a web server.

To protect your web servers with a web application firewall (WAF), you deploy FortiWeb to secure applications from web-based attacks.

Which FortiWeb operation mode can you implement for this scenario?

- **A. Reverse proxy**

- B. Transparent inspection
- C. Passive monitoring
- D. True transparent proxy

Answer: A

Explanation:

The Reverse Proxy mode is the most appropriate FortiWeb operation mode for this scenario. In this mode, FortiWeb sits between internet users and the Linux web servers, terminating client connections and then forwarding requests to the backend servers. This enables deep inspection, protection from web attacks (like SQL injection and XSS), and full WAF functionality, making it ideal for securing front-end web servers exposed to the internet.

NEW QUESTION # 23

Which role does the local network gateway play in FortiGate to Azure VPN connectivity?

- A. It is responsible for load balancing traffic between FortiGate and Azure
- B. It manages the encryption keys for the VPN connection
- C. It represents the Azure VPN Gateway in the FortiGate configuration
- D. It defines the IP addresses of the on-premises network

Answer: D

Explanation:

The local network gateway in Azure represents the on-premises VPN device (such as FortiGate) and defines the on-premises public IP address and the address prefixes of the on-premises network. This is essential for configuring site-to-site VPN connections from Azure to FortiGate.

NEW QUESTION # 24

Refer to the exhibits.

The screenshot shows the FortiGate configuration interface for an Azure connector. The 'FGT connector settings' section includes fields for 'Server region' (Global), 'Use managed identity' (disabled), 'Directory ID' (60b93279-efda-45f5-9c1d-e7f999c), 'Application ID' (e7ac2b2f-25b1-4e66-96b4-9dbc90e), 'Client secret' (redacted with a message 'This field is required.'), 'Resource path' (enabled), 'Subscription ID' (9a359c2e-e035-4d1e-ba17-0b600cb2), and 'Resource group' (SxLab). Below this is the 'Application registration key' section, which shows a table of client secrets. The table has columns for 'Description', 'Expires', 'Value', and 'ID'. One entry is visible: 'FortiGateKey' with an expiration date of '12/31/2299' and a value of 'application secret' (highlighted with a red box).

Description	Expires	Value	ID
FortiGateKey	12/31/2299	application secret	

You are configuring an SDN connector for Azure on a FortiGate device. You completed all the required steps on the Azure side. While configuring the FortiGate side, you notice that you did not save the client secret used in the Azure App Registration. What is the quickest way to obtain the value of the client secret?

- A. Create a new external connector for Azure
- B. Create a new resource group
- C. Create a new app registration
- **D. Create a new client secret**

Answer: D

Explanation:

Azure does not allow you to view an existing client secret's value after creation for security reasons. If you did not save the client secret when it was first generated, the quickest and only option is to create a new client secret under the existing app registration and use the new value in your FortiGate configuration.

NEW QUESTION # 25

.....

FCP_ZCS-AD-7.4 practice exam will provide you with wholehearted service throughout your entire learning process. This means that unlike other products, the end of your payment means the end of the entire transaction our FCP_ZCS-AD-7.4 learning materials will provide you with perfect services until you have successfully passed the FCP_ZCS-AD-7.4 Exam. And if you have any questions, just feel free to us and we will give you advice on FCP_ZCS-AD-7.4 study guide as soon as possible.

Exam FCP_ZCS-AD-7.4 Material: https://www.exams4collection.com/FCP_ZCS-AD-7.4-latest-braindumps.html

In a few years, Fortinet FCP_ZCS-AD-7.4 certification exam has become a very influential exam which can test computer skills. The certification of Fortinet certified engineers can help you to find a better job, so that you can easily become the IT white-collar worker, and get fat salary. In the end, passing the FCP_ZCS-AD-7.4 exam is just a piece of cake. And we have helped thousands of Fortinet aspirants in earning the FCP_ZCS-AD-7.4 certification.

Designing apps that are faster, more responsive, Reliable FCP_ZCS-AD-7.4 Test Pass4sure do more with less, and maximize battery life. Its purpose is only to use it as an illustration of the principle of Trustworthy FCP_ZCS-AD-7.4 Exam Torrent domination of use of the greatest possible experience for my reasons" type ear.

Trustworthy FCP_ZCS-AD-7.4 Exam Torrent - 100% Pass Quiz 2026 Fortinet FCP_ZCS-AD-7.4: First-grade Exam FCP - Azure Cloud Security 7.4 Administrator Material

In a few years, Fortinet FCP_ZCS-AD-7.4 Certification Exam has become a very influential exam which can test computer skills. The certification of Fortinet certified engineers can help you to FCP_ZCS-AD-7.4 find a better job, so that you can easily become the IT white-collar worker, and get fat salary.

In the end, passing the FCP_ZCS-AD-7.4 exam is just a piece of cake. And we have helped thousands of Fortinet aspirants in earning the FCP_ZCS-AD-7.4 certification. The Fortinet FCP_ZCS-AD-7.4 practice test is available in three compatible and user-friendly formats.

Our team of experts is available 24/7 for your assistance while using updated FCP_ZCS-AD-7.4 exam prep material.
