Salesforce Certified Marketing Cloud Administrator Exam Sample Questions (Q38-Q43):

NEW QUESTION # 38
Northern Trail Outfitters wants to add new data extensions containing customer purchases to their Marketing Cloud account Which value should link these new data extensions in Data Designer to the existing contact records?

- A. Subscriber ID
- B. Unique Contact Identifier
- C. Unique Contact email address
- D. Primary key

Answer: A

Explanation:
Explanation
To link the new data extensions to the existing contact records, the subscriber ID value should be used.
Subscriber ID is a unique identifier for each contact in Marketing Cloud and is automatically generated when a contact is created. It can be used to relate data extensions in Data Designer.

NEW QUESTION # 39
A customer with limited technical resources has requested assistance in setting up a small email deployment that the customer will maintain long term. The email will display men's shoes to males in the audience and women's shoes to females in the audience. The sendable data extension contains a field with a value of Male or Female. Which method should a consultant recommended to ensure content is displayed properly within the email.

- A. AMP script lookup Rows functions
- B. AMP script conditional against the Gender field
- C. A/B Test content type
- D. Dynamic Content Wizard

Answer: B

Explanation:
Explanation
AMPscript conditional against the Gender field is the best method to ensure content is displayed properly within the email. It allows creating dynamic content based on the value of the Gender field in the sendable data extension. Dynamic Content Wizard is not suitable for this scenario because it requires creating content areas for each variation of content, which can be cumbersome for a customer with limited technical resources.
AMPscript lookupRows functions and A/B Test content type are not relevant for this scenario.
