## New JN0-253 Test Practice - JN0-253 Reliable Test Pdf

If you prefer to prepare for your JN0-253 exam on paper, we will be your best choice. JN0-253 PDF version is printable, and you can print them into hard one and take some notes on them if you like, and you can study them anytime and anyplace. In addition, JN0-253 Pdf Version have free demo for you to have a try, so that you can have deeper understanding of what you are going to buy. JN0-253 exam dumps are edited by skilled experts, and therefore the quality can be guaranteed. And you can use them at ease.

## Juniper Mist AI, Associate (JNCIA-MistAI) Sample Questions (Q18-Q23):

### NEW QUESTION # 18

Referring to the exhibit, which two statements are correct? (Choose two.)

- A. To stay logged in, you will need to perform an action in Mist every 10 minutes regardless of which organization you are viewing.
- B. To stay logged in, you will need to perform an action in Mist every 10 minutes as long as you are viewing this organization.
- C. You will need to log in to Mist every 60 minutes as long as you are viewing this organization.
- D. You will need to log in to Mist every 60 minutes regardless of which organization you are viewing.

**Answer: A,D**

Explanation:

Session Timeout (60 minutes):

This timeout applies globally, meaning you will be logged out of Mist after 60 minutes of continuous session time, regardless of which organization you are working in.

Inactivity Timeout (10 minutes):

If there is no user activity for 10 minutes, you will be logged out automatically. This also applies globally, regardless of the organization being accessed.

#### NEW QUESTION # 19

Which two statements correctly describe Mist claim codes and activation codes? (Choose two.)

- A. An activation code is printed on a sticker on the AP.
- B. Activation codes may be used to claim multiple APs at once.
- C. Claim codes may be used to claim only one AP.
- D. Claim codes may be used to claim multiple APs at once.

**Answer: B,C**

Explanation:

Claim Codes: Claim codes are unique to each AP and can be used to claim only one AP at a time. This ensures each device is correctly registered and managed individually within the Mist system.

Activation Codes: Activation codes can be used to claim multiple APs at once, facilitating bulk onboarding and simplifying the setup process for large deployments.

#### NEW QUESTION # 20

You are asked to configure Mist to send e-mail alerts to your organization administrators, who all have mailboxes that reside on the same e-mail server. Alerts are being generated and are visible in the Mist GUI, but only some administrators are receiving the alert e-mails.

What is the problem in this scenario?

- A. The affected administrators have not enabled e-mail notifications in their Mist My Account settings.
- B. The organization does not have sufficient alert subscriptions.
- C. The user e-mail addresses are not correctly formatted.
- D. Your e-mail server is blocking e-mail from Mist.

**Answer: A**

Explanation:

Identify the Problem: Alerts are being generated and visible in the Mist GUI, but only some administrators receive the alert emails.

Possible Issues:

User email addresses not correctly formatted.

Email server blocking Mist emails.

Insufficient alert subscriptions.

Administrators not enabling email notifications.

Root Cause:

Since some administrators receive the alerts, email formatting and server blocking issues can be ruled out.

If alert subscriptions were insufficient, no administrators would receive the alerts. The most likely cause is that the affected administrators have not enabled email notifications in their Mist My Account settings.

Resolution:

Ensure that all administrators have enabled email notifications in their Mist My Account settings.

#### NEW QUESTION # 21

How do Wireless Assurance SLEs help administrators troubleshoot?

- A. They manage Juniper Mist subscriptions.
- B. They set benchmarks for network performance and user experiences.
- C. They customize the Guest User portal.
- D. They help streamline the onboarding process.

**Answer: B**

Explanation:

In Juniper Mist AI, Wireless Assurance Service Level Expectations (SLEs) are designed to provide AI-driven visibility into user experience and network performance. Each SLE represents a specific aspect of the end-user journey - such as Time to Connect, Throughput, Coverage, Roaming, Capacity, and Application Experience.

According to the Juniper Mist documentation, SLEs "define measurable benchmarks for user experience and identify where deviations occur." This allows administrators to quickly determine whether issues stem from client devices, access points, wired uplinks, or WAN connectivity. When an SLE metric falls below its threshold, Mist AI automatically highlights the affected classifier (for example, DHCP, DNS, or Wi-Fi interference) and provides root-cause correlation through AI-driven insights.

This data-driven approach enables administrators to troubleshoot proactively by focusing on user-impacting areas instead of raw device statistics. Thus, Wireless Assurance SLEs act as experience-based benchmarks that simplify troubleshooting, improve performance visibility, and shorten mean time to repair (MTTR).

## NEW QUESTION # 22

At which two configuration levels are WLAN objects created? (Choose two.)

- A. org level
- B. user level
- C. site level
- D. device level

**Answer: A,C**

Explanation:

Site Level: WLAN objects can be created at the site level, allowing specific configurations for different locations within an organization. This helps in customizing WLAN settings based on the unique requirements of each site.

Org Level: WLAN objects can also be created at the organization level, which provides a standardized configuration that can be applied across multiple sites. This ensures consistency in WLAN settings throughout the entire organization.

## NEW QUESTION # 23

.....

The wording is fully approved in our JN0-253 Exam Guide. They handpicked what the JN0-253 exam torrent usually tests in exam recent years and devoted their knowledge accumulated into these JN0-253 study tools. Besides, they keep the quality and content according to the trend of the JN0-253 practice exam. As approved JN0-253 exam guide from professional experts their quality is unquestionable. Our agreeable staffs are obliging to offer help 24/7 without self-seeking intention and present our after-sales services in a most favorable light. We have patient colleagues offering help and solve your problems and questions of our materials all the way.
