We have issued numerous products, so you might feel confused about which PL-900 Study Dumps suit you best. You will get satisfied answers after consultation.

The PL-900 exam is an important step towards gaining a deep understanding of the Microsoft Power Platform. By passing the exam, individuals can demonstrate their foundational knowledge of the platform and be one step closer to achieving a Microsoft certification in the Power Platform.

Microsoft PL-900 exam helps individuals gain a comprehensive understanding of the Power Platform, its components, and how they can be applied to solve business problems. Microsoft Power Platform Fundamentals certification is suitable for anyone who wants to validate their knowledge of the Power Platform, including business analysts, developers, IT professionals, and solution architects. PL-900 exam is also ideal for individuals who want to explore the capabilities of the Power Platform and how it can help their organization become more efficient and productive. By earning this certification, individuals can demonstrate their proficiency in the Power Platform, which can lead to better job opportunities and career growth.

## What can you expect after passing the Microsoft PL-900 Exam?

Once you pass the Microsoft PL-900 exam and get certified, it will determine that you have effective opportunities to simplify processes and applications to achieve business value. In addition to this, it will also indicate that you are well versed in the practical field when it comes to achieving productivity. This means you will be able to apply for the businesses and firms that strive for productivity and simplicity.

You can reckon on landing a job as a Help Desk Technician, a Business Developer, a Data Analyst, a Business Analyst, a SEM Specialist, a Functional Consultant, and so on. It all depends on your choice of the position, but you can be sure that your average salary will be about \$72,500-\$127,900 per year. If you decide to go further and enhance your career by taking a more advanced path, you will be able to earn even more due to the skills and knowledge you can gain.

connector  
Power Automate flow  
gateway  
solution

Actions and triggers are properties of a

connector  
gateway  
solution

**Answer:****Explanation:****Answer Area****Statement****Component**

A Power Apps app can trigger this when a condition is met.

connector  
Power Automate flow  
gateway  
solution

Actions and triggers are properties of a

connector  
gateway  
solution

**NEW QUESTION # 22**

A medical office has a model -driven app that uses Common Data Service.

You plan to create a screen that allows users to capture information about doctors. The screen must provide users the ability to enter or select the following information;

a place to enter doctor- profile data that is not part of the account table or the contact table.

a place to enter the doctor's specialty in the profile form

a column for insurance with the ability to pick one of 10 different insurance companies.

You need to store the captured data in Common Data Service.

What should you use to store the data? To answer, drag the appropriate components to the correct requirements. Each component may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Requirement	Option
Store additional doctor profile data.	Option
Store information about the doctor's specialty.	Option
Select an insurance company.	Option
