SAP Certified Associate - Implementation Consultant - SAP S/4HANA Cloud Public Edition C\_S4CPB\_2508 Test Questions and answers are worked out by DumpsTorrent professional experts who have more than 8 years in this field.

## SAP Certified Associate - Implementation Consultant - SAP S/4HANA Cloud Public Edition Sample Questions (Q47-Q52):

**NEW QUESTION # 47**

Where is the initial list of known integrations documented?

- A. In the Business Driven Configuration Questionnaire
- B. In SAP Cloud ALM
- C. In the Fit-to-Standard Workshops
- **D. In the Digital Discovery Assessment**

**Answer: D**

#### NEW QUESTION # 48

Based on the SAP Activate methodology, which activities must you perform in the Explore phase? Note: There are 2 correct answers to this question.

- A. Define the organizational structure and chart of accounts.
- **B. Use the Test system to demonstrate SAP Best Practice processes.**
- C. Conduct the Digital Discovery Assessment to identify extension requirements.
- **D. Conduct the Fit-to-Standard analysis to gather configuration values.**

**Answer: B,D**

Explanation:

Based on the SAP Activate methodology, the Explore phase is where consultants configure business processes based on the information gathered in the Fit-to-Standard workshops. The Fit-to-Standard analysis is conducted in a series of workshops and allows for validation of predefined scenarios agreed upon and to make room for enhancements or additional configuration required. To prepare for this workshop, it is recommended that teams get familiar with the SAP Best Practices content, including the process flows, test scripts with sample data, and other documentation available in SAP Best Practices Explorer. Consultants should also use the Test system to demonstrate SAP Best Practice processes and enable business users to run the end-to-end processes and identify any gaps. The other two activities, conducting the Digital Discovery Assessment and defining the organizational structure and chart of accounts, are part of the Prepare phase, not the Explore phase. References = SAP Activate - Explore Phase: Use Fit-to-Standard to confirm business process fit and identify gaps in your SAP S/4HANA Cloud Implementation, SAP Explore Phase Activities: Define Target BP and Architecture, SAP Activate Elements and Phases, Explaining the Explore Phase

#### NEW QUESTION # 49

Which of the following are examples of indirect digital access? Note: There are 2 correct answers to this question.

- **A. A Production Order created through a non-SAP front-end**
- **B. A Time Sheet Record from a 3rd party application**
- C. An unattended bot in SAP Build Process Automation
- D. A Defect document created through an industry application

**Answer: A,B**

#### NEW QUESTION # 50

What provides a foundation for the SAP Cloud ERP where integrations and extensions live?

- A. SAP ABAP Environment
- B. SAP Business Accelerator Hub
- C. SAP Discovery Center
- **D. SAP Business Technology Platform**

**Answer: D**

Explanation:

SAP Business Technology Platform (BTP) provides a foundation for the SAP Cloud ERP where integrations and extensions live. SAP BTP is a cloud-based platform that offers a range of services and capabilities to extend, integrate, and orchestrate SAP and non-SAP applications. SAP BTP enables customers and partners to build extensions that are decoupled from the core SAP S/4HANA Cloud system, ensuring lifecycle stability and avoiding modification of SAP code. SAP BTP also leverages the huge library of free integration packages and extension templates available on the SAP Business Accelerator Hub, which can be consumed and customized according to the customer's needs. All services are listed in the SAP Discovery Center, where customers can explore, try, and buy SAP BTP services.

SAP ABAP Environment, SAP Discovery Center, and SAP Business Accelerator Hub are not the foundation for the SAP Cloud ERP, but rather components or tools that are related to SAP BTP. SAP ABAP Environment is a service on SAP BTP that allows customers and partners to develop and run ABAP code in the cloud. SAP Discovery Center is a portal that showcases the available services and solutions on SAP BTP and guides customers through the end-to-end journey of discovering, trying, buying, and implementing them.

SAP Business Accelerator Hub is a repository of ready-to-use integration packages and extension templates that can be deployed on SAP BTP to accelerate the implementation of SAP S/4HANA Cloud.
