However, spending a huge amount on such resources is difficult for many Salesforce Certified Platform Development Lifecycle and Deployment Architect exam applicants. The latest Salesforce Plat-Arch-202 Exam Dumps are the right option for you to prepare for the Salesforce Plat-Arch-202 certification test at home.

Salesforce Certified Platform Development Lifecycle and Deployment Architect Sample Questions (Q149-Q154):

NEW QUESTION # 149

Which are two recommended methods of creating test data in Salesforce?

Choose 2 answers

- A. Host a mock endpoint to produce sample information from an endpoint.
- B. Reference data from middleware directly within your test class.

- C. Load a CSV as a static resource and reference it in a test class.
- D. Utilize Heroku Connect to provide test class data.

Answer: A,C

NEW QUESTION # 150

What are three advantages of using a Source Control system alongside a multi -sandbox development strategy? Choose 3 answers

- A. Automatically deploy changes from sandbox to production
- B. Perform code reviews before promoting to a pre -production sandbox
- C. Create a branching strategy that tracks each feature or change separately
- D. Act as a backup in case of catastrophic data loss
- E. Keep a history of changes made by each developer

Answer: A,C,E

NEW QUESTION # 151

Northern Trail Outfitter's development team has built new features for its sales team in the Asia-Pacific region. While testing the Apex classes, the developers are constantly hitting the governor limits.

What should the architect recommend during the review to address this issue?

- A. Use the auto reset property to automatically reset governor limits during off-hours.
- B. Use `test.startTest()` and `test.stopTest()` methods to reset governor limits.
- C. Use `test.setLimit()` and `test.resetLimit()` methods to reset governor limits.
- D. Use an AppExchange product which can temporarily increase the governor limits.

Answer: B

NEW QUESTION # 152

Universal Containers (UC) has a customized repository that represents lots of different apps or projects. UC currently is trying to shift from the org development model to the package development model to manage changes. In the org development model, each developer starts their work within their own personal sandbox.

When it comes to choosing development environments, what should a Salesforce architect recommend?

- A. Start using scratch orgs that tracks all of the changes automatically and proceed with a
- B. Start using scratch orgs because a developer can spin up a scratch org to start a new
- C. Keep developing in the dev sandboxes, so that the developers feel no impact at all as they
- D. Keep developing in the dev sandboxes because scratch orgs are not within the code

Answer: B

NEW QUESTION # 153

Universal Containers (UC) has developed extensions of Salesforce Service Cloud for the use of its customer service teams using the change set development model.

Recently, UC acquired a company that develops extensions of an AppExchange app. The development team of the acquired company uses the org development model. The Universal Containers CTO wants both teams to work on a single org and follow the same set of processes.

Which development model should the architect recommend to be used by the consolidated development team?

- A. Org development model, because the acquired company's team is already using it, and it is better than the change set development model.
- B. Package development model, so teams can build release artifacts that can be tested and released independently from artifacts for other projects.
- C. Change set development model, because UC is already using it, so it will face less resistance.
- D. Package development model, because it allows packages to be created and deployed using declarative (point-and-click) development tools, without writing code.

Answer: B

NEW QUESTION # 154

.....

Many exam candidates feel hampered by the shortage of effective Plat-Arch-202 practice materials, and the thick books and similar materials causing burden for you. Serving as indispensable choices on your way of achieving success especially during this exam, more than 98 percent of candidates pass the exam with our Plat-Arch-202 practice materials and all of former candidates made measurable advance and improvement. All Plat-Arch-202 practice materials fall within the scope of this exam for your information. The content is written promptly and helpfully because we hired the most professional experts in this area to compile the Plat-Arch-202 practice materials. Our Plat-Arch-202 practice materials will be worthy of purchase, and you will get manifest improvement.
