In today's technological world, more and more students are taking the American Institute of Certified Planners Exam (AICP) exam online. While this can be a convenient way to take a American Institute of Certified Planners Exam (AICP) exam dumps, it can also be stressful. Luckily, DumpsFree's best American Institute of Certified Planners Exam (AICP) exam questions can help you prepare for your American Institute of Certified Planners Exam (AICP) certification exam and reduce your stress. If you are preparing for the American Institute of Certified Planners Exam (AICP) exam dumps our AICP Questions help you to get high scores in your AICP exam.

To be eligible to take the AICP certification exam, candidates must have a minimum of a bachelor's degree and two years of professional planning experience. Candidates who meet these requirements can apply to take the exam through the AICP website. AICP exam is administered twice a year and is computer-based, with multiple choice questions and case studies.

The AICP exam has become a crucial benchmark for professional planners seeking to demonstrate their mastery of planning practice. AICP Exam covers a range of topics, including planning history, ethics and professionalism, engagement and communication, plan implementation and evaluation, and leadership and administration. AICP exam is also designed to ensure that planning professionals have a broad understanding of planning principles and the role of planners in shaping communities.

Many people worry about buying electronic products on Internet, like our AICP preparation quiz, because they think it is a kind of dangerous behavior which may bring some virus for their electronic product, especially for their computer which stores a great amount of privacy information. We must emphasize that our AICP simulating materials are absolutely safe without viruses, if there is any doubt about this after the pre-sale, we provide remote online guidance installation of our AICP exam practice.

APA American Institute of Certified Planners Exam Sample Questions (Q51-Q56):

NEW QUESTION # 51

The following building heights (in feet) are given: 50, 60, 55, 40, 45, 55, 55, 45, 50, 40, 45, 45, 50, 50, 55, 55, 55, 60. What is the median value of the building heights, in feet, above?

- A. 50.0 ft.
- B. 56.9 ft.
- C. 55.0 ft.
- D. 50.5 ft.

Answer: A

Explanation:

To find the median value of the building heights, we first list the 18 values in ascending order: 40, 40, 45, 45, 45, 45, 50, 50, 50, 50, 55, 55, 55, 55, 55, 55, 60, 60. The median is the middle value in an ordered list. With 18 values (an even number), the median is the average of the 9th and 10th values. The 9th value is 50, and the 10th value is 50. Thus, the median is $(50 + 50) / 2 = 50.0$ ft., matching option A. Option B (50.5 ft.) might result from incorrect averaging. Option C (55.0 ft.) is the mode, not the median. Option D (56.9 ft.) appears to be the mean (total sum 910 / 18 = 56.9), not the median. The APA's AICP Certification Exam Content Outline (2022), under "Research and Assessment Methods," includes basic statistical measures like the median, defined as "the middle value in an ordered dataset." The CPC Study Manual (2024) provides examples of median calculations, confirming this method.

NEW QUESTION # 52

Which component of zoning regulations would address equitable access to housing?

- A. Establishing an administrative process for reasonable accommodation requests
- B. Expanding areas zoned for single-family residential use
- C. Establishing both parking minimums and parking maximums
- D. Classifying assisted living facilities as a commercial use

Answer: A

Explanation:

Equitable access to housing ensures that zoning regulations accommodate diverse populations, including those with disabilities or other needs. Option A (establishing an administrative process for reasonable accommodation requests) directly addresses this by allowing individuals to request modifications to zoning rules (e.g., for accessibility features) under the Fair Housing Act (FHA) and the Americans with Disabilities Act (ADA). The APA's AICP Certification Exam Content Outline (2022), under "Plan and Policy Development," notes that "zoning must include processes for reasonable accommodations to comply with federal laws like the FHA and ADA, ensuring equitable housing access." Option B (parking minimums and maximums) focuses on parking, not housing access. Option C (classifying assisted living as commercial) may limit housing options for seniors. Option D (expanding single-family zoning) often restricts housing diversity, reducing affordability and access. The CPC Study Manual (2024) states, "Reasonable accommodation processes in zoning are critical for equitable housing access, particularly for people with disabilities," supporting option A.

NEW QUESTION # 53

Krumholz's as Planning Director for the City of Cleveland utilized?

- A. Communicative planning
- B. Advocacy planning
- C. Transactive planning
- D. Rational planning

Answer: C

NEW QUESTION # 54

What percentage of Americans lived in urbanized areas in the 2000 Census, the shortest since 1820?

- A. 68%
- B. 50%
- C. 78%
- D. 86%

Answer: A

NEW QUESTION # 55

The most important goal of soil erosion and sedimentation regulations is the protection of:

- A. Drainage ways and watercourses.
- B. Residential subdivisions.
- C. Farms and ranches.
- D. New construction projects.

Answer: A

Explanation:

Soil erosion and sedimentation regulations aim to prevent soil loss and sediment runoff, which can degrade water quality and ecosystems. The most important goal is protecting drainage ways and watercourses (option D), as sediment pollution primarily impacts streams, rivers, and lakes, affecting aquatic life and water quality.

The APA's AICP Certification Exam Content Outline(2022), under "Plan and Policy Development," states, "Soil erosion and sedimentation regulations primarily protect drainage ways and watercourses from sediment pollution." Options A (residential subdivisions), B (farms), and C (new construction) may benefit indirectly, but the primary focus is water protection. The CPC Study Manual(2024) confirms, "The key goal of erosion and sedimentation regulations is to protect drainage ways and watercourses from sediment impacts," supporting option D.
