master good competences in certain areas and can handle the job well. The ZDTA exam prep we provide can help you realize your dream to pass exam and then own a ZDTA exam torrent. TestPDF provide high pass rate materials that are compiled by experts with profound experiences according to the latest development in the theory and the practice so they are of great value. Please firstly try out our ZDTA Exam Materials demo before you decide to buy our product. It is worthy for you to buy our ZDTA exam preparation not only because it can help you pass the exam successfully but also because it saves your time and energy.

## **Zscaler Digital Transformation Administrator Sample Questions (Q85-Q90):**

### **NEW QUESTION # 85**

Which of the following is a unified management console for internet and SaaS applications, private applications, digital experience monitoring and endpoint agents?

- A. Mobile Admin Portal
- **B. Experience Center**
- C. One API
- D. identity Admin Portal

**Answer: B**

Explanation:

The Experience Center delivers a single-pane console for managing internet and SaaS access, private applications, digital experience monitoring, and endpoint agent configurations.

### **NEW QUESTION # 86**

Which of the following statements most accurately describes Zero Trust Connections?

- A. They require that SSH inspection be enabled.
- **B. They are independent of any network for control or trust.**
- C. They are dependent on a fixed / static network environment.
- D. They require IPV6.

**Answer: B**

Explanation:

Zero Trust Connections don't rely on the underlying network's security or topology - they enforce access and control at the application level, independent of any fixed or trusted network environment.

### **NEW QUESTION # 87**

When filtering user access to certain web destinations what can be a better option, URL or Cloud Application filtering Policies?

- A. Both provide the same filtering capabilities.
- B. URL filtering policies provide better access control.
- C. Wherever possible URL policies are recommended.
- **D. Cloud Application policies provide better access control.**

**Answer: D**

Explanation:

Cloud Application policies offer deeper, application-aware controls, such as granular actions on specific SaaS functions, making them a superior choice for managing access to modern web apps compared to generic URL filters.

### **NEW QUESTION # 88**

Which of the following is a valid action for a SaaS Security API Data Loss Prevention Rule?

- A. Enable AI/ML based Smart Browser Isolation
- B. Create Zero Trust Network Decoy
- **C. Remove External Collaborators and Sharable Link**
- D. Quarantine Malware

**Answer: C**

Explanation:

In SaaS Security API DLP policies you can choose "Remove External Collaborators and Shareable Link" as the enforcement action - Zscaler will report the incident, revoke any external collaborators on the file, and delete its external share links.

### NEW QUESTION # 89

What are the two types of Probe supported in ZDX?

- A. SSaas Probes and Router Probes
- B. Page Speed Probes and Connection Speed Probes
- C. Web Probes and Cloud Path Probes
- D. Application Probes and Network Probes

**Answer: C**

Explanation:

ZDX supports two probe types: Web Probes and Cloud Path Probes. Web Probes actively retrieve web objects to measure application health, while Cloud Path Probes map the end-to-end network path to pinpoint transit issues.

### NEW QUESTION # 90
