We can promise that we will provide you with quality SSM training braindump, reasonable price and professional after sale service. As long as you have problem on our SSM exam questions, you can contact us at any time.

Scrum SSM (6.0) - SAFe® Scrum Master Sample Questions (Q13-Q18):

NEW QUESTION # 13
What is one benefit of PI Planning?

- A. Allows for faster decision-making
- B. It fosters cross-team dependencies
- C. It aligns the ART to established DevOps practices
- D. It maximizes team capacity

Answer: A

Explanation:
One benefit of PI Planning is that it allows for faster decision-making by bringing together all the members of the Agile Release Train (ART) and the relevant stakeholders in a face-to-face (or virtual) event. PI Planning provides an opportunity for the ART to align on a common vision and mission, review the business context and priorities, identify and resolve dependencies and risks, and commit to a realistic and achievable plan for the next Program Increment (PI). By having everyone involved in the planning process, the ART can leverage the collective knowledge and expertise of the participants, reduce ambiguity and uncertainty, and make informed and timely decisions that support the delivery of value to the customers. (Must be taken from SAFe 6 Scrum Master resources)

NEW QUESTION # 14
What is one element on the Scrum Master/Team Coach responsibility wheel?

- A. Facilitate an Agile Team charter workshop
- B. Facilitate a Community of Practice
- C. Facilitate PI Planning
- D. Facilitate Coach Sync

Answer: C

Explanation:
According to the SAFe 6 Scrum Master documentation, one of the elements on the Scrum Master/Team Coach responsibility wheel is to facilitate PI Planning. PI Planning is a two-day event where all the teams and stakeholders of an Agile Release Train (ART) collaborate to align on a common vision, define and commit to the PI objectives, and identify and manage risks and dependencies.
The Scrum Master/Team Coach facilitates PI Planning by 1:
Helping the team prepare for the event, such as reviewing the business context, vision, and backlog, and creating draft plans
Supporting the team during the event, such as facilitating breakout sessions, resolving issues, and ensuring alignment and collaboration with other teams Assisting the team after the event, such as finalizing the plans, updating the PI board, and conducting a retrospective Facilitating PI Planning is one of the ways the Scrum Master/Team Coach helps the team and the ART achieve their goals and deliver value.

NEW QUESTION # 15
What are stretch objectives?

- A. Objectives that the business has promised to their Customers.
- B. Objectives that are beyond the capacity of the team and so are uncommitted for the PI.
- C. Objectives that are part of the team's capacity but not necessarily achievable during the PI.
- D. Objectives that are identified during the PI.

Answer: C

NEW QUESTION # 16
What is the intended value of the Backlog Refinement event?

- A. The team is able to commit to a set of goals to be delivered in the Iteration
- B. The team is able to prepare requirements for Iteration Planning
- C. The team aligns on the progress of Iteration Goals
- D. The team reviews and improves processes before the next Iteration

Answer: B

Explanation:
The intended value of the Backlog Refinement event is that the team is able to prepare requirements for Iteration Planning. Backlog Refinement is an ongoing process where the team collaborates with the Product Owner and other stakeholders to review, split, prioritize, and estimate the stories in the Team Backlog1 One of the main objectives of Backlog Refinement is to ensure that the stories are ready for Iteration Planning, which means they are clear, feasible, testable, and small enough to be completed in a single Iteration2 By doing so, the team can improve the quality, efficiency, and effectiveness of their work, as well as deliver value to the customers and the organization123 Reference:
