## Latest Test H35-211\_V2.5 Simulations & Valid H35-211\_V2.5 Exam Questions

We constantly improve and update our H35-211\_V2.5 study guide and infuse new blood into them according to the development needs of the times and the change of the trend in the industry. We try our best to teach the learners all of the related knowledge

about the test H35-211\_V2.5 certification in the most simple, efficient and intuitive way. We pay our experts high remuneration to let them play their biggest roles in producing our H35-211\_V2.5 Exam Prep. The share of our H35-211\_V2.5 test question in the international and domestic market is constantly increasing.

## **Huawei HCIP-Access V2.5 Sample Questions (Q27-Q32):**

### **NEW QUESTION # 27**

Which of the following statements about the E2E ODN pre-connection solution are correct?

- A. Splitters are installed in pre-connected boxes and occupy small space.
- B. The pre-connection solution uses distributed optical splitting to reduce the number of drop cables, thereby reducing the number of pipes and cables.
- C. Easy deployment, 100% splicing-free, no need for professional skills and tools, and improved efficiency
- D. Easy to maintain, no need for fiber splicing, and low maintenance skill requirements

**Answer: A,C,D**

### **NEW QUESTION # 28**

In the upstream direction of the OLT, link aggregation can be used to improve bandwidth and reliability.

Which OLT uplink aggregation modes are supported?

- A. Static
- B. Manual
- C. Dynamic
- D. Automatic

**Answer: A,C**

Explanation:

Huawei OLTs support Eth-Trunk (link aggregation) with two standard modes: Static aggregation and Dynamic aggregation (LACP). These provide bandwidth expansion and redundancy on NNI uplinks.

"Automatic" is not a defined mode; and "manual" is not used as a separate mode name in OLT Eth-Trunk configuration.

References: HCIP-Access V2.5 Study Guide - OLT Uplink Design (Eth-Trunk), OLT Interface Configuration - Static vs LACP (Dynamic) aggregation.

### **NEW QUESTION # 29**

Deploying an Ethernet port protection group in the upstream direction of the OLT can improve the reliability and the bandwidth of the uplink.

- A. TRUE
- B. FALSE

**Answer: A**

### **NEW QUESTION # 30**

(Radio) When configuring multicast services on MA5600T/MA5680T, the programs of multicast VLANs are statically configured, and which of the following options must be configured, otherwise the multicast programs may not be able to be watched

- A. igmp program
- B. igmp preview
- C. igmp profile
- D. igmp priority

**Answer: A**

### **NEW QUESTION # 31**

(Radio) Regarding the H.248 connection model, which description is correct?

- A. A media gateway that supports only point-to-point connections can allow three or more endpoints in the same association at the same time
- **B. When the user call is successful, the empty connection (context) starts to be created**
- C. When the session between two users ends, the corresponding association is used
- D. The connection model cannot be modified during a user session

**Answer: B**

Explanation:

In H.248, the MGC controls the MG by creating a Context (also called an empty connection) and then adding terminations to build point-to-point, multipoint, or conference topologies. During call setup the MGC typically creates an empty context first, then binds terminations as media is negotiated.

A is incorrect: contexts and terminations can be modified during the session.

B is incorrect as written (the association/context is released, not "used").

C is incorrect: an MG limited to point-to-point cannot host three or more endpoints in one context.

References: HCIP-Access V2.5 Study Guide - H.248 architecture: associations, contexts (empty connection), terminations, and connection modification procedures.

## NEW QUESTION # 32

.....

Since it was founded, our Pass4suresVCE has more and more perfect system, more rich questiondumps, more payment security, and better customer service. Now the H35-211\_V2.5 exam dumps provided by Pass4suresVCE have been recognized by masses of customers, but we will not stop the service after you buy. We will inform you at the first time once the H35-211\_V2.5 Exam software updates, and if you can't fail the H35-211\_V2.5 exam we will full refund to you and we are responsible for your loss.
