C_S4TM_2023퍼펙트 덤프공부, C_S4TM_2023최신버전 시험덤프

DumpTOP SAP인증C_S4TM_2023시험덤프 구매전 구매사이트에서 무료샘플을 다운받아 PDF버전 덤프내용을 우선 체험해보실수 있습니다. 무료샘플을 보시면DumpTOP SAP인증C_S4TM_2023시험대비자료에 믿음이 갈것입니다.고객님의 이익을 보장해드리기 위하여DumpTOP는 시험불합격시 덤프비용전액환불을 무조건 약속합니다. DumpTOP의 도움으로 더욱 많은 분들이 멋진 IT전문가로 거듭나기를 바라는바입니다.

최신 SAP Certified Associate C_S4TM_2023 무료샘플문제 (Q33-Q38):

질문 # 33

You are using shipment-based tendering. What information is transferred from SAP TM to SAP ERP using the standard web service for transferring freight order information to SAP ERP?

- A. Carrier
- B. Shipment status
- C. Tendering status
- D. Freight agreement number

정답: A,C

질문 # 34

Which item category in a forwarding order item hierarchy is NOT considered in subsequent execution documents?

- A. Package
- B. Product
- C. Passive vehicle
- D. Service

정답: D

설명:

Managing Clean Core

질문 # 35

To which of the following can you assign a dimensional weight profile?

- A. Calculation profile
- B. Calculation base
- C. Charges profile
- D. Charge type

정답: A

설명:

In SAP S/4HANA Transportation Management, a dimensional weight profile is used to calculate the dimensional weight of goods, which is often used for charge calculations in scenarios where volume impacts costs (e.g., air freight). According to the SAP documentation, the dimensional weight profile is assigned to the calculation profile, which defines the rules and settings for charge calculation, including how dimensional weight is factored into the cost. This allows the system to apply the dimensional weight logic consistently across relevant freight orders or agreements.

The other options are incorrect:

* Charge type (A) defines specific charge categories (e.g., base freight, fuel surcharge) but does not directly support dimensional weight profiles.

* Charges profile (B) structures the charges but is not used for dimensional weight assignments.

* Calculation base (D) refers to the basis for charge calculations (e.g., weight, distance) but does not hold dimensional weight profiles.

SAP Help Portal: Transportation Management - Charge Calculation Configuration ().

질문 # 36

Which item category in a forwarding order item hierarchy does NOT influence planning?

- A. Product
- B. Passive vehicle
- C. Container
- D. Service

정답: D

질문 # 37

Where can you initiate carrier selection? Note: There are 2 correct answers to this question.

- A. From SAP Business Network for Logistics
- B. From the container unit user interface
- C. From report /SCMTMS/PLN_OPT
- D. From the freight booking user interface

정답: A,C

설명:

Carrier selection in SAP S/4HANA Transportation Management can be initiated from specific interfaces or tools designed for planning and tendering. According to the SAP documentation:

* From report /SCMTMS/PLN_OPT (A) allows users to trigger carrier selection as part of the transportation planning process, typically used for automated or manual planning.

* From SAP Business Network for Logistics (C) enables carrier selection through tendering processes, where carriers are invited to bid on freight orders.

The other options are incorrect:

* Freight booking user interface (B) is used for managing bookings (e.g., ocean or air transport) but is not typically used to initiate carrier selection, which is more aligned with freight orders.

* Container unit user interface (D) is used for managing container-related data but does not support carrier selection.
