If you have encountered some problems while using Fundamentals-of-Crew-Leadership Practice Guide, you can also get our timely help as our service are working 24/7 online. Of course, our Fundamentals-of-Crew-Leadership exam questions are advancing with the times and you will get the latest information.

## **NCCER Module 46101 Fundamentals of Crew Leadership Sample Questions (Q16-Q21):**

### **NEW QUESTION # 16**

Productivity is defined as the

- A. total amount of material an individual or crew places in a given time.
- B. total amount of material a crew places for a given job.
- C. amount of material scheduled to be used in a given time.
- D. amount of material an individual worker places to complete a job.

**Answer: A**

Explanation:

Productivity is most accurately defined as the total amount of material an individual or crew places in a given time (D). It measures the efficiency of work by relating output (e.g., quantity of material installed) to input (e.g., labor hours). Option A describes the total output for a job, not the rate. Option B refers to planned material usage. Option C focuses on an individual's total output for a job, not necessarily within a specific timeframe.

(Fundamentals of Crew Leadership, Fourth Edition, NCCER, Section 5.1.1 Defining Productivity)

### **NEW QUESTION # 17**

Which of the following statements is NOT correct regarding work site first aid?

- A. Work site responders can prepare the injured while waiting for professional aid.
- B. Prompt onsite treatment of injuries may prevent them from becoming more serious.
- C. Onsite treatment may be able to determine the need to call for professional aid.
- D. Company first-aid responders must be CPR-certified.

**Answer: D**

Explanation:

While CPR certification is highly recommended and often a requirement for designated first-aid responders, the statement that company first-aid responders must be CPR-certified is not universally correct as a fundamental requirement in all circumstances. The level of first-aid training required can vary based on regulations and the specific risks of the job site. Work site responders are indeed expected to prepare the injured for further assistance (B), assess the situation to determine the need for professional aid (C), and provide initial treatment to prevent injuries from worsening (D). (OSHA 29 CFR 1926.50, Medical Services and First Aid; Fundamentals of Crew Leadership, Fourth Edition, NCCER, Section 3.1.3 First Aid Requirements)

### **NEW QUESTION # 18**

What is one of the many traits effective leaders should have?

- A. the ability to communicate the goals of a project
- B. a perfectionist nature that ensures they will not make mistakes
- C. the motivation to carry the workload alone in order to achieve a goal
- D. the ability to make decisions without listening to the opinions of others

**Answer: A**

Explanation:

Effective leaders possess strong communication skills, including the ability to communicate the goals of a project (A) clearly and concisely to their team. A perfectionist nature (B) can lead to micromanagement and hinder progress. Leaders should empower their team, not try to carry the workload alone (C). While decisiveness is important, effective leaders also value input from their team members (D). (Fundamentals of Crew Leadership, Fourth Edition, NCCER, Section 1.1.2 Characteristics of Effective Leaders)

### NEW QUESTION # 19

Which of the following is a function typically performed by the operations department of a company?

- A. plan projects
- B. purchase materials
- C. recruiting and screening new hires
- D. prepare payrolls

**Answer: A**

Explanation:

The operations department is primarily responsible for the execution of the company's core business activities, which in a construction context includes to plan projects (A), manage resources, and ensure efficient workflow on job sites. Preparing payrolls (B) is typically a function of the accounting or human resources department, purchasing materials (C) is often handled by procurement, and recruiting and screening new hires (D) is a function of human resources. (Fundamentals of Crew Leadership, Fourth Edition, NCCER, Section

4.1.1 Understanding Company Departments)

### NEW QUESTION # 20

When writing or creating a visual message in a professional setting, you should

- A. state the purpose of the message last to make it more impactful.
- B. proofread your work and make sure the document is legible
- C. use technical language so that only your peers will be able to understand.
- D. always give your opinion.

**Answer: B**

Explanation:

Effective communication in a professional setting requires clarity and accuracy. Therefore, you should proofread your work and make sure the document is legible (B) to ensure the message is understood as intended. Giving your opinion (A) is not always necessary or appropriate, stating the purpose last (C) can lead to confusion, and using overly technical language (D) can hinder understanding for those outside your immediate peer group. (Fundamentals of Crew Leadership, Fourth Edition, NCCER, Section 6.1.2 Principles of Effective Communication)

### NEW QUESTION # 21

.....
