This is due to the fact that our learning materials are very user-friendly and express complex information in easy-to-understand language. You do not need to worry about the complexity of learning materials. We assure you that once you choose our 200-901 Learning Materials, your learning process is very easy.

Cisco DevNet Associate Exam Sample Questions (Q208-Q213):

NEW QUESTION # 208

What is a capability of Ansible playbooks?

- A. They execute scheduled tasks regularly.
- B. They utilize the target device agent to execute.
- C. They collect SNMP logs from networking devices.
- **D. They define the state for a device configuration.**

Answer: D

Explanation:

Ansible playbooks are used to define the desired state of a device configuration. Playbooks contain a series of tasks that describe the configuration management, deployment, and orchestration tasks. They are written in YAML and are designed to be simple yet powerful, allowing users to define the state and ensure that devices are configured accordingly.

NEW QUESTION # 209

A function `my_func()` returns `True` when it executes normally. Which python snippet tests `my_func()`?

- **A. Option A**
- B. Option C
- C. Option B
- D. Option D

Answer: A

Explanation:

The function `my_func()` returns `True` when it executes normally. To test this function using Python's unittest framework, the correct assertion to use is `assertTrue`. This method tests if the given expression evaluates to `True`.

Option A (`self.assertTrue(my_func())`): This assertion checks if `my_func()` returns `True`.

Option B (`self.assertRaises(my_func())`): This is used to check if a specific exception is raised, which is not applicable here.

Option C (`self.assertEqual(my_func(), 'true')`): This checks if `my_func()` returns the string `'true'`, which is not correct as `my_func()` returns a boolean `True`.

Option D (`self.assertFalse(my_func())`): This checks if `my_func()` returns `False`, which is the opposite of what is needed.

NEW QUESTION # 210

Which IP service is responsible for automatically assigning an IP address to a device?

- A. NAT
- B. SNMP
- **C. DHCP**
- D. DNS

Answer: C

NEW QUESTION # 211

Which OWASP threat takes advantage of a web application that the user has already authenticated to execute an attack?

- A. DoS
- **B. CSRF**
- C. brute force attack
- D. phishing

Answer: B

Explanation:

Explanation

Cross-Site Request Forgery (CSRF) is an attack that forces an end user to execute unwanted actions on a web application in which they're currently authenticated.

<https://owasp.org/www-community/attacks/csrf>

NEW QUESTION # 212

A developer creates a script that configured multiple Cisco IOS XE devices in a corporate infrastructure. The internal test environment is unavailable, and no maintenance window is available to test on a low-priority production environment. Which resource is used to test the code before it is applied to the production environment?

- A. Cisco Support
- B. Cisco DevNet Learning Labs
- C. Code Exchange
- D. Cisco DevNet Sandbox

Answer: D

Explanation:

Reference:

The Cisco DevNet Sandbox provides a virtual environment where developers can test their scripts and configurations without affecting production environments. It offers a range of pre-configured labs and environments that mimic real-world scenarios, allowing for thorough testing and validation of code before deployment.

Cisco DevNet Associate Study Guide: DevNet Resources and Tools (Chapter 9, Section: Utilizing Cisco DevNet Sandbox for Testing).

NEW QUESTION # 213

.....

We provide first-rate service on the 200-901 learning prep to the clients and they include the service before and after the sale, 24-hours online customer service and long-distance assistance, the refund service and the update service. The client can try out our and download 200-901 guide materials freely before the sale and if the client have problems about our product after the sale they can contact our customer service at any time. We provide 24-hours online customer service which replies the client's questions and doubts about our 200-901 training quiz and solve their problems.
