## SAP Certified Associate - Positioning WalkMe Sample Questions (Q21-Q26):

### NEW QUESTION # 21

What are the benefits of using WalkMe on SAP S/4HANA?Note: There are 2 correct answers to this question.

- A. Enhances physical infrastructure scalability

- B. Automates payroll processing
- C. Simplifies user adoption and reduces training time
- D. Improves compliance with regulatory requirements

**Answer: C,D**

Explanation:

The correct answers are:

- B. Simplifies user adoption and reduces training time

WalkMe's in-app guidance, onboarding support, and automation tools (like Smart Walk-Thrus and reminders) help users settle into SAP S/4HANA faster, significantly reducing training needs and accelerating adoption-especially during both greenfield and brownfield migrations

- D. Improves compliance with regulatory requirements.

By guiding users through proper workflows, delivering targeted announcements, and reducing errors, WalkMe supports compliance efforts during S/4HANA transitions and beyond.

✘  Why the other options are incorrect:

\* A. Automates payroll processing - This is not part of WalkMe's functionality; it doesn't automate backend financial processes like payroll.

\* C. Enhances physical infrastructure scalability - WalkMe focuses on digital adoption and guidance, not physical hardware or infrastructure enhancements.

Final Answer:

B and D.

### NEW QUESTION # 22

Which WalkMe service offering provides a quick time-to-value deployment with a fixed price and scope?

- A. Digital Experience Analytics
- B. Activation SKU
- C. Time & Materials Engagement
- D. WalkMe Shield

**Answer: B**

Explanation:

The WalkMe service offering that provides a quick time-to-value deployment with a fixed price and scope is:

C . Activation SKU

Why this is correct

The Activation SKU is designed specifically for fast-track deployments-typically delivering pre- configured workflows with a fixed scope and cost. It enables organizations to implement WalkMe for specific applications (like Salesforce or SAP SuccessFactors) and go live in as little as 4 weeks, offering a clear, predictable time-to-value outcome without scope creep

Why the other options aren't correct

A . Digital Experience Analytics - This is focused on gathering and analyzing usage data; it's not a deployment package.

B . Time & Materials Engagement - This engagement model is flexible but not fixed-price and doesn't ensure rapid deployment.

D . WalkMe Shield - A quality assurance tool for testing and automating content; not related to deployment scope or pricing.

Final Answer:

C . Activation SKU provides the bundled, fixed-scope deployment that ensures a rapid go-live and predictable investment.

### NEW QUESTION # 25

What is one of WalkMe's differentiators when compared to other Digital Adoption Platforms (DAP)?

- A. Ability to operate without integrating into other software
- **B. Offering a combination of guidance tools and actionable analytics**
- C. Exclusive focus on customer experience workflows
- D. Limited scalability for smaller businesses

**Answer: B**

Explanation:

The correct answer is:

A . Offering a combination of guidance tools and actionable analytics  Why this matters WalkMe stands out among Digital Adoption Platforms (DAPs) by not only providing in-app guidance-such as walkthroughs, tooltips, and task lists-but also delivering actionable insights through analytics. This powerful combination empowers organizations to both guide users and continuously optimize adoption using real-world usage data.

Why the other options don't apply

\* B. Limited scalability for smaller businesses

This is a limitation, if anything-not a differentiator or benefit.

\* C. Exclusive focus on customer experience workflows

WalkMe supports a wide array of use cases, including employee onboarding, IT, finance, and more- not just customer workflows.

\* D. Ability to operate without integrating into other software

WalkMe overlays onto existing applications and integrates deeply-it doesn't operate in isolation.

Final Answer: A. Offering a combination of guidance tools and actionable analytics.
