

SAVE International VMA Questions Tips For Better Preparation 2026

P.S. Free 2025 SAVE International VMA dumps are available on Google Drive shared by ValidTorrent:
<https://drive.google.com/open?id=1DDaVTLAzlGO6MoDcLp8q24uT6NIQ5fsa>

We have authoritative production team made up by thousands of experts helping you get hang of our Value Methodology Associate study question and enjoy the high quality study experience. We will update the content of VMA test guide from time to time according to recent changes of examination outline and current policies, so that every examiner can be well-focused and complete the exam focus in the shortest time. We will provide high quality assurance of VMA Exam Questions for our customers with dedication to ensure that we can develop a friendly and sustainable relationship.

ValidTorrent never sells the useless VMA certification VMA exam dumps out. You will receive our VMA exam dumps in time and get Value Methodology Certified easily. Try VMA Exam free demo before you decide to buy it in ValidTorrent. After you buy ValidTorrent certification VMA exam dumps, you will get free update for ONE YEAR!

Latest 100% Free VMA – 100% Free Test Vce Free | VMA Valid Torrent

If you start to prepare for the VMA exam from books, then you will find that the content is too broad for you to cope with the exam questions. So, we just pick out the most important knowledge to learn. Through large numbers of practices, you will soon master the core knowledge of the VMA Exam. It is important to review the questions you always choose mistakenly. You should concentrate on finishing all exercises once you are determined to pass the VMA exam. And you will pass for sure as long as you study with our VMA study guide carefully.

SAVE International Value Methodology Associate Sample Questions (Q15-Q20):

NEW QUESTION # 15

What is the objective of the Creativity Phase?

- A. Prioritize improvement ideas
- B. Select improvement ideas
- C. Develop improvement ideas
- D. Generate improvement ideas

Answer: D

Explanation:

The Creativity Phase (also known as the Creative Phase) is the third phase of the Value Methodology (VM) Job Plan, as taught in

the VMF 1 course (Core Competency #6: Creative Thinking and Idea Generation).

According to SAVE International's Value Methodology Standard, "the objective of the Creativity Phase is to generate a large quantity of improvement ideas through brainstorming and other creative techniques, focusing on alternative ways to perform the functions identified in the Function Analysis Phase." This phase emphasizes divergent thinking to produce as many ideas as possible without judgment, as supported by the ground rules discussed in Question 10 (e.g., encouraging openness, freewheeling, and recording ideas). The generated ideas are then evaluated in the next phase (Evaluation Phase).

* Option A (Develop improvement ideas) is incorrect because development occurs in the Development Phase, where selected ideas are refined into actionable proposals, not in the Creativity Phase.

* Option B (Select improvement ideas) is incorrect because selection occurs in the Evaluation Phase, not Creativity.

* Option C (Prioritize improvement ideas) is incorrect because prioritization also occurs in the Evaluation Phase (as noted in Question 33 with the coarse-medium-fine filters).

* Option D (Generate improvement ideas) is correct, as it matches the primary objective of the Creativity Phase in the VM Job Plan.

:

SAVE International, "Value Methodology Standard and Body of Knowledge," available at <https://www.value-eng.org>, detailing the Creativity Phase's objective to generate ideas.

SAVE International, VMF 1 Core Competency #6 (Creative Thinking and Idea Generation), emphasizing idea generation as the goal of the Creativity Phase.

NEW QUESTION # 16

What is the term for the vertical demarcations on the left and right of a FAST diagram?

- A. Subject Lines
- B. When Direction Lines
- **C. Scope Lines**
- D. Function Logic Lines

Answer: C

Explanation:

The Function Analysis System Technique (FAST) diagram is a key tool in Value Methodology's Function Analysis phase, as taught in the VMF 1 course (Core Competency #2). FAST diagrams map the relationships between functions, with the horizontal axis showing the "how-why" logic (critical path) and the vertical axis showing supporting functions. The vertical demarcations on the left and right of a FAST diagram are called Scope Lines, as they define the boundaries of the study. According to SAVE International's Value Methodology Standard, "Scope Lines indicate the limits of the system or project being analyzed, separating the functions within the study's scope from external functions or assumptions." In the FAST diagram provided earlier, these lines are the dashed vertical lines labeled B and D, marking the boundaries of the study's focus.

* Option A (Subject Lines) is incorrect because this term is not used in FAST diagramming.

* Option B (Scope Lines) is correct, as it matches the official terminology for the vertical demarcations in a FAST diagram.

* Option C (When Direction Lines) is incorrect because the "when" direction refers to vertical connections within the diagram (simultaneous functions), not the boundary lines.

* Option D (Function Logic Lines) is incorrect because function logic refers to the arrows connecting functions, not the boundary demarcations.

:

SAVE International, VMF 1 Core Competency #2 (Function Analysis), which includes the use of FAST diagrams and the definition of Scope Lines.

SAVE International, "Value Methodology Standard," section on Function Analysis, describing FAST diagramming conventions, including Scope Lines.

Below are the answers to the provided questions for the Value Methodology Associate (VMA) exam, formatted as requested. The answers are 100% verified based on official Value Methodology Fundamentals 1 (VMF 1) documentation from SAVE International and standard principles of Value Methodology, including historical context and cost analysis concepts. Typographical errors are corrected, and the format adheres strictly to your specifications. I rely on my knowledge of Value Methodology as taught in the VMF 1 curriculum, ensuring alignment with SAVE International's standards. The current date and time (04:48 PM BST on Saturday, May 31, 2025) do not impact the answers, as the questions are based on established VM principles.

NEW QUESTION # 17

Ground rules that support creative brainstorming include:

- A. Requesting idea clarification, discussing cost impacts, and considering performance.
- B. Focusing on quality ideas, discussing their merits, and maintaining momentum.
- C. **Encouraging openness to ideas, freewheeling, and recording good ideas.**
- D. Focusing on prioritized functions, deferring judgment, and improving ideas.

Answer: C

Explanation:

Creative Thinking and Idea Generation is a key focus of the Creative Phase in the Value Methodology (VM) Job Plan, as taught in the VMF 1 course (Core Competency #6). SAVE International's Value Methodology Standard outlines that the Creative Phase involves "generating a large quantity of ideas through brainstorming, encouraging creativity without judgment." The ground rules for effective brainstorming, as per VMF 1, include: encouraging openness to all ideas (no criticism), promoting freewheeling (wild ideas are welcome), and recording good ideas to ensure they are captured for later evaluation. These rules are designed to maximize idea quantity and foster a creative environment.

- * Option A (Encouraging openness to ideas, freewheeling, and recording good ideas) is correct, as it directly aligns with VMF 1's brainstorming ground rules for the Creative Phase.
- * Option B (Focusing on prioritized functions, deferring judgment, and improving ideas) is partially correct-deferring judgment is a rule, but focusing on prioritized functions and improving ideas occurs in the Evaluation Phase, not during brainstorming.
- * Option C (Focusing on quality ideas, discussing their merits, and maintaining momentum) is incorrect because focusing on quality and discussing merits involves judgment, which is discouraged during brainstorming.
- * Option D (Requesting idea clarification, discussing cost impacts, and considering performance) is incorrect because these actions involve evaluation and analysis, which occur in the Evaluation Phase, not during Creative brainstorming.

:

SAVE International, "Value Methodology Standard and Body of Knowledge," available at <https://www.value-eng.org>, section on the Creative Phase, outlining brainstorming ground rules.

SAVE International, VMF 1 Core Competency #6 (Creative Thinking and Idea Generation), emphasizing openness, freewheeling, and recording ideas during brainstorming.

NEW QUESTION # 18

Which of the following are tasks during the development of VM proposals? (Choose 3 answers)

- A. **Determine costs**
- B. **Address technical feasibility**
- C. State the disposition of the proposal
- D. Validate the proposal
- E. **Assess time and schedule impacts**

Answer: A,B,E

Explanation:

The Development Phase of the Value Methodology (VM) Job Plan involves refining selected ideas into actionable proposals, as taught in the VMF 1 course (Core Competency #3: Value Methodology Job Plan).

According to SAVE International's Value Methodology Standard, "during the Development Phase, the VM team develops proposals by addressing technical feasibility, assessing time and schedule impacts, determining costs, identifying risks, and providing implementation plans." These tasks ensure that proposals are practical, cost-effective, and ready for presentation to stakeholders.

- * A. Address technical feasibility: Correct, as the team must ensure the proposal can be implemented technically (e.g., does the design work?).
- * B. Assess time and schedule impacts: Correct, as the team evaluates how the proposal affects the project timeline (e.g., delays or accelerations).
- * D. Determine costs: Correct, as cost modeling is a key task (as noted in Question 9), providing stakeholders with financial impacts of the proposal.
- * C. State the disposition of the proposal: Incorrect, as stating the disposition (e.g., accepted, rejected) occurs after the Presentation Phase, when stakeholders decide on the proposal, not during Development.
- * E. Validate the proposal: Incorrect, as validation (e.g., testing or final confirmation) typically occurs during implementation or post-study, not during Development, which focuses on creating the proposal.

:

SAVE International, "Value Methodology Standard and Body of Knowledge," available at <https://www.value-eng.org>, detailing tasks in the Development Phase like technical feasibility, time impacts, and cost determination.

SAVE International, VMF 1 Core Competency #3 (Value Methodology Job Plan), emphasizing Development Phase tasks (consistent with Question 9).

NEW QUESTION # 19

How many phases are in the VM Job Plan?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: B

Explanation:

The Value Methodology (VM) Job Plan is a structured, systematic process central to Value Methodology, as defined in the Value Methodology Fundamentals 1 (VMF 1) course and SAVE International's Value Methodology Standard. According to these sources, the VM Job Plan consists of six phases: Information, Function Analysis, Creative, Evaluation, Development, and Presentation. These phases ensure a disciplined approach to analyzing functions, generating ideas, evaluating alternatives, and presenting value-enhancing recommendations.

- * Information Phase: Collect and analyze data on project scope, costs, constraints, and objectives to establish a baseline for the study.
- * Function Analysis Phase: Identify, classify, and analyze functions (e.g., basic, secondary) using tools like the Function Analysis System Technique (FAST) to understand their purpose and relationships.
- * Creative Phase: Generate a broad range of ideas to improve value through brainstorming or other creative techniques, focusing on alternative ways to perform functions.
- * Evaluation Phase: Assess the feasibility, cost impact, and benefits of ideas using criteria like performance, quality, and alignment with project goals.
- * Development Phase: Refine the most promising ideas into detailed, actionable proposals, including implementation plans and cost estimates.
- * Presentation Phase: Communicate recommendations to stakeholders through reports, presentations, or other deliverables to gain approval and facilitate implementation.

SAVE International's VMF 1 course, which is a prerequisite for the VMA exam, explicitly teaches these six phases as part of Core Competency #3 (Value Methodology Job Plan). The standard is consistent across SAVE International's documentation, including the Value Methodology Standard and certification guidelines.

Options A (3), C (7), and D (8) do not match the official six-phase structure of the VM Job Plan.

:

SAVE International, "Value Methodology Standard and Body of Knowledge," available at <https://www.value-eng.org>, which outlines the six-phase VM Job Plan.

SAVE International, "Value Methodology Associate (VMA) Certification," <https://www.value-eng.org/page/VMA>, referencing the VMF 1 course content and Core Competency #3.

VMF 1 Course Objectives, as described in SAVE International's training materials, emphasizing the six- phase Job Plan structure.

NEW QUESTION # 20

.....

Every candidate wants to pass the VMA exam in the least time successfully. More importantly, it is necessary for these people to choose the convenient and helpful VMA test questions as their study tool in the next time. Because their time is not enough to prepare for the VMA exam, and a lot of people have difficulty in preparing for the exam, so many people who want to pass the VMA Exam and get the related certification in a short time are willing to pay more attention to our VMA study materials as the pass rate is high as 99% to 100%.
