## Reliable Analytics-Con-201 Practice Questions | Analytics-Con-201 Study Test

Our Analytics-Con-201 practice materials from our company are invulnerable. And we are consigned as the most responsible company in this area. So many competitors concede our superior position in the market. Besides, we offer some promotional benefits for you. The more times you choose our Analytics-Con-201 Training Materials, the more benefits you can get, such as free demos of our Analytics-Con-201 exam dumps, three-version options, rights of updates and so on. So customer orientation is the beliefs we honor.

## Salesforce Certified CRM Analytics and Einstein Discovery Consultant Sample Questions (Q102-Q107):

### NEW QUESTION # 102

Universal Containers (UC) has a "Sales Manager" dashboard. UC has a compare table that has multiple groupings and columns added showing the Total and Subtotals of the numeric values. A consultant is asked to add additional groups to enhance details about UC's customers.

Which feature should the consultant use to make the navigation of the compare tables easier for the end user?

- A. Select the Enable Expand or Collapse option from the table properties.
- B. Scroll to the very end to see the details.
- C. Create the table using SAQL query to accommodate this and make It user friendly.

**Answer: A**

### NEW QUESTION # 103

A user is able to access the dashboards, lenses, and datasets of a particular app but is unable to change the name of the specific app.

What is causing the issue?

- A. The user does not have Editor access for that app.
- B. The user does not have Manager access for that app.
- C. The app name cannot be changed once created.

**Answer: B**

Explanation:

In CRM Analytics, the ability to modify the name of an app or make other significant changes typically requires Manager access. This level of access is distinct from Editor or Viewer permissions, which may allow for modifications to contents within the app but not to the app's core properties like its name. Here's the reasoning:

- \* Access Restrictions: Manager access is specifically designed to control structural changes within the app, including renaming the app, which is considered a higher privilege operation.
- \* Role-Based Access Control: This ensures that only users with the necessary permissions can make significant changes, protecting the integrity and configuration of the app.

Ensuring users have the appropriate level of access based on their responsibilities is a fundamental aspect of managing security and functionality in CRM Analytics.

**NEW QUESTION # 104**

A CRM Analytics consultant is adding direct data into an existing recipe. When trying to click on the input node, data preview is taking a long time to show any results.

How should the consultant resolve this?

- A. Register the Salesforce object and use Filtered Rows under Data Preview Sampling.
- B. Update the Sample Size under Data Preview Sampling to 5,000 rows.
- C. Use the **Filtered Rows sampling mode** under Data Preview Sampling to filter records.

**Answer: C**

**NEW QUESTION # 105**

A system administrator and a CRM Analytics consultant are working together on deploying a recipe/dataflow and a dataset to another org. Prior to this deployment, a package was deployed with all the custom fields used in the dataflow and dataset.

While running the recipe/dataflow in the target environment, the consultant encounters multiple errors related to these custom fields. How should this be resolved?

- A. Check whether the system administrator has been provided access to these custom fields on the target org.
- B. **Check whether the Analytics Integration user has been provided access to these custom fields on the target org.**
- C. Check whether the consultant has been provided access to these custom fields on the target org.

**Answer: B**

**NEW QUESTION # 106**

Exhibit:

Account Type	Total Accounts This Year	Total Accounts Last Year	YoY Growth
Customer	5,296	4,238	24.96%
Prospect	0	0	0%
Wholesaler	2	2	0%

Universal Containers has a dashboard for sales managers to visualize the Year Over Year (YoY) growth of their customers. The formula used is:

$$\text{YoY} = [(This\ Year - Last\ Year) / Last\ Year] \%$$

Based on the graphic, when there is not an account in the Last Year column, the YoY Growth shows null results. The sales managers want to replace it with 100% value.

What is the correct function to use?

- A. replace()
- B. substr()
- C. coalesce()

**Answer: C**

## NEW QUESTION # 107

.....

Did you often feel helpless and confused during the preparation of the exam? Do you want to find an expert to help but feel bad about the expensive tutoring costs? Don't worry. Analytics-Con-201 learning materials can help you to solve all the problems. Analytics-Con-201 learning material always regards helping students to pass the exam as its own mission. With Analytics-Con-201 learning materials, you only need to pay half the money to get the help of the most authoritative experts.

**Reliable Analytics-Con-201 Practice Questions:** <https://www.prep4sureguide.com/Analytics-Con-201-prep4sure-exam-guide.html>

As we all know, Analytics-Con-201 certification is one of the most recognized certification in the IT industry, Salesforce Analytics-Con-201 Valid Study Notes If you are proficient in finishing our dumps you will pass exams with no doubt, Do not hesitate and check out excellent Salesforce Analytics-Con-201 practice exam to stand out from the rest of the others, Salesforce Analytics-Con-201 Valid Study Notes As we entered into such a web world, cable network or wireless network has been widely spread.

Rich shows you why taking a few simple preventative measures, and just Analytics-Con-201 knowing what these problems are, will help you avoid these issues altogether, These should also be documented during the design phase.
