Topic 10	<ul style="list-style-type: none"> <li>• Map data across applications: This section of the exam measures the skills of an EPM Consultant and includes how to map and align data structures between Planning and other connected applications.</li> </ul>
Topic 11	<ul style="list-style-type: none"> <li>• Explain required and user-defined dimensions; how dimension hierarchies impact Planning</li> </ul>
Topic 12	<ul style="list-style-type: none"> <li>• Set Up Planning Security: This section of the exam measures the skills of a Planning Administrator and includes provisioning user roles and assigning appropriate access rights across Planning artifacts and data.</li> </ul>
Topic 13	<ul style="list-style-type: none"> <li>• Explain the benefits of using Groovy Rules: This section of the exam measures the skills of an EPM Consultant and explains how Groovy scripting enhances rule flexibility and performance.</li> </ul>
Topic 14	<ul style="list-style-type: none"> <li>• Manage Forms, Dashboards, and Navigation Flows: This section of the exam measures the skills of an EPM Consultant and includes creating interactive forms and dashboards and setting up navigation flows for a better user experience.</li> </ul>
Topic 15	<ul style="list-style-type: none"> <li>• Report on EPM data: This section of the exam measures the skills of a Planning Administrator and covers using reporting tools to analyze data stored in EPM applications.</li> </ul>
Topic 16	<ul style="list-style-type: none"> <li>• Import and export metadata into Planning: This section of the exam measures the skills of a Planning Administrator and involves understanding how to bring metadata in and out of Planning applications.</li> </ul>
Topic 17	<ul style="list-style-type: none"> <li>• Identify metadata and data load options: This section of the exam measures the skills of a Planning Administrator and introduces options available for importing and managing metadata and data within the system</li> </ul>
Topic 18	<ul style="list-style-type: none"> <li>• Planning Overview: This section of the exam measures the skills of an EPM Consultant and covers the general features of Planning. It includes how Planning works, its core capabilities, and how it fits into enterprise performance management.</li> </ul>
Topic 19	<ul style="list-style-type: none"> <li>• Set up valid and invalid intersections and cell-level security: This section of the exam measures the skills of an EPM Consultant and focuses on defining valid data intersections and applying security controls to limit data access at the cell level.</li> </ul>

Topic 20	<ul style="list-style-type: none"> <li>• Report on Planning Data: This section of the exam measures the skills of a Planning Administrator and focuses on generating reports to analyze and present Planning data effectively.</li> </ul>
Topic 21	<ul style="list-style-type: none"> <li>• Create Reports: This section of the exam measures the skills of a Planning Administrator and involves creating reports that summarize planning activities and outcomes.</li> </ul>
Topic 22	<ul style="list-style-type: none"> <li>• Import and export data into Planning: This section of the exam measures the skills of a Planning Administrator and covers the process of moving planning data into and out of the system.</li> </ul>
Topic 23	<ul style="list-style-type: none"> <li>• Create and manage navigation flows: This section of the exam measures the skills of an EPM Consultant and involves organizing navigation flows to simplify user interaction in Planning.</li> </ul>

## Oracle Planning 2025 Implementation Professional Sample Questions (Q26-Q31):

### NEW QUESTION # 26

Which dimension must members be imported into to configure Additional Earnings in the Benefits and Taxes wizard?

- A. Pay Type
- B. Account
- C. Component
- D. Property

**Answer: C**

Explanation:

In Oracle Planning 2024 Implementation, the Benefits and Taxes Wizard is used to configure employee- related financial components, such as additional earnings, benefits, and taxes, within the Workforce module.

To configure Additional Earnings specifically, members must be imported into the Component dimension.

This dimension is designed to categorize and manage various types of earnings, benefits, and taxes that apply to employees.

The Component dimension acts as a foundational structure in the Workforce module, allowing administrators to define and import members (e.g., "Bonus," "Overtime," or other additional earnings types) that can then be associated with employees via the wizard.

The wizard uses these members to calculate and allocate costs accurately across the workforce plan.

\* B. Account: While the Account dimension is critical for financial reporting and calculations, it is not the dimension where Additional Earnings members are imported in the Benefits and Taxes Wizard.

Accounts are typically used to map earnings to financial statements, not to define the earnings types themselves.

\* C. Property: The Property dimension is used for employee or job attributes (e.g., location, department), not for configuring earnings types in the wizard.

\* D. Pay Type: Although Pay Type is related to salary and wage classifications, it is not the dimension used for importing Additional Earnings members in the Benefits and Taxes Wizard. Pay Type is more about categorizing base pay structures rather than additional earnings components.

References

\* Oracle Enterprise Performance Management Cloud Documentation: "Administering Workforce - Benefits and Taxes Wizard" (docs.oracle.com, updated 2024). Specifies that "members for additional earnings must be imported into the Component dimension" for configuration in the wizard.

\* Oracle Planning 2024 Implementation Study Guide: Highlights the Component dimension as the target for importing earnings-related members in Workforce configuration.

### NEW QUESTION # 27

Which four job types can be scheduled in Planning?

- A. Import Data and Export Data
- B. Refresh Database
- C. Promote Planning Unit
- D. Data map
- E. Create Snapshot
- F. Merge Data Slices

**Answer: A,B,D,F**

**NEW QUESTION # 28**

Which step does NOT need to be completed to manage the configuration of Key Performance Indicators (KPIs) in Planning Financials?

- **A. Adding KPIs to the hierarchy**
- B. Verifying enabled KPIs
- C. Adding KPIs in Configure: Financials
- D. Adding KPIs to the alternate hierarchy
- E. Reviewing KPIs in the hierarchy

**Answer: A**

**NEW QUESTION # 29**

Which three security design principles can help reduce overall security maintenance and troubleshooting?

- **A. Using inherited permissions**
- B. Assigning read access to each cube, and then none and write access within dimension security
- **C. Creating groups over assigning individual access permission to users**
- D. Having a single Identity Domain Administrator to ensure seamless operations
- **E. Configuring single sign-on (SSO)**

**Answer: A,C,E**

**NEW QUESTION # 30**

In Financials, you can leverage out-of-the-box calculations to aggregate and prepare actual, plan, and forecast data. Which calculation rule would you run to update reports or analyze data at various levels of the business hierarchy?

- **A. Rollup**
- B. Calculate Actuals
- C. Prepare Plans
- D. Prepare Forecast

**Answer: A**

**NEW QUESTION # 31**

.....

Market is a dynamic place because a number of variables keep changing, so is the practice materials field of the 1z0-1080-25 practice exam. Our 1z0-1080-25 exam dumps are indispensable tool to pass it with high quality and low price. By focusing on how to help you effectively, we encourage exam candidates to buy our 1z0-1080-25 practice test with high passing rate up to 98 to 100 percent all these years. Our Oracle exam dumps almost cover everything you need to know about the exam. As long as you practice our 1z0-1080-25 Test Question, you can pass exam quickly and successfully. By using them, you can not only save your time and money, but also pass 1z0-1080-25 practice exam without any stress.
