SAP Certified Associate - Enterprise Architecture Consultant - SAP LeanIX

Sample Questions (Q18-Q23):

NEW QUESTION # 18

If a user wants to answer the question: "How complex is our IT landscape?", what is the best way to proceed?

- A. Run a survey session with all your stakeholders in the organization.
- **B. Run an Application Portfolio Assessment.**
- C. Run a Circle Map Report.

Answer: B

Explanation:

Running an Application Portfolio Assessment is a critical step in evaluating the current state of an organization's applications. This assessment helps in identifying redundant or outdated applications, understanding application usage, and aligning the application portfolio with business goals. It involves collecting data on all applications, assessing their business value and technical health, and making decisions on application consolidation, modernization, or retirement.
