PECB Certified NIS 2 Directive Lead Implementer Sample Questions (Q52-Q57):

NEW QUESTION # 52

What is the required frequency for Member States to update the register of entities?

- A. Every six months
- B. Every year
- C. Every two years

Answer: C

NEW QUESTION # 53

Scenario 1:

into incidents that could result in substantial material or non-material damage. When it comes to identifying and mitigating risks, the company has employed a standardized methodology. It conducts thorough risk identification processes across all operational levels, deploys mechanisms for early risk detection, and adopts a uniform framework to ensure a consistent and effective incident response. In alignment with its incident reporting plan, SecureTech reports on the initial stages of potential incidents, as well as after the successful mitigation or resolution of the incidents.

Moreover, SecureTech has recognized the dynamic nature of cybersecurity, understanding the rapid technological evolution. In response to the ever-evolving threats and to safeguard its operations, SecureTech took a proactive approach by implementing a comprehensive set of guidelines that encompass best practices, effectively safeguarding its systems, networks, and data against threats. The company invested heavily in cutting-edge threat detection and mitigation tools, which are continuously updated to tackle emerging vulnerabilities. Regular security audits and penetration tests are conducted by third-party experts to ensure robustness against potential breaches. The company also prioritizes the security of customers' sensitive information by employing encryption protocols, conducting regular security assessments, and integrating multi-factor authentication across its platforms.

Based on the last paragraph of scenario 1, which of the following standards should SecureTech utilize to achieve its objectives concerning the protection of customers' data?

- A. ISO/IEC TR 27103
- B. ISO/IEC 27017
- C. ISO/IEC 27018

Answer: C

NEW QUESTION # 54

To whom should CSIRTs provide information regarding incidents?
