Authoritative New C_S4EWM_2023 Test Format Help You to Get Acquainted with Real C_S4EWM_2023 Exam Simulation

Our SAP Certified Associate - SAP S/4HANA Cloud Private Edition, Extended Warehouse Management test torrent boost 99%

passing rate and high hit rate so you can have a high probability to pass the exam. Our C_S4EWM_2023 study torrent is compiled by experts and approved by the experienced professionals and the questions and answers are chosen elaborately according to the syllabus and the latest development conditions in the theory and the practice and based on the real exam. The questions and answers of our C_S4EWM_2023 Study Tool have simplified the important information and seized the focus and are updated frequently by experts to follow the popular trend in the industry. Because of these wonderful merits the client can pass the exam successfully with high probability.

SAP C_S4EWM_2023 Exam Syllabus Topics:

Topic	Details
Topic 1	• Outbound Processes (Wave Management, Cross-docking, Production Integration): This topic covers combining outbound deliveries using wave management, packing and kitting in outbound processes, and staging products for production.
Topic 2	• Managing Clean Core: It covers evaluating and applying clean core principles to ERP to maximize business process agility, reduce adaptation efforts, and accelerate innovation.
Topic 3	• Shipping and Receiving: It focuses on configuring Yard Management, SAP Dock Appointment Scheduling, and using the Shipping Cockpit.
Topic 4	• Warehouse Management (Monitor - Cockpit): This topic involves monitoring warehouse activities using the Warehouse Management Monitor, Warehouse Cockpit, and analytical apps.
Topic 5	• Inbound Processes (Value Added Services, Cross-docking, Quality Management): This topic includes executing inbound processes with value added services (VAS) or deconsolidation, and setting up deliveries for cross-docking (CD) or quality inspection (QIE).
Topic 6	• Cross Topics (Labor Management, Exception Handling, Batches, Serial Numbers): This topic includes setting up labor management and exception handling, and working with additional product information.
Topic 7	• Warehouse Structure, Resource Management and SAP EWM Master Data: This topic encompasses defining the warehouse structure and setting up resource management, along with creating SAP EWM master data like storage bins and products, packaging specifications, supply chain units, and business partners.
Topic 8	• System Integration, Master Data and Delivery Document Customizing: This focuses on setting up system integration, distributing master data, and customizing delivery documents.

SAP Certified Associate - SAP S/4HANA Cloud Private Edition, Extended Warehouse Management Sample Questions (Q71-Q76):

NEW QUESTION # 71
Using embedded EWM, what options do you have for the goods receipt posting for external procurement? Note: There are 2 correct answers to this question.

- A. Use synchronous goods receipt where you post the GR in ERP.
- B. Use the EWM Inbound Delivery to post goods receipt.
- C. Use the ERP Inbound Delivery to post goods receipt.
- D. Use synchronous goods receipt where you post the GR in EWM.

Answer: B,C

Explanation:
Comprehensive and Detailed In-Depth Explanation:
In embedded EWM within SAP S/4HANA Cloud, Private Edition, goods receipt (GR) for external procurement can be posted using two primary methods. Option B ("Use the ERP Inbound Delivery to post goods receipt") is correct because the ERP inbound delivery (created in SAP ERP/S/4HANA MM) serves as the reference document, which is then replicated to EWM for warehouse

processing. Option C ("Use the EWM Inbound Delivery to post goods receipt") is also correct because the inbound delivery in EWM, derived from the ERP document, is where the actual GR is confirmed and posted back to ERP via integration. Synchronous GR (options A and D) is not a standard feature in embedded EWM for external procurement, as the process relies on asynchronous communication between ERP and EWM via queued remote function calls (qRFC). The GR posting is finalized in ERP based on EWM confirmation, ensuring inventory alignment.

NEW QUESTION # 72
Which document is created in SAP Extended Warehouse Management when you use advanced production integration?

- A. Production material request
- B. Outbound delivery request
- C. Production order
- D. Outbound delivery

Answer: A

Explanation:
Advanced Production Integration in SAP EWM
* Production Material Request (B): This document is created in SAP EWM to manage materials needed for production, ensuring proper staging and inventory allocation.
Excluded Options
* A (Production Order): Created in SAP ERP, not EWM.
* C (Outbound Delivery Request): Relevant for outbound flows, not production integration.
* D (Outbound Delivery): Triggered for shipping but not for production.
SAP S/4HANA Cloud Private Edition Reference
* Refer to Advanced Production Integration with EWM.

NEW QUESTION # 73
Your customer wants to implement the material flow system (MFS) to control conveyors and the automated high rack storage are a. Which standard options do you have to communicate with the programmable logic controllers (PLC)? Note: There are 2 correct answers to this question.

- A. Send an IDoc through a Post Processing Framework action to the PLC
- B. Use the ALE interface to send an IDoc to a 3rd party software
- C. Directly integrate to the PLC using ABAP Push Channels
- D. Use an RFC adaptor (e.g., SAP Plant Connectivity)

Answer: C,D

Explanation:
Comprehensive and Detailed In-Depth Explanation:
The Material Flow System (MFS) in SAP EWM integrates with PLCs for automation. Option B ("Directly integrate to the PLC using ABAP Push Channels") is correct as it enables real-time communication via WebSockets, configured in SPRO: SCM Extended Warehouse Management > Material Flow System > Communication. Option D ("Use an RFC adaptor (e.g., SAP Plant Connectivity)") is correct because SAP Plant Connectivity (PCo) uses RFC to connect EWM to PLCs. Option A (ALE/IDoc) and option C (PPF/IDoc) are not standard for direct PLC communication; they're more suited for system-to-system data exchange.

NEW QUESTION # 74
What are characteristics of the early capacity check? Note: There are 2 correct answers to this question.

- A. It is only available when working with mobile devices
- B. It is based on capacities of bin types
- C. It is done during the actual putaway process
- D. It happens during the warehouse task creation

Answer: B,D

Explanation:

Comprehensive and Detailed In-Depth Explanation:
The early capacity check in SAP EWM ensures bins can accommodate stock before task execution. Option C ("It happens during the warehouse task creation") is correct as it occurs when tasks are generated, and option D ("It is based on capacities of bin types") is correct because it uses bin type capacity data, both configured in SPRO: SCM Extended Warehouse Management > Goods Receipt Process > Capacity Check. Option A (mobile devices) is incorrect as it's not device-specific, and option B (during putaway) is too late for an
"early" check.

NEW QUESTION # 75
Which of the following can be elements of an inspection rule? Note: There are 2 correct answers to this question.

- A. Sample drawing procedure
- B. EWM stock type
- C. Inspection procedure
- D. Work center

Answer: A,C

Explanation:
Elements of an Inspection Rule
* Inspection Procedure (C): Defines the inspection process and criteria for quality checks.
* Sample Drawing Procedure (D): Governs how samples are selected and drawn for inspection.
Excluded Options
* A (Work Center): Work centers are operational locations, not part of inspection rules.
* B (EWM Stock Type): Stock type influences inventory management, not inspections.
SAP S/4HANA Cloud Private Edition Reference
* Refer to Inspection Rule and Quality Management Configuration in SAP EWM.

NEW QUESTION # 76
.....

The SAP Certified Associate - SAP S/4HANA Cloud Private Edition, Extended Warehouse Management (C_S4EWM_2023) product can be easily accessed just after purchasing it from Lead1Pass. You can receive free SAP Dumps updates for up to 1 year after buying material. The 24/7 support system is also available for you, which helps you every time you get stuck somewhere. Many students have studied from the Lead1Pass SAP C_S4EWM_2023 practice material and rated it positively because they have passed the SAP Certified Associate - SAP S/4HANA Cloud Private Edition, Extended Warehouse Management (C_S4EWM_2023) certification exam on the first try.
