Pass Guaranteed Quiz Nutanix - NCA-6.10 - Nutanix Certified Associate v6.10 Fantastic Well Prep

Our Nutanix dumps torrent contains everything you need to pass NCA-6.10 actual test smoothly. We always adhere to the principle that provides our customers best quality NCA-6.10 Exam Prep with most comprehensive service. This is the reason why most people prefer to choose our NCA-6.10 vce dumps as their best preparation materials.

Our NCA-6.10 practice materials are your optimum choices which contain essential know-hows for your information. If you really want to get the certificate successfully, only NCA-6.10 practice materials with intrinsic contents can offer help they are preeminent materials can satisfy your both needs of studying or passing with efficiency. You may strand on some issues at sometimes, all confusions will be answered by their bountiful contents. Wrong choices may engender wrong feed-backs, we are sure you will come a long way by our NCA-6.10 practice material.

NCA-6.10 Formal Test, 100% NCA-6.10 Accuracy

Dumpkiller is an excellent platform where you get relevant, credible, and unique Nutanix NCA-6.10 exam dumps designed according to the specified pattern, material, and format as suggested by the Nutanix NCA-6.10 exam. To make the Nutanix NCA-6.10 Exam Questions content up-to-date for free of cost up to 365 days after buying them, our certified trainers work strenuously to formulate the exam questions in compliance with the NCA-6.10 dumps.

Nutanix Certified Associate v6.10 Sample Questions (Q60-Q65):

NEW QUESTION # 60
An administrator is looking to upgrade their licensing on a Nutanix cluster.
Which licensing levels are available for a Nutanix cluster?

- A. Starter, Pro, Dedicated

- B. Community Edition, Pro, Enterprise
- C. Starter, Pro, Ultimate
- D. Mixed, Advanced, Enterprise

Answer: C

NEW QUESTION # 61

Which Nutanix offering allows for extending an on-prem datacenter into the public cloud?

- A. Nutanix Cloud Security
- B. Nutanix Kubernetes Engine
- C. Nutanix Cloud Clusters
- D. Nutanix Data Services

Answer: C

Explanation:
Nutanix Cloud Clusters (NC2)enables extending on-premises datacenters into public cloud environments, such as AWS or Azure. This solution allows administrators to seamlessly migrate workloads, scale operations, and manage resources across hybrid cloud environments using a unified control plane.
* A. Nutanix Cloud Security:Incorrect, as this focuses on securing workloads in the cloud, not extending datacenters.
* B. Nutanix Cloud Clusters:Correct, as NC2 enables hybrid cloud functionality by extending on-prem clusters into the public cloud.
* C. Nutanix Kubernetes Engine:Incorrect, as this is used for container orchestration, not hybrid cloud extension.
* D. Nutanix Data Services:Incorrect, as this refers to storage and data management capabilities.
References:
Nutanix Cloud Clusters (NC2) Documentation.
Nutanix University: Hybrid Cloud Training.

NEW QUESTION # 62

An administrator is considering a data protection strategy between two sites. There is a 10ms round trip latency between the two clusters. Which data protection solution can the administrator implement that minimizes data loss in the event of a disaster?

- A. Synchronous Replication
- B. Async DR
- C. Metro Availability
- D. NearSync Replication

Answer: D

Explanation:
The correct answer isA. NearSync Replication.
Key Concepts from Official Nutanix Documentation:
Nutanix supports various types of data replication methods depending on the Recovery Point Objective (RPO), Recovery Time Objective (RTO), and the latency between the sites.
* Metro Availabilityrequires a maximum latency of<5ms RTTand is used forzero RPO synchronous replication. Since the given latency is 10ms,Metro Availability is not supportedin this case.
Reference: Nutanix Bible - Metro Availability Section
Prism UI Navigation: Protection Domains > Metro Availability
Synchronous Replicationis often synonymous withMetro Availabilityin Nutanix's implementation. Thus, it is similarly bound by the <5ms RTT requirement.
Async DR (Asynchronous Disaster Recovery)allows for more relaxed RPOs, typically1 hour or more, which doesnot minimize data lossin the event of a disaster.
NearSync Replicationsupports anRPO as low as 1 minuteand issuitable for up to 20ms RTT latency. It utilizeslightweight snapshotsandschedule-based replicationto deliverlow-RPO protectioneven over relatively long distances and moderate latencies.
Reference: Nutanix Data Protection Guide - NearSync Overview
Prism UI Navigation: Data Protection > Protection Domains > Schedule (with 1-minute RPO option) Detailed Source References:
Nutanix Data Protection and DR Guide - v5.x and later:"NearSync replication enables you to achieve RPOs as low as 1 minute and is designed to work with round-trip latencies of up to 20ms." Prism Central UI:Navigate toProtection > Data Protection > Protection Domains > Create Schedule# Set schedule type to "NearSync" and observe the 1-minute RPO options.

Hence, since 10ms RTTexceeds Metro Availability requirementsbut iswell within NearSync's acceptable latency, the best choice thatminimizes data lossis:

NEW QUESTION # 63
What is the recommended step before performing any upgrade procedure?

- A. Run Nutanix Cluster Check
- B. Put the hosts into maintenance mode
- C. Put the CVMs into maintenance mode
- D. Clear all alerts in Prism

Answer: A

Explanation:
The correct answer isB. Run Nutanix Cluster Check (NCC).
Before performingany upgrade procedure(AOS, Foundation, LCM, etc.), it is strongly recommended torun the Nutanix Cluster Check (NCC). This tool performs acomprehensive health assessmentof the cluster and validates its readiness for the upgrade, including:
* Disk integrity
* Network configuration
* CVM health
* Cluster services status
Prism UI Navigation Path:
Health > Run NCC Check (via Actions menu)
Command Line Alternative:
bash
CopyEdit
ncc health_checks run_all
Clarifications:
* A (Put hosts into maintenance mode): Not required before upgrades; LCM handles host management automatically.
* C (Put CVMs into maintenance mode): Not correct. CVMs must be operational during upgrades.
* D (Clear all alerts): Irrelevant unless the alerts indicate upgrade-blocking issues, which NCC identifies.
Official Reference:
* Nutanix Upgrade Guide - Pre-upgrade Checklist Section
* Excerpt: "It is strongly recommended to run NCC prior to starting the upgrade process to detect any cluster issues."

NEW QUESTION # 64
Which workload type would be a good fit for NFS on Objects?

- A. Filesystems used for transitory or work spaces
- B. End user computing workloads
- C. Large-scale, read heavy workloads
- D. Workloads that are updated frequently

Answer: C

Explanation:
The correct answer isC. Large-scale, read heavy workloads.
NFS on Objectsis a Nutanix feature allowingNFS clients to interact with Nutanix Objects (S3-compatible object storage)by exposing object buckets viaNFS v3 protocol. This is ideal for workloads that require:
* Large-scale access to unstructured data
* High read concurrency
* Cost-effective storage for infrequently changed files
Best Use Case:
Backup archives, analytics workloads, image repositories, or video streaming systems withread-heavy profiles.
Clarifications:
* A (EUC workloads):Typically require fast, low-latency block storage (e.g., vDisks).
* B (Transitory FS):Better suited for file services like Nutanix Files.
* D (Frequent updates):Not ideal for object storage via NFS; performance will degrade under frequent write operations.

Official Reference:
* Nutanix Objects with NFS Gateway - Best Practices
* Nutanix Documentation Portal - Objects and NFS
* Excerpt: "NFS on Objects is best suited for large-scale, read-heavy use cases where file system semantics are needed on top of object-based storage."

NEW QUESTION # 65

......

Since our company's establishment, we have devoted mass manpower, materials and financial resources into NCA-6.10 exam materials and until now, we have a bold idea that we will definitely introduce our NCA-6.10 study materials to the whole world and make all people that seek fortune and better opportunities have access to realize their life value, Our NCA-6.10 Practice Questions, therefore, is bound to help you pass though the NCA-6.10 exam and win a better future.

NCA-6.10 Formal Test: https://www.dumpkiller.com/NCA-6.10_braindumps.html

Nutanix Well NCA-6.10 Prep The formers users have built absolute trust who bought them already before, and we believe you can be one of them, The NCA-6.10 exam torrent includes all questions that can appear in the real exam, Besides, there is no difficult sophistication about the procedures, our latest NCA-6.10 exam torrent materials have been in preference to other practice materials and can be obtained immediately, Through the proof of many IT professionals who have use Dumpkiller NCA-6.10 Formal Test's products, Dumpkiller NCA-6.10 Formal Test is very reliable for you.

Does your Facebook page show up in internal NCA-6.10 searches when it should, Manage your contacts, and then connect with others usingMessaging, The formers users have built absolute NCA-6.10 Formal Test trust who bought them already before, and we believe you can be one of them.

Pass Guaranteed First-grade Nutanix NCA-6.10 - Well Nutanix Certified Associate v6.10 Prep

The NCA-6.10 Exam Torrent includes all questions that can appear in the real exam, Besides, there is no difficult sophistication about the procedures, our latest NCA-6.10 exam torrent materials have been in preference to other practice materials and can be obtained immediately.

Through the proof of many IT professionals who have use Dumpkiller's products, Dumpkiller is very reliable for you, We believe all our clients can pass NCA-6.10 exam.
