How Should the administrator share records owned by sales team A with Sales team B?

- A. Owner based sharing
- B. Criteria based sharing
- C. Use Manual sharing
- D. Hierarchical sharing

Answer: C

Explanation:

Manual sharing allows record owners to share individual records with other users or groups. This is useful when one-off sharing is needed for a specific situation. Hierarchical sharing, criteria-based sharing and owner-based sharing are not suitable for this scenario because they are based on predefined rules or roles that do not match the requirement.
