## Latest GAFRB Exam Notes, GAFRB Latest Dumps Pdf

The content and design of our GAFRB learning quiz are all perfect and scientific, and you will know it when you use this. Of course, we don't need you to spend a lot of time on our GAFRB exam questions. As long as you make full use of your own piecemeal time after 20 to 30 hours of study, you can go to the exam. The users of our GAFRB Study Materials have been satisfied with their results. I believe you are the next person to pass the exam!

## AGA GAFRB Exam Syllabus Topics:

Topic	Details

Topic 1	<ul style="list-style-type: none"> <li>• <b>Federal Financial Accounting and Reporting:</b> This section of the exam measures skills of government financial analysts and covers the roles of FASAB, OMB, Treasury, and GAO in federal accounting. It includes an understanding of federal budgetary terminology and the federal budgetary equation. The section differentiates between budgetary and proprietary accounting and outlines the structure and use of various federal fund types. It explains how to record key budgetary transactions like appropriations and obligations and proprietary transactions such as payroll and depreciation.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>• <b>State and Local Financial Accounting and Reporting:</b> This section of the exam measures skills of public sector accountants and focuses on applying GASB standards to define reporting entities and component units. It explores the structure and purpose of various fund types and the basis of accounting for each. Candidates must understand the format and content of the Annual Comprehensive Financial Report and the purpose of popular reports for public transparency.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>• <b>Governmental Financial Accounting, Reporting and Budgeting: General Knowledge:</b> This section of the exam measures skills of government financial analysts and covers the unique aspects of governmental accounting that distinguish it from private sector practices, such as service over profit and the critical role of the budget. It emphasizes the objectives of financial reporting in the public sector, the role of standard-setting bodies like GASB, FASB, FASAB, and IPSASB, and the due process for setting accounting standards. It also includes knowledge of interperiod equity, budgetary compliance, sustainability, and the characteristics of quality financial information.</li> </ul>

## AGA Examination 2: Governmental Accounting, Financial Reporting and Budgeting (GAFRB) Sample Questions (Q71-Q76):

### NEW QUESTION # 71

An independent school district completed construction on a new high school during the current fiscal year.

The amount paid to the construction manager was \$900,000 and the amount paid to the architect was

\$100,000. The entity depreciates buildings over 50 years, using the straight line, half-year depreciation method. What is the amount reported on the Statement of Activities in the current fiscal year?

- A. \$1,000,000
- B. \$9,000
- C. \$20,000
- D. \$10,000

**Answer: C**

Explanation:

The \$900,000 paid to the construction manager and \$100,000 paid to the architect are capitalized as part of the building's total cost, totaling \$1,000,000.

Using straight-line depreciation over 50 years with the half-year convention:

Annual depreciation =  $\$1,000,000 \div 50 = \$20,000$

Since the half-year convention is used in the year the asset is placed in service, only 50% of the full-year depreciation is recorded.

Depreciation for the current year =  $\$20,000 \times 0.5 = \$10,000$

However, note: since both amounts (\$900,000 + \$100,000) were paid during construction and the school was completed and placed into service this year, the full capitalized amount applies.

GASB and GAAP allow the half-year rule unless the asset was placed into service at the beginning of the year. In this case, since placed during the year, the half-year rule applies.

Correct depreciation for the first year = \$10,000

So, the correct answer is:

B). \$10,000

Correction Note: While option C (\$20,000) may seem valid for full-year depreciation, the use of the "half-year depreciation method" dictates that only half of the full-year amount is expensed in the first year.

### NEW QUESTION # 72

According to GASB, the costs of which of the following activities associated with internally generated computer software should be capitalized?

- A. training employees to use the software
- **B. testing the software for functionality and ease of use**
- C. converting extra data not needed to make the software work
- D. selecting between alternatives for the software project

**Answer: B**

Explanation:

According to GASB Statement No. 51 - Accounting and Financial Reporting for Intangible Assets, costs associated with internally generated computer software can be capitalized only during the "application development stage." Activities in this stage that are capitalizable include:

Coding

Software configuration

Testing (for functionality)

Non-capitalizable activities include:

Preliminary project planning (e.g., selecting between alternatives)

Data conversion not necessary for the software to operate

Training employees

Therefore, testing the software for functionality is an activity that should be capitalized.

C). testing the software for functionality and ease of use

### NEW QUESTION # 73

An agency operates out of a building that is on the Register of Historic Places; the building is classified as a multi-use federal asset. If the agency recently paid to renovate the office space in the building, the cost for the renovation should be treated as a

- A. mission property.
- B. stewardship investment.
- **C. general property, plant and equipment expense.**
- D. heritage asset.

**Answer: C**

Explanation:

Although the building is listed on the National Register of Historic Places (a heritage asset), renovations that support current operations and serve general purposes (e.g., office upgrades) are considered capitalizable or expensed under general property, plant, and equipment (G-PP&E), not stewardship or heritage classifications.

Stewardship or heritage classifications apply to assets whose primary purpose is historical preservation, not ongoing operations.

D). general property, plant and equipment expense

### NEW QUESTION # 74

The primary purpose of accumulating and reporting cost information is to O

- **A. provide a means for management to assess decision performance.**
- B. inform stockholders of detailed operational data.
- C. meet a SEC reporting requirement.
- D. include specific details in external financial statements.

**Answer: A**

Explanation:

The primary purpose of accumulating and reporting cost information-especially in government and nonprofit environments-is to support internal decision-making. Cost data help managers assess program efficiency, evaluate resource use, and make policy or operational decisions.

While external financial statements may incorporate summarized cost information, and stockholders and regulatory agencies may have interests in private-sector settings, the most direct and core purpose is to support management.

OMB Circular A-136 and A-11 (federal reporting objectives)

B). provide a means for management to assess decision performance

### NEW QUESTION # 75

Wasteful year-end spending may be discouraged by including which of the following in the appropriation law?

- A. delimiting contracting procedures
- B. impoundment controls
- C. multi-year appropriation authority
- D. annual appropriations

**Answer: C**

Explanation:

Comprehensive Detailed Explanation:

Year-end wasteful spending (also known as "use-it-or-lose-it" spending) often occurs because agencies rush to obligate funds before they expire at fiscal year-end. Providing multi-year appropriations reduces this pressure by allowing agencies to obligate funds over a longer period, thus promoting better planning and reducing unnecessary or rushed spending.
