## Desktop-Based Microsoft GH-100 Practice Exam Software Features

In today's rapidly changing Microsoft industry, the importance of obtaining Microsoft GH-100 certification has become increasingly evident. With the constant evolution of technology, staying competitive in the job market requires professionals to continuously upgrade their skills and knowledge. The VCEEngine is committed to completely assisting you in exam preparation with GH-100 Questions. Success in the GitHub Administration (GH-100) certification exam is crucial in the tech sector, where the stakes are high, and a single mistake can have significant consequences.

## Microsoft GitHub Administration Sample Questions (Q11-Q16):

### NEW QUESTION # 11

What do you need to successfully generate a support bundle on a GitHub Enterprise Server?

- A. Approval from GitHub Support
- **B. Administrator SSH access to the appliance**
- C. A custom GitHub Action in the root repo
- D. A GitHub App with read:org permissions

**Answer: B**

Explanation:

You must have administrator-level SSH access to the GitHub Enterprise Server appliance so you can run the ghe-support-bundle

command over SSH and capture the bundle locally.

#### NEW QUESTION # 12

What benefit does GitHub Advanced Security provide?

- A. helps enterprise administrators improve and maintain network security for their GitHub Enterprise Server instances
- B. helps organization administrators analyze and configure permissions to the least privilege required
- C. helps organization administrators manage security tokens
- **D. helps developers improve and maintain the security and quality of code**

**Answer: D**

Explanation:

GitHub Advanced Security equips developers with built-in code scanning (CodeQL), secret scanning, dependency review, and other AppSec tools - helping them find, fix, and prevent security vulnerabilities while maintaining code quality.

#### NEW QUESTION # 13

What is the potential consequence of enabling multiple rulesets that apply to the same branch in a repository?

- A. Only organization-level rulesets are enforced over repository-level ones
- B. Only the most recently created ruleset will be enforced
- **C. All applicable rulesets will be evaluated, and their combined rules enforced**
- D. Rulesets will override each other, leading to unpredictable behavior

**Answer: C**

Explanation:

If you enable multiple rulesets that target the same branch, GitHub will evaluate every matching ruleset and enforce the aggregate of their rules - so all constraints from all applicable rulesets apply.

#### NEW QUESTION # 14

Which of the following is a key benefit of setting default read permissions across organizations?

- A. Increases efficiency in content creation and updates.
- **B. Enhances security by minimizing unintended modifications.**
- C. Suits environments where all users need write access.
- D. Improves collaboration by allowing users to modify content directly.

**Answer: B**

Explanation:

Enforcing a default of Read for organization members ensures they can view content without the ability to push changes, reducing the risk of accidental or unauthorized modifications.

#### NEW QUESTION # 15

Which of the following are valid ways to pass data to a reusable workflow in a separate repository?

- **A. Define the secrets in the caller repository and call the reusable workflow using the 'secrets' keyword.**
- **B. Define inputs in the reusable workflow and pass values from the calling workflow.**
- C. Define the secrets in the reusable workflow's repository and reference the secret using the 'secrets' context.
- D. Use environment variables to pass data directly to the reusable workflow.

**Answer: A,B**

Explanation:

You declare named inputs in the reusable workflow's `on.workflow_call` block and then pass values from the caller using the `withkeyword`, allowing the called workflow to consume those parameters.

You define required secrets in the caller repository and supply them to the reusable workflow via thesecretskeyword in the workflow-call step, ensuring sensitive values are securely passed.

## NEW QUESTION # 16

.....

VCEEngine is a wonderful study platform that contains our hearty wish for you to pass the exam by our GH-100 exam materials. So our responsible behaviors are our instinct aim and tenet. By devoting in this area so many years, we are omnipotent to solve the problems about the GH-100 learning questions with stalwart confidence. we can claim that only studying our GH-100 study guide for 20 to 30 hours, then you will pass the exam for sure.

**GH-100 Reliable Test Voucher:** <https://www.vceengine.com/GH-100-vce-test-engine.html>
