Passing tests and get a certification is certainly a valid method that proves your competitions. EX-Con-101 Questions and answers is surely helpful study guide for candidates all over the world.

## Salesforce Certified Experience Cloud Consultant Sample Questions (Q141-Q146):

### NEW QUESTION # 141

Ursa Major Solar would like the navigation menu in the customer portal to be vertical.

Which two options make this possible?

Choose 2 answers

- A. Write custom code
- B. Fix the header's Position.
- C. Edit the default navigation
- D. Download an app from AppExchange

**Answer: A,D**

Explanation:

Two options that make it possible to have a vertical navigation menu in the customer portal are B and D. A navigation menu is a component that allows users to navigate through different pages and sections of your Experience Cloud site. By default, the navigation menu is horizontal, but you can change it to vertical by using different options. One option is to download an app from AppExchange, which is a marketplace where you can find and install apps, components, and solutions for your Experience Cloud site. Another option is to write custom code, which allows you to create your own custom components and layouts for your Experience Cloud site.

#### NEW QUESTION # 142

Ursa Major Solar (UMS) is automating its business processes using Salesforce. UMS wants its Platinum partners to be able to approve installation projects and deals. In which two ways can UMS accomplish this?

Choose 2 answers

- A. Add external users directly to approval queues and create a digital experience for those users.
- B. Assign external users as approvers on records and create a digital experience for those users.
- C. Assign external users as the co-owners on records and create a digital experience for those users.
- D. Assign external users Super User access on records and create a digital experience for those users.

**Answer: A,B**

Explanation:

External users can be assigned as approvers on records or added directly to approval queues, as long as they have the appropriate user license and profile permissions. You also need to create a digital experience for those users, so they can access the approval process from the Experience Cloud site.

#### NEW QUESTION # 143

A consultant is setting up an experience for a client in a new org. The client insists on using standard profiles for external users. Which step is required in order to use standard profiles in an experience?

- A. Allow using standard external profiles for self-registration, user creation, and login' must be enabled.
- B. Create a permission set with " Allow standard external profiles' check assign to all external users.
- C. Customer Community Plus Login Experience license need to be used.
- D. Ensure the standard profile have Allow using standard external profiles for self-registration, user creation, and login' set to True.

**Answer: A**

Explanation:

To use standard profiles in an experience, the step that is required is to enable the "Allow using standard external profiles for self-registration, user creation, and login" option in Setup. A profile is a collection of settings and permissions that determine what users can see and do in Experience Cloud. Standard profiles are predefined profiles that come with Salesforce and cannot be edited or deleted. To use standard profiles for external users in an experience, you need to enable the "Allow using standard external profiles for self-registration, user creation, and login" option in Setup, which gives you access to use standard profiles such as Customer Community User or Partner Community User.

#### NEW QUESTION # 144

AW Computing is using the Build Your Own (LWR) template to create a site for its customers. The site will showcase blog posts written by AW Computing thought leaders.

Which component should the site creator use to dynamically populate the site with blog posts as new ones are added?

- A. CMS Connect (JSON)

- **B. Grid component with CMS Collections**
- C. CMS - Single
- D. Grid component with list.views

**Answer: B**

Explanation:

To dynamically populate the site with blog posts as new ones are added, CK should use a Grid component with CMS Collections. A Grid component is a component that displays content in a grid layout with rows and columns. A CMS Collection is a collection of content items that are created and managed in Salesforce CMS.

CK can use a Grid component and select a CMS Collection as the content source. This will allow CK to showcase blog posts written by AW Computing thought leaders on its site and automatically update them as new ones are added.

#### **NEW QUESTION # 145**

The Cloud Kicks (CK) site administrator is onboarding a new partner to its Experience Cloud site. They have created the partner as an Account, added the required Contacts, and ensured that the Welcome Email selection is checked. However, upon review, the site administrator has found that none of the partner users were able to register.

What should the site administrator do to ensure they are able to set up partner users correctly?

- A. Ensure that the Account has been enabled as a partner Account.
- B. Double-check that the provided email addresses are correct.
- **C. Ensure that the Contacts under the Account are enabled as partner users.**
- D. Double-check that the partner profile has been added to the CK site.

**Answer: C**

Explanation:

To ensure that the partner users are able to register, the site administrator should enable the Contacts under the Account as partner users. This will allow the site administrator to assign a username, password, and profile to each Contact and send them a welcome email with a link to activate their account and log in to the site.

#### **NEW QUESTION # 146**

.....
