## Practice AVIXA CTS Questions, New CTS Test Forum

Annual test syllabus is essential to predicate the real CTS questions. So you must have a whole understanding of the test syllabus. After all, you do not know the CTS exam clearly. It must be difficult for you to prepare the CTS exam. Then our CTS Study Materials can give you some guidance for our professional experts have done all of these above matters for you by collecting the most accurate questions and answers. And you can have a easy time to study with them

## AVIXA Certified Technology Specialist Sample Questions (Q60-Q65):

### NEW QUESTION # 60

As a project manager, daily or weekly updates from the \_\_\_ are MOST USEFUL when trying to make sure a job comes in on time and on budget.

- A. consultant
- B. customer
- C. employer
- D. **installer**

### Answer: D

Explanation:

Installers are directly involved with on-site activities and provide essential updates on daily progress, issues, and requirements. Regular updates from installers enable project managers to monitor timelines, resource allocation, and budget considerations more effectively.

CTS Technology Specialist Reference CTS guidelines highlight the importance of regular communication with installers for tracking project progress, as they are most familiar with day-to-day developments and challenges.

### NEW QUESTION # 61

During a site survey, a client states that there will be no acoustical treatment to their new council chamber and they want a voice lifting (reinforcement) system. Which loudspeaker should be recommended to achieve optimal speech intelligibility?

- A. broad beam loudspeaker
- B. coaxial loudspeaker
- C. **narrow beam loudspeaker**
- D. ceiling mount loudspeaker

**Answer: C**

Explanation:

In a space with no acoustic treatment, a narrow beam loudspeaker is ideal for voice reinforcement as it can focus sound more precisely to reduce reverberation and enhance speech intelligibility. This directionality minimizes sound reflections that can degrade clarity in untreated spaces.

CTS Technology Specialist Reference

CTS materials on audio system design recommend narrow beam loudspeakers for environments with challenging acoustics to maintain intelligibility.

**NEW QUESTION # 62**

A client has a laser projector that fails and appears dead after six months' use. The documentation shows that the projector is covered by a return-to-base or back-to-bench warranty. The client can expect to:

- A. Receive on-site visit from service engineer
- B. Remove projector and replace with advanced-shipped unit
- C. Receive remote-access repair service
- D. Remove projector and ship back to manufacturer

**Answer: D**

Explanation:

A return-to-base (or back-to-bench) warranty requires the customer to send the device to the manufacturer or service center. Unlike advanced replacement or on-site service warranties, the burden is on the client to remove and ship the equipment.

"Return-to-base warranties require the customer to ship the device to the service location, often at their own cost."

- CTS Exam Guide, Warranty Types and Service Agreements

**NEW QUESTION # 63**

A 2x2 video wall was sold with each display being Full HD resolution. Now the client wants to show live content at the best possible quality over the complete wall. Which resolution must the camera provide?

- A. 1920 x 1080
- B. 7680 x 4320
- C. 4096 x 2160
- D. 3840 x 2160

**Answer: B**

Explanation:

Each display in a 2x2 video wall setup at Full HD resolution (1920 x 1080) requires a total resolution of 3840 x 2160 for two displays horizontally and 2160 x 2 vertically, which equals 7680 x 4320. This resolution ensures each display shows content at the highest quality without scaling down.

CTS References: AVIXA CTS Exam Guide, Chapter on Video Walls and Resolutions; CTS Handbook, Section on Display Technologies and Scaling.

**NEW QUESTION # 64**

Which type of contract involves ongoing support for an AV system, regardless of the age of the facility or who did the initial installation?

- A. manufacturer warranty
- B. service agreement
- C. system warranty
- D. preventive maintenance

**Answer: B**

Explanation:

A service agreement involves ongoing support for an AV system, regardless of the age of the facility or who did the initial installation.

This type of contract ensures that the AV system is maintained and serviced regularly, providing long-term support and upkeep. Axis documentation outlines service agreements as essential for ensuring the continued reliability and performance of AV systems, providing clients with peace of mind and consistent technical support.

## NEW QUESTION # 65

.....

Users are buying something online (such as CTS learning materials), always want vendors to provide a fast and convenient sourcing channel to better ensure the user's use. Because without a quick purchase process, users of our CTS learning materials will not be able to quickly start their own review program. So, our company employs many experts to design a fast sourcing channel for our CTS Learning Materials. All users can implement fast purchase and use our learning materials.
