

Oracle 1Z1-771 Pdf Questions - Outstanding Practice To your Oracle APEX Cloud Developer Professional Exam

P.S. Free & New 1Z1-771 dumps are available on Google Drive shared by PDF4Test: https://drive.google.com/open?id=1ftIVXsojFaYLw1-EhjVK2T9Gs1_O2vk

To be successful in your social life and own a high social status you must own good abilities in some area and plenty of knowledge. Passing the test 1Z1-771 exam can make you achieve those goals and prove that you are competent. Buying our 1Z1-771 practice test can help you pass the exam fluently and the learning costs you little time and energy. The questions and answers of our 1Z1-771 Test Question are chosen elaborately and to simplify the important information to make your learning relaxing and efficient.

Oracle 1Z1-771 Exam Syllabus Topics:

| Topic | Details |
|---------|--|
| Topic 1 | <ul style="list-style-type: none">Implementing Security in Your Application: This section evaluates the knowledge of Security Specialists in securing APEX applications. It covers authentication schemes, authorization controls, and session state protection to ensure application security and user access management. |
| Topic 2 | <ul style="list-style-type: none">Adding Computations, Processes, Validations, and Branches: This section measures the knowledge of Backend Developers in implementing application logic. It focuses on configuring computations, processes, validations, and page branches to automate workflows and ensure data integrity. |
| Topic 3 | <ul style="list-style-type: none">Using SQL Workshop: This section evaluates the expertise of Database Developers in managing database objects using SQL Workshop. It includes creating and modifying database structures, running SQL commands and scripts, and efficiently loading and unloading data through the Data Workshop utility to simplify database interactions. |
| Topic 4 | <ul style="list-style-type: none">Managing Pages and Regions: This section measures the knowledge of UI Designers in structuring application layouts. It covers creating different types of pages and regions, managing page components within Page Designer, and ensuring an optimized user interface for applications. |

| | |
|----------|--|
| Topic 5 | <ul style="list-style-type: none"> • Implementing Navigation in Your Application: This section assesses the skills of UX Designers in designing smooth application navigation. It includes configuring shared components, setting up search functionalities, and enhancing user experience with intuitive navigation structures. |
| Topic 6 | <ul style="list-style-type: none"> • Developing Reports: This section assesses the skills of Report Developers in creating interactive reports and dashboards. It involves customizing reports, working with faceted search pages, integrating smart filters, and designing visually appealing data presentations using Oracle APEX. |
| Topic 7 | <ul style="list-style-type: none"> • Extending Application Capabilities: This section measures the skills of APEX Developers in enhancing application functionality. It includes sending automated emails, implementing plug-ins, and utilizing automation features to improve efficiency and extend capabilities. |
| Topic 8 | <ul style="list-style-type: none"> • Creating and Using Dynamic Actions and Plug-ins: This section tests the expertise of Developers in implementing dynamic actions. It covers configuring event-driven behaviors and integrating plug-ins to create responsive and interactive application features. |
| Topic 9 | <ul style="list-style-type: none"> • Managing Application Data: This section evaluates the expertise of Data Engineers in handling application data. It covers using collections, managing REST-enabled SQL references, integrating REST Data Sources, and synchronizing data across different environments. |
| Topic 10 | <ul style="list-style-type: none"> • Creating Progressive Web Apps: This section assesses the skills of Web Developers in building Progressive Web Applications (PWAs). It includes enhancing application accessibility, implementing push notifications, and optimizing applications for seamless cross-device experiences. |
| Topic 11 | <ul style="list-style-type: none"> • Getting Started with Oracle APEX on the Oracle Autonomous Database: This section of the exam measures the skills of APEX Developers in understanding Oracle APEX and its core components. It covers the creation and management of workspaces, providing an overview of how APEX integrates with the Oracle Autonomous Database to streamline application development. |
| Topic 12 | <ul style="list-style-type: none"> • Leveraging Generative AI in Oracle APEX: This section tests the knowledge of AI Developers in integrating AI-powered features within APEX applications. It involves using APEX Assistant for code generation, creating AI-driven data models, and implementing AI-powered text generation using dynamic actions. |
| Topic 13 | <ul style="list-style-type: none"> • Adding Additional Pages to Your Application: This section assesses the skills of Application Developers in expanding application functionalities. It involves creating Oracle JET charts, calendars, trees, and maps to enhance data visualization and user interaction. |

1Z1-771 Examcollection Questions Answers - 1Z1-771 Exam Vce Format

Every mock exam session will have time limit to train you excel in managing time during your actual Prepare for your Oracle APEX Cloud Developer Professional (1Z1-771) Exam Questions. All practice questions will be just like the original 1Z1-771 Exam i.e., tricky and difficult. Those who have Windows-based computers can easily attempt the Oracle APEX Cloud Developer Professional (1Z1-771) practice exam.

Oracle APEX Cloud Developer Professional Sample Questions (Q43-Q48):

NEW QUESTION # 43

Which search type in keywords do they represent in Oracle Text?

- A. Oracle Text
- B. Standard
- C. List

Answer: A

Explanation:

In Oracle APEX, when configuring search functionality (e.g., in reports or faceted search), "Oracle Text" refers to a specific search type leveraging the Oracle Text engine. This is a powerful full-text search capability built into Oracle Database, supporting keyword-based searches, fuzzy matching, and indexing.

Standard: A basic SQL-based search (e.g., LIKE), not tied to Oracle Text.

List: Not a search type; it might refer to a UI component or LOV, not a search mechanism.

Oracle Text: Explicitly uses the CONTAINS operator and text indexes (e.g., CONTEXT or CTXCAT) for advanced search features, ideal for large datasets or complex queries.

This choice impacts performance and accuracy, especially in text-heavy applications.

NEW QUESTION # 44

Which API can be used to send Push Notifications immediately in Oracle APEX?

- A. APEX_PWA.PURGE_QUEUE
- B. APEX_PWA.HAS_PUSH_SUBSCRIPTION
- C. APEX_PWA.PUSH_QUEUE

Answer: C

Explanation:

The APEX_PWA package manages Push Notifications:

B . APEX_PWA.PUSH_QUEUE: This procedure forces immediate processing of the Push Notification queue, sending queued messages (added via APEX_PWA.SEND) to subscribed devices without waiting for the default scheduler (e.g., every 5 minutes).

Example: APEX_PWA.PUSH_QUEUE; ensures a "Meeting now!" alert goes out instantly.

A . APEX_PWA.HAS_PUSH_SUBSCRIPTION: Checks if a user has an active subscription (returns BOOLEAN), not for sending.

C . APEX_PWA.PURGE_QUEUE: Clears the queue, discarding unsent messages, not sending them.

Technical Insight: PUSH_QUEUE triggers a job to contact the push service (e.g., Firebase), using VAPID keys from the PWA configuration.

Use Case: Urgent alerts (e.g., system outage) need immediate delivery, bypassing delays.

Pitfall: Overuse can strain the server; use judiciously for time-sensitive messages.

NEW QUESTION # 45

Which two are valid evaluation points for Authorization Schemes?

- A. Once per session
- B. Once per user
- C. Never
- D. Once per page view

Answer: A,D

Explanation:

Authorization Schemes in APEX can be evaluated at:

Once per page view: Checks authorization each time a page is rendered.

Once per session: Checks once per user session, caching the result.

Once per user and Never are not valid evaluation points in the Authorization Scheme settings.

NEW QUESTION # 46

Which is NOT an available Geometry Column data type for the map region?

- A. JSON OBJECT
- B. Latitude/Longitude
- C. GeoJSON
- D. SDO_Geometry

Answer: A

Explanation:

The Map Region in APEX supports spatial data via:

GeoJSON: A JSON-based standard for geographic data (e.g., points, polygons).

SDO_Geometry: Oracle's native spatial data type for storing geometry (e.g., SDO_Geometry(2001, 4326, SDO_Point_Type(-122, 37, NULL), NULL, NULL)).

Latitude/Longitude: Separate columns for lat/long coordinates, mapped to points.

JSON OBJECT: Not a supported geometry type; while JSON can store data, it's not a specific spatial format recognized by the Map Region without GeoJSON structure.

This ensures compatibility with Oracle Spatial and common GIS standards.

NEW QUESTION # 47

You need to ensure that "How may I help you today?" is the first message displayed by the AI assistant. Which attribute of the Show AI Assistant Dynamic Action should be configured in the Property Editor to achieve this?

- A. Initial Prompt
- B. AI Assistant Name
- C. Welcome Message

Answer: C

Explanation:

The Show AI Assistant Dynamic Action in Oracle APEX triggers the display of the AI Assistant interface. To customize the first message users see:

Welcome Message: This attribute in the Property Editor defines the initial text displayed when the AI Assistant appears. Setting it to "How may I help you today?" ensures this exact phrase greets users, enhancing user experience by setting a friendly tone. It's a static, developer-defined string distinct from AI-generated responses.

Initial Prompt: This attribute defines the starting input or context sent to the AI model, not the visible message shown to users. It's typically hidden and used to guide the AI's behavior (e.g., "Act as a support agent").

AI Assistant Name: This sets the assistant's identity (e.g., "Alex"), displayed in the UI, but it's not the greeting message.

This configuration is critical for branding or guiding user interaction from the outset, and it's adjustable per dynamic action instance, offering flexibility across pages.

NEW QUESTION # 48

.....

Our 1Z1-771 exam torrent is highly regarded in the market of this field and come with high recommendation. Choosing our 1Z1-771 exam guide will be a very promising start for you to begin your exam preparation because our 1Z1-771 practice materials with high repute. Our 1Z1-771 exam torrent is well reviewed in content made by the processional experts. They will instruct you on efficient points of knowledge to get familiar and remember high-effective. Besides, our 1Z1-771 study tools galvanize exam candidates into taking actions efficiently. We are sure you will be splendid and get your desirable outcomes by our 1Z1-771 exam guide. If your mind has made up then our 1Z1-771 study tools will not let you down.
