Perhaps you have wasted a lot of time to playing computer games. It doesn't matter. It is never too late to change. There is no point in regretting for the past. Our SAFe-Practitioner exam questions can help you compensate for the mistakes you have made in the past. You will change a lot after learning our SAFe-Practitioner Study Materials. And most of all, you will get reward by our SAFe-Practitioner training engine in the least time with little effort.

The SAFe 5 Practitioner Exam is the second level in the SAFe certification path. It covers the SAFe® 5.0 Framework and the role of SAFe Practitioners in its implementation. SAFe-Practitioner Exam takers must have prior SAFe experience, Scrum experience, and should be familiar with Agile methodologies. SAFe 5 Practitioner Exam certification is a prerequisite for higher-level SAFe certifications such as SAFe-Advanced Scrum Master (SASM) or SAFe-Release Train Engineer (RTE).

Exam SAFe-Practitioner Dumps, SAFe-Practitioner Exam Quiz

Candidates can reach out to the Itcertking support staff anytime. The Itcertking help desk is the place to go if you have any questions or problems. Time management is crucial to passing the Scrum SAFe-Practitioner exam. Candidates may prepare for the Scrum SAFe-Practitioner Exam with the help of Itcertking desktop-based SAFe-Practitioner practice exam software, web-based SAFe-Practitioner practice tests and Scrum SAFe-Practitioner pdf questions.

The SAFe-Practitioner (SAFe 5 Practitioner (SP)) Certification exam validates the experience and skills of candidates to lead and manage successful Agile transformations. Candidates can expect to be recognized in the Agile community as a leader who can drive change and improve organization-wide agility. SAFe Practitioner Exam (6.0) certification exam is rigorous, and it sets the bar high for Agile expertise, differentiating individuals with practical, functional knowledge in Agile from those who lack certification. The SAFe-Practitioner (SAFe 5 Practitioner (SP)) Certification is ideal for those who wish to advance their career in Agile development and who want to gain a competitive edge in the market.

The SAFe 5 Practitioner certification is recognized globally, and individuals who hold this certification are highly sought after by organizations looking to implement agile practices using the SAFe framework. SAFe Practitioner Exam (6.0) certification program is a valuable investment for individuals looking to advance their career in the agile space, and it opens up a world of opportunities for individuals to work with leading organizations across various industries.

Scrum SAFe Practitioner Exam (6.0) Sample Questions (Q210-Q215):

NEW QUESTION # 210

The Agile Manifesto consists of 4 values and how many principles?

- A. five
- B. ten
- C. seven
- D. twelve

Answer: D

NEW QUESTION # 211

What is the primary purpose of the ART Planning Board?

- A. To show sizing of the Epics in relation to each other
- B. To show dependencies between teams relating to the Feature development
- C. To show Feature priority in association with business value
- D. To satisfy System Demo expectation by demonstrating incremental delivery

Answer: B

Explanation:

The ART Planning Board, also known as the Program Board, is a visualization of the PI's feature delivery dates, feature dependencies among teams, and relevant milestones. The primary purpose of the ART Planning Board is to show dependencies between teams relating to the Feature development, so that they can be identified, managed, and resolved during PI Planning and execution. The ART Planning Board also helps align teams and stakeholders to a shared mission and vision, and provides transparency and visibility into the ART's progress and risks. References: ART Planning Board, PI Planning, Exam Study Guide: SP (6.0) - SAFe Practitioner

NEW QUESTION # 212

According to the Agile Manifesto, the highest priority is to satisfy the customer through early and continuous delivery of _____ software.

- A. cheap
- B. Working
- C. valuable
- D. optimal

Answer: C

NEW QUESTION # 213

How does SAFe recommend using a second operating system to deliver value?

- A. Reorganize the hierarchies around the flow of value

- B. Decide whether to apply a hierarchical or Value Stream organizational model across the Enterprise
- C. Build a small entrepreneurial network focused on the Customer in place of existing hierarchies
- **D. Organize development around the flow of value while maintaining the hierarchies**

Answer: D

Explanation:

SAFe recommends using a second operating system to deliver value by creating a dual operating system that consists of a Network and a Hierarchy. The Network is optimized for speed and adaptability, while the Hierarchy is optimized for efficiency and stability. The Network is composed of development value streams (DVSs) that are realized by product-focused Agile Release Trains (ARTs). The ARTs are cross-functional teams that work together to deliver software products on a regular schedule. The Hierarchy provides the necessary support and governance for the Network, such as operations, HR, finance, and compliance. By using a second operating system, SAFe enables business agility by allowing the organization to organize and reorganize around the flow of value, while maintaining the benefits and stability of the existing hierarchical structure. NEW QUESTION # 214

What does the S in the SMART model for PI Objectives stand for?

- A. Secondary
- B. Special
- **C. Specific**
- D. Solid

Answer: C

NEW QUESTION # 215
