So do not hesitate and buy our MB-700 study torrent, we believe it will give you a surprise, and it will not be a dream for you to pass your Microsoft Dynamics 365: Finance and Operations Apps Solution Architect exam and get your certification in the shortest time.

Exam Overview

The Microsoft MB-700: Microsoft Dynamics 365: Finance & Operations Apps Solution Architect exam measures the skills of the candidates in identifying the solution prerequisites, defining solution testing & management strategies, and designing solution components. The applicants have to pay the fee of \$165 to register for the test and schedule it with Pearson VUE. The exam is available in the English language only. The students can expect around 40-60 questions in their delivery of the test that are to be completed within the allocated exam duration of 120 minutes.

The MB-700 exam is a challenging exam that requires a deep understanding of the Dynamics 365: Finance and Operations platform. MB-700 Exam consists of multiple-choice questions that cover various topics such as designing solutions, configuring core finance and operations, managing security, and optimising performance. Candidates will also be expected to demonstrate their knowledge of best practices for implementing and customising Dynamics 365 solutions.

Designing Solution Infrastructure

- Selecting a Cloud-based or on-premises implementation.
- Defining the performance requirements.
- Identifying the required infrastructure elements, services, features, and apps.

High Hit Rate MB-700 Study Group - Pass MB-700 Exam

When we are in some kind of learning web site, often feel dazzling, because web page appear too desultory. Absorbing the lessons

of the MB-700 test prep, will be all kinds of qualification examination classify layout, at the same time on the front page of the MB-700 test materials have clear test module classification, so clear page design greatly convenient for the users, can let users in a very short period of time to find what they want to study, and then targeted to study. Saving the precious time of users, also makes the MB-700 Quiz torrent look more rich.

Microsoft Dynamics 365: Finance and Operations Apps Solution Architect Sample Questions (Q93-Q98):

NEW QUESTION # 93

A company is implementing Dynamics 365 Supply Chain Management. The company has 11 legal entities. Each entity uses a separate enterprise resource planning (ERP) system. A customer may have a unique customer number in each system because the systems are disconnected. One of the customer numbers will be used as the master number in Dynamics 365.

The company plans to add entities to Supply Chain Management over time. Customer records will continue to be added to the ERP systems throughout the implementation lifecycle and must be kept up to date. The ERP systems will be decommissioned after go-live.

You need to create a strategy to migrate the customer data and ensure that new records are automatically mapped.

Which solution should you implement for each requirement? To answer, drag the appropriate solutions to the correct requirements. Each solution may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

NEW QUESTION # 97

A company implements Dynamics 365 Commerce. The company has 200 retail stores. The company has a retail store custom solution and a third-party e-commerce solution. Dynamics 365 Commerce will replace the custom retail point of sale (POS) solution. Dynamics 365 Commerce must integrate with the company's third-party e-commerce solution. The third-party e-commerce solution must meet the following requirements:

* Integrate with Microsoft Dynamics 365 for in-store order pickups.

* Store orders in XML file format.

* Send the XML order files to an FTP file location.

Dynamics 365 Commerce must meet the following requirements:

* Serve as the inventory system of record.

* Serve as the retail sales and financial system of record.

* Provide point-of-sale (POS) capabilities in store.

* Provide the ability for e-commerce customers to pick up orders in store.

* Update the status of the sales order to prevent it from being fulfilled multiple times.

The custom retail POS solution must meet the following requirements:

* Import retail transactions from all stores into Dynamics 365 Commerce.

* Produce a single pipe-delimited file of all daily sales transactions by store.

* Continue to operate for six months before it is deprecated.

You need to create data integrations for the business processes.

Which integration patterns should you use? To answer, drag the appropriate patterns to the correct requirements. Each pattern may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.
