Answer: D

NEW QUESTION # 27

A business analyst is creating an app for the sales team.

The app must meet several requirements:

Compare 10 top-performing sales representatives and the amount of sales for each

Investigate margin percentage and total sales by each product category

View distribution of sales amount

Which visualizations should be used for this app?

- A. A treemap container and distribution plot
- B. A bar chart, line chart, and scatter plot
- **C. A bar chart, scatter plot, and histogram**
- D. A treemap box plot, and histogram

Answer: C

NEW QUESTION # 28

A marketing team is using an app to analyze the company events. The team registers attendees with information such as an ID name and region and discusses business opportunities with attendees. Opportunities are evaluated in time and set to a different status.

The team wants to use Insight Advisor to query events and opportunities to:

Review specific areas and periods

Use marketing terms not currently present in the app when classifying opportunities

Define calendar periods and add calculations for specific data fields

Some examples are as follows:

Business term	Comments
Fiscal year	The year starting from April this year to the next year
Iberia region	All cities in Spain and Portugal
Death Opp	Opportunities within any of these Statuses: Not successful, Missed, or Not responded
People	Perform a calculation that counts the distinct number of Attendances

Which process should the business analyst follow?

- A. Create master dimensions and measures, including calendar measures to define fiscal periods Use tags to improve the insight Advisor search features and include vocabulary terms
- **B. Update the data set using data manager or data load editor to include these terms as flags or values in the data set Also define the variable to determine which calculation should be used for each field**
- C. Define the business logic and vocabulary to define values using the fields in the data set Create groups and set properties in fields Use Calendar groups to define custom periods
- D. Add tags into the data fields to improve how the Insight Advisor identifies the fields when using the natural language queries Use the Selection tool to remove any tags not needed for the search results

Answer: B
