1Z0-771 Actual Dumps, Dumps 1Z0-771 Guide

BraindumpsIT Oracle Certification Exam comes in three different formats so that the users can choose their desired design and prepare Oracle 1Z0-771 exam according to their needs. The first we will discuss here is the PDF file of real Oracle 1Z0-771 Exam Questions. It can be taken to any place via laptops, tablets, and smartphones.

Oracle APEX Cloud Developer Professional Sample Questions (Q11-Q16):

NEW QUESTION # 11

Which is a valid method of logging messages to the execution log in APEX applications?

- A. `apex_debug.info ('SAL for :ENAME ||' increased by 19.);`
- B. `apex_error.add_error ('SAL for ' || :ENAME || ' increased by 19.);`
- C. `apex_automation.log_info ('SAL for ' || :ENAME || ' increased by 19.);`

Answer: C

Explanation:

Logging in APEX tracks runtime activity:

A . `apex_automation.log_info`: Correctly logs an informational message to the execution log for automation tasks (e.g., workflows). The syntax `|| :ENAME ||` concatenates the item value (e.g., "JOHN") into "SAL for JOHN increased by 19." It's stored in `APEX_AUTOMATION_LOG`, viewable in Monitoring.

B . `apex_debug.info`: Logs to debug output, but the syntax is flawed (`:ENAME ||` isn't concatenated properly; should be `'SAL for ' || :ENAME || ...`). It's valid only when debugging is enabled (e.g., `APEX_DEBUG.ENABLE`).

C . `apex_error.add_error`: Adds an error to the error stack for user display, not a log message.

Technical Insight: `log_info` is non-intrusive, unlike `apex_debug`, which requires debug mode, or `apex_error`, which signals failure.

Use Case: Logging salary updates in a scheduled job without debug overhead.

Pitfall: Ensure `:ENAME` is in scope (e.g., page item).

NEW QUESTION # 12

Which two statements are true about creating and managing an APEX Workspace?

- A. During workspace creation, you can associate the workspace with an existing database schema.
- B. New schemas cannot be created during workspace creation.
- C. A workspace can be associated with only one schema.
- D. You can create only two workspaces in an APEX Service (APEX Application Development) instance.

Answer: A,B

Explanation:

APEX Workspaces define development environments tied to database schemas:

A . During workspace creation, you can associate the workspace with an existing database schema: In the Workspace creation wizard (via Instance Administration), you select an existing schema (e.g., "HR") to link, enabling access to its objects. This is a standard step, ensuring immediate usability.

B . New schemas cannot be created during workspace creation: APEX doesn't provide a UI to create schemas here; schemas must pre-exist in the database, created via SQL (e.g., `CREATE USER`).

C . A workspace can be associated with only one schema: False; a workspace can associate with multiple schemas post-creation via "Manage Workspace to Schema Assignments." D . You can create only two workspaces: False; the limit depends on the APEX instance configuration (e.g., cloud service tier), not a fixed number like two.

Use case: Associating existing schemas is key for leveraging pre-built databases.

NEW QUESTION # 13

Which two statements are true about faceted search pages?

- A. Faceted Search supports the ability to filter columns storing multiple values.
- B. Facets map to specific database columns.
- C. A facet's chart can be seen only in a nonmodal dialog.
- D. Multiple charts are not visible in the same region.

Answer: A,B

Explanation:

Faceted search pages in APEX provide dynamic filtering. The true statements are:

Faceted Search supports the ability to filter columns storing multiple values: Facets can handle multi-value columns (e.g., comma-separated lists or JSON arrays) using appropriate SQL (e.g., `INSTR` or `JSON_TABLE`), enabling complex filtering scenarios like tags or categories.

Facets map to specific database columns: Each facet is tied to a column in the underlying query (e.g., `DEPTNO` or `JOB`), ensuring

data-driven filtering.

Multiple charts are not visible in the same region: False; multiple facets can display charts within the same region, depending on settings.

A facet's chart can be seen only in a nonmodal dialog: False; charts can appear inline or in dialogs, configurable via facet attributes. This functionality makes faceted search ideal for exploratory data analysis.

NEW QUESTION # 14

Which two declarative options in Oracle APEX allow you to download BLOB/CLOB content?

- A. Download Page Process
- B. APEX_UTIL.DOWNLOAD PL/SQL API
- C. Download Dynamic Action
- D. Share Dynamic Action

Answer: A,C

Explanation:

Declarative options for downloading BLOB/CLOB content include:

Download Dynamic Action: A built-in action type to trigger downloads of BLOB/CLOB data.

Download Page Process: A process type that declaratively handles BLOB/CLOB downloads from a table.

APEX_UTIL.DOWNLOAD is a PL/SQL API, not a declarative option, and Share Dynamic Action is for sharing URLs, not downloading files.

NEW QUESTION # 15

Which statement is true about Theme Styles in Oracle APEX?

- A. Theme Styles control the layout of a webpage.
- B. When the Is Public attribute is enabled, end users can choose the Theme Style from the runtime environment.
- C. The "Is Current" attribute of a Theme Style depends on the "Read Only" attribute.

Answer: B

Explanation:

Theme Styles define visual aspects (e.g., colors, fonts) in APEX:

B . When the Is Public attribute is enabled: Setting "Is Public" to "Yes" allows end users to select from available Theme Styles at runtime (e.g., via a UI switcher), enhancing customization.

A . Control the layout: False; layout is managed by templates and regions, not Theme Styles, which focus on aesthetics.

C . "Is Current" depends on "Read Only": False; "Is Current" marks the active style, independent of "Read Only" (which locks editing).

Practical note: Public styles require multiple defined styles in Shared Components.

NEW QUESTION # 16

.....

We can claim that the quality of our 1Z0-771 exam questions is the best and we are famous as a brand in the market for some advantages. Firstly, the content of our 1Z0-771 study materials is approved by the most distinguished professionals who are devoting themselves in the field for years. Secondly, our 1Z0-771 preparation braindumps are revised and updated by our experts on regular basis. With these brilliant features our 1Z0-771 learning engine is rated as the most worthwhile, informative and high-effective.
