It is a truism that an internationally recognized CCAAK certification can totally mean you have a good command of the knowledge in certain areas and showcase your capacity to a considerable extend. If you are overwhelmed by workload heavily and cannot take a breath from it, why not choose our CCAAK Preparation torrent? We are specialized in providing our customers with the most reliable and accurate exam materials and help them pass their exams by achieve their satisfied scores. With our CCAAK practice materials, your exam will be a piece of cake.

We value every customer who purchases our CCAAK test material and we hope to continue our cooperation with you. Our CCAAK test questions are constantly being updated and improved so that you can get the information you need and get a better experience. The services provided by our CCAAK test questions are quite specific and comprehensive. First of all, our test material comes from many experts. The gold content of the materials is very high, and the updating speed is fast. By our CCAAK Exam Prep, you can find the most suitable information according to your own learning needs at any time, and make adjustments and perfect them at any time.

Confluent CCAAK Exam Dumps - Printable CCAAK PDF

Three versions of CCAAK exam guide are available on our test platform, including PDF version, PC version and APP online version. As a consequence, you are able to study the online test engine of study materials by your cellphone or computer, and you can even study CCAAK actual exam at your home, company or on the subway whether you are a rookie or a veteran, you can make full use of your fragmentation time in a highly-efficient way. At the same time , we can guarantee that our CCAAK practice

materials are revised by many experts who can help you pass the CCAAK exam

Confluent Certified Administrator for Apache Kafka Sample Questions (Q42-Q47):

NEW QUESTION # 42

A broker in the Kafka cluster is currently acting as the Controller.

Which statement is correct?

- A. It is responsible for sending leader information to all producers.
- B. It can have topic partitions.
- C. All consumers are allowed to fetch messages only from this server.
- D. It is given precedence for replication to and from replica followers.

Answer: B

Explanation:

The Controller broker is a regular broker that also takes on additional responsibilities for managing cluster metadata, such as leader elections and partition assignments. It still hosts topic partitions and participates in replication like any other broker.

NEW QUESTION # 43

A Kafka cluster with three brokers has a topic with 10 partitions and a replication factor set to three. Each partition stores 25 GB data per day and data retention is set to 24 hours.

How much storage will be consumed by the topic on each broker?

- A. 75 GB
- B. 250 GB
- C. 300 GB
- D. 750 GB

Answer: C

Explanation:

$10 \text{ partitions} \times 25 \text{ GB/day} = 250 \text{ GB total per day for the topic (primary data).}$

With a replication factor of 3, there are 3 full copies of the data: $250 \text{ GB} \times 3 = 750 \text{ GB total across the entire cluster.}$

The cluster has 3 brokers, and Kafka tries to distribute replicas evenly among them: $750 \text{ GB} \div 3 \text{ brokers} = 250 \text{ GB per broker on average.}$

However, due to replication, some partitions have leaders and followers, so there's some overlap and not-perfect distribution. Each broker stores approximately 2/3 of the total topic data (since each broker holds replicas for around 2/3 of the partitions).

$2/3 \times 750 \text{ GB} = 500 \text{ GB}$, but this is shared, so each broker ends up storing ~300 GB of replicated data, including its share of leaders and followers.

NEW QUESTION # 44

Multiple clients are sharing a Kafka cluster.

As an administrator, how would you ensure that Kafka resources are distributed fairly to all clients?

- A. Rebalancing
- B. Quotas
- C. ACLs
- D. Consumer Groups

Answer: B

Explanation:

Kafka quotas allow administrators to control and limit the rate of data production and consumption per client (producer/consumer), ensuring fair use of broker resources among multiple clients.

NEW QUESTION # 45

What is the correct permission check sequence for Kafka ACLs?
What is the correct permission check sequence for Kafka ACLs?

- A. Super Users -> Allow ACL -> Deny ACL -> Deny
- B. Allow ACL -> Deny ACL -> Super Users -> Deny
- C. Super Users -> Deny ACL -> Allow ACL -> Deny
- D. Deny ACL -> Deny -> Allow ACL -> Super Users

Answer: A

Explanation:

Kafka checks permissions in the following sequence:

1. Super Users: If the user is a super user (defined via `super.users`), access is granted immediately.
2. Allow ACL: If there is a matching Allow ACL, Kafka proceeds to the next step.
3. Deny ACL: If there is a matching Deny ACL, access is denied (even if an Allow exists).
4. Deny: If no matching ACLs are found, access is denied by default.

This order ensures that super users bypass ACLs, denials override allows, and default is deny.

NEW QUESTION # 46

Which use cases would benefit most from continuous event stream processing? (Choose three.)

- A. Fraud detection
- B. End-of-day financial settlement processing
- C. Log monitoring/application fault detection
- D. Context-aware product recommendations for e-commerce
- E. Historical dashboards

Answer: A,C,D

Explanation:

Real-time analysis of transactions helps detect suspicious activity instantly.

Context-aware product recommendations for e-commerce requires real-time user behavior tracking to serve personalized recommendations.

Log monitoring/application fault detection needs immediate processing to alert on system issues or failures.

NEW QUESTION # 47

.....

A lot of people have given up when they are preparing for the CCAAK exam. However, we need to realize that the genius only means hard-working all one's life. It means that if you do not persist in preparing for the CCAAK exam, you are doomed to failure. So it is of great importance for a lot of people who want to pass the exam and get the related certification to stick to studying and keep an optimistic mind. According to the survey from our company, the experts and professors from our company have designed and compiled the best CCAAK cram guide in the global market.
