JN0-336 Valid Exam Answers & JN0-336 Valid Mock Exam

In order to pass the exam and fight for a brighter future, these people who want to change themselves need to put their ingenuity and can do spirit to work. More importantly, it is necessary for these people to choose the convenient and helpful JN0-336 test questions as their study tool in the next time. Because their time is not enough to prepare for the exam, and a lot of people have difficulty in preparing for the exam, so many people who want to pass the JN0-336 exam and get the related certification in a short time have to pay more attention to the study materials. In addition, best practice indicates that people who have passed the JN0-336 Exam would not pass the exam without the help of the JN0-336 reference guide. So the study materials will be very important for all people. If you also want to pass the exam and get the related certification in a short, the good study materials are the best choice for you. Now we are going to make an introduction about the JN0-336 exam prep from our company for you.

Juniper Security, Specialist (JNCIS-SEC) Sample Questions (Q18-Q23):

NEW QUESTION # 18

Exhibit

Exhibit

```
user@srx> show security policies
Default policy: deny-all
Default policy log Profile ID: 0
Pre ID default policy: permit-all
From zone: Trust, To zone: Untrust
  Policy: BlockUbuntu, State: enabled, Index: 4, Scope Policy: 0, Sequence
  number: 1, Log Profile ID: 0
    Source vrf group: any
    Destination vrf group: any
    Source addresses: any
    Destination addresses: any
    Applications: junos-defaults
    Dynamic Applications: junos:UBUNTU
    Source identity feeds: any
    Destination identity feeds: any
    Action: deny
  Policy: AllowWeb, State: enabled, Index: 9, Scope Policy: 0, Sequence
  number: 2, Log Profile ID: 0
    Source vrf group: any
    Destination vrf group: any
    Source addresses: any
    Destination addresses: any
    Applications: junos-http, junos-https, junos-dns-udp
    Source identity feeds: any
    Destination identity feeds: any
    Action: permit
user@srx>
```

You are asked to ensure that servers running the Ubuntu OS will not be able to update automatically by blocking their access at the SRX firewall. You have configured a unified security policy named Blockubuntu, but it is not blocking the updates to the OS. Referring to the exhibit which statement will block the Ubuntu OS updates?

- A. Change the default policy to permit-all.
- B. Move the Blockubuntu policy after the Allowweb policy.
- **C. Configure the Blockubuntu policy with the junos-https application parameter.**
- D. Configure the Allowweb policy to have a dynamic application of any.

Answer: C

NEW QUESTION # 19

While working on an SRX firewall, you execute the show security policies policy-name <name> detail command. Which function does this command accomplish?

- **A. It shows policy counters for a configured policy.**
- B. It identifies the different custom policies enabled.
- C. It shows the system log files for the local SRX Series device.
- D. It displays details about the default security policy.

Answer: A

Explanation:

The function that the show security policies policy-name <name> detail command accomplishes is showing policy counters for a configured policy. Policy counters are statistics that indicate how many times a policy has been matched by traffic and what actions have been taken by the policy. Policy counters can help you monitor and troubleshoot the performance and effectiveness of your security policies. The show security policies policy-name <name> detail command displays detailed information about a specific policy, such as its source zone, destination zone, description, state, hit count, byte count, packet count, action count, and session count.

NEW QUESTION # 20

Exhibit

A terminal window titled 'Exhibit' showing a Juniper Networks SRX device's configuration. The command 'show services user-identification authentication-table authentication-source identity-management extensive' is run. The output details a single user entry for 'nancy' from the 'JIMS - Active Directory' source. The user is part of the 'posture-healthy, administrators, users, domain admins, domain users, executives' group. The entry is valid, with an access start date of 2022-05-28 and an access start time of 21:53:52. The last update timestamp is 2022-05-29 10:43:44, and the age time is 46.

```
user@srx> show services user-identification authentication-table authentication-source identity-management extensive
Logical System: root-logical-system
Domain: juniper.net
Total entries: 1
  Source-ip: 172.25.11.140
    Username: nancy
    Groups:posture-healthy, administrators, users, domain admins, domain users, executives
    State: Valid
    Source: JIMS - Active Directory
    Access start date: 2022-05-28
    Access start time: 21:53:52
    Last updated timestamp: 2022-05-29 10:43:44
    Age time: 46
```

Referring to the exhibit, which two statements are true? (Choose two.)

- A. Nancy is a member of the Active Directory sales group.
- B. Nancy logged in to the juniper.net Active Directory domain.
- C. The IP address of the authenticating domain controller is 172.25.11.140.
- D. The IP address of Nancy's client PC is 172.25.11.

Answer: B,C

NEW QUESTION # 21

Which two statements are true about Juniper ATP Cloud? (Choose two.)

- A. Juniper ATP Cloud only uses one antivirus software package to analyze files.
- B. Juniper ATP Cloud does not use antivirus software packages to protect against zero-day threats.
- C. Juniper ATP Cloud uses antivirus software packages to protect against zero-day threats.
- D. Juniper ATP Cloud uses multiple antivirus software packages to analyze files.

Answer: B,D

Explanation:

Two statements that are true about Juniper ATP Cloud are:

Juniper ATP Cloud uses multiple antivirus software packages to analyze files: Juniper ATP Cloud is a cloud-based service that provides advanced threat prevention and detection for your network. It integrates with SRX Series firewalls and MX Series routers to analyze files and network traffic for signs of malicious activity. Juniper ATP Cloud uses multiple antivirus software packages from different vendors to scan files for known malware signatures and provide a comprehensive verdict based on their results.

Juniper ATP Cloud does not use antivirus software packages to protect against zero-day threats: Juniper ATP Cloud protects against zero-day threats by using dynamic analysis, not antivirus software packages.

Dynamic analysis is a method of executing files in a sandbox environment and observing their behavior and network interactions.

Dynamic analysis can uncover unknown malware that may evade static analysis or signature-based detection methods.

NEW QUESTION # 22

Exhibit

actual4cert.com

```
user@SRX# show security policies
pre-id-default-policy {
log {
    session-init;
}
then {
    session-timeout {
        tcp 30;
        udp 30;
        others 300;
    }
}
}
```

Which two statements are correct about the configuration shown in the exhibit? (Choose two.)

- A. The others 300 parameter means unidentified traffic flows will be dropped in 300 milliseconds.
- B. Every session that enters the SRX Series device will generate an event
- C. Replacing the session-init parameter with session-lose will log unidentified flows.
- D. The session-class parameter is only used when troubleshooting.

Answer: B,C

Explanation:

The log session-init; command within the policy configuration specifies that an event log entry will be created every time a session is initialized, meaning each new session will generate a log event. This is useful for tracking and analyzing the traffic flows entering the device.

Changing session-init to session-close in the log statement would mean that the device logs sessions when they close instead of when they open. This setting is typically used to log details about the session upon termination, which can help in analyzing the duration, end status, and other parameters of sessions, including those of unidentified flows.

NEW QUESTION # 23

.....

Everybody knows that Juniper is an influential company with high-end products and best-quality service. It will be a long and tough way to pass JN0-336 exam test, especially for people who have no time to prepare the JN0-336 Questions and answers. So choosing right JN0-336 dumps torrent is very necessary and important for people who want to pass test at first attempt.
