NEW QUESTION # 106
Cloud Kicks wants to allow site users to tag site content with custom tags or member-created topics.
Which two permissions must be enabled for site users in Setup to accomplish this?
Choose 2 answers

- A. Tags Allowed
- B. Assign Topics
- C. Create Topics
- D. Member Can Access Topics

Answer: C,D

Explanation:
To allow site users to tag site content with custom tags or member-created topics, you need to enable two permissions for site users in Setup:
* Create Topics. This permission allows users to create new topics and assign them to content, such as posts, files, or articles. Users can also edit or delete the topics they created.
* Member Can Access Topics. This permission allows users to access the topic management features on the site, such as viewing, following, or unfollowing topics. Users can also see the topics assigned to content and filter content by topics.

NEW QUESTION # 107
Cloud Kicks (CK) wants to create a public site to recruit potential volunteers. Volunteenng events are stored in a custom VolunteeringEvent object.
How can CK give guest users access to a custom object?

- A. Through guest user organization-wide defaults (OWD)
- B. Through guest user Sharing Sets
- C. Through guest userSharing Rules
- D. Through guest user roles

Answer: A

Explanation:
To give guest users access to a custom object, CK can use guest user organization-wide defaults (OWD).
OWD are a feature that allows you to set the default level of access that guest users have to records of a custom object. You can use OWD to grant Read Only or Read/Write access to guest users for a custom object.
For example, CK can use OWD to give guest users Read Only access to the VolunteeringEvent object.

- D. The Partner user who created the case, their peers in the Partner user role, those in the Partner manager role above them, those in the Partner user role in the partner account, and those in the partner Manager role in the parent account.

Answer: D

Explanation:
The members that will be able to see the Rich Content Editor component are those that are part of both the New York City

audience and the Legal Department audience. Audience targeting is a feature that allows you to display pages and components to certain users based on their assigned audience. An audience is a group of users who share common attributes, such as profile, location, or language. When you assign an audience to a page or a component, only the users who belong to that audience can see it. If you assign multiple audiences to a page or a component, only the users who belong to all of those audiences can see it.

NEW QUESTION # 109
A consultant needs to leverage ExperienceBundle for a deployment but is unable to view it.
