Salesforce Certified Heroku Architect Sample Questions (Q53-Q58):

NEW QUESTION # 53

Which Heroku runtimes provide keystroke logging?

- A. The Common Runtime, Private Spaces, and Shield Private Spaces
- B. Keystroke logging is not available on Heroku
- C. Private Spaces and Shield Private Spaces
- D. Shield Private Spaces only

Answer: C

NEW QUESTION # 54

Callouts from Salesforce to Heroku can be made using:

- A. Apex triggers or outbound messages
- B. Web sockets
- C. Message bus
- D. Corba

Answer: A

NEW QUESTION # 55

A client wants to use Heroku Connect to sync data from a Heroku Postgres table to a Salesforce org. The client only needs to sync a specific subset of the rows in the table.

How should this be performed?

- A. Filter the data in the database, and provide an alternative table or view for use in the sync.
- B. Use the Heroku Connect Mapping Query Editor, and add filters to the query.
- C. Add a mapping filter to the table when setting up the sync, and select appropriate criteria from the list.
- D. Place Sharing Rules on the records, and restrict visibility to only those rows that are needed.

Answer: D

Explanation:

NEW QUESTION # 56

Universal Containers (UC) recently acquired another company, International Shipping. Each company has its own Salesforce org, and UC wants those orgs to remain separate for the foreseeable future. Given this scenario, which Heroku feature should an Architect recommend to provide additional value to UC following the acquisition?

- A. A Heroku Postgres database can sync data from both orgs for advanced querying capabilities.
- B. Heroku External Objects can expose read-only data from both Salesforce orgs to Heroku Postgres.
- C. Heroku Connect can be used to synchronize data directly between the two Salesforce orgs.
- D. Both orgs can be attached to the same Heroku application as an add-on to ensure data residency in the application's region.

Answer: C

NEW QUESTION # 57

A client wants to create a secure network connection between Heroku applications running in a Private Space and an AWS VPC. Which Heroku feature should an Architect recommend to create the connection?

- A. Private Space VPN connections
- B. Internal Routing
- C. Private Space Peering
- D. Heroku Connect

Answer: A

NEW QUESTION # 58

.....
