Updated EXIN CDCS: Reliable EXIN EPI Certified Data Centre Specialist Dumps Book - Accurate Dumpkiller Unlimited CDCS Exam Practice

DOWNLOAD the newest Dumpkiller CDCS PDF dumps from Cloud Storage for free: https://drive.google.com/open?id=1H4z_DdNsSlquO27wW-GXV5iMrstUk8gW

Our CDCS practice materials made them enlightened and motivated to pass the exam within one week, which is true that someone did it always. The number is real proving of our CDCS exam questions rather than spurious made-up lies. And you can also see the comments on the website to see how our loyal customers felt about our CDCS training guide. They all highly praised our CDCS learning prep and got their certification. So will you!

First and foremost, we have high class operation system so we can assure you that you can start to prepare for the CDCS exam with our CDCS study materials only 5 to 10 minutes after payment. Second, once we have compiled a new version of the CDCS test question, we will send the latest version of our CDCS Training Materials to our customers for free during the whole year after purchasing. Last but not least, our worldwide after sale staffs will provide the most considerate after sale service on CDCS training guide for you in twenty four hours a day, seven days a week.

Valid Reliable CDCS Dumps Book - Pass CDCS in One Time - Latest

Unlimited CDCS Exam Practice

Our CDCS test torrent keep a look out for new ways to help you approach challenges and succeed in passing the EXIN EPI Certified Data Centre Specialist exam. An ancient Chinese proverb states that "The journey of a thousand miles starts with a single step". To be recognized as the leading international exam bank in the world through our excellent performance, our EXIN EPI Certified Data Centre Specialist qualification test are being concentrated on for a long time and have accumulated mass resources and experience in designing study materials. There is plenty of skilled and motivated staff to help you obtain the EXIN EPI Certified Data Centre Specialist exam certificate that you are looking forward. We have faith in our professional team and our CDCS Study Tool, and we also wish you trust us wholeheartedly.

EXIN EPI Certified Data Centre Specialist Sample Questions (Q73-Q78):

NEW QUESTION # 73
A data center requires an audit for ANSI/TIA-942 Rated-3 compliance. Will the network architecture be part of this audit?

- A. No, as concurrent maintainability only applies to electrical and mechanical
- B. No, only the type of cabling used will be audited
- C. Yes, amongst other aspects the network architecture should be Rated-3 compliant with ANSI/TIA-942
- D. Yes, but only if network administration does not comply with ANSI/TIA-606

Answer: C

Explanation:
ANSI/TIA-942 defines ratings across four areas:
* Architectural
* Electrical
* Mechanical
* Telecommunications (network cabling + architecture)
A data center cannot be considered Rated-3 unless all four areas meet the concurrent maintainability criteria.
For telecom/networking, this means dual redundant backbone cabling, proper pathways, and separate routes to ensure no single point of failure.
* A and B are incorrect because they limit scope to electrical/mechanical or cabling only.
* C is incomplete: administration (ANSI/TIA-606) is part of compliance but architecture redundancy is mandatory.
References: ANSI/TIA-942-B §5.2 (Rated Levels), Annex E (Telecommunications infrastructure examples).

NEW QUESTION # 74
A 5kW (power consumption) server keeps crashing with the message 'temperature too high'.
The intake temperature is measured at 25 °C/77 °F and a relative humidity (RH) level of 50%.
The exhaust temperature is 29 °C/84 °F and 45% RH.
The raised floor is providing an adequate amount of CFM/CMH at a reasonable velocity.
The pressure under the raised floor is approximately 25 Pa/0.1 inch H_2O.
Analyze the situation and indicate what the most likely cause is for this server to crash.

- A. No cause could be determined as the CFM/CMH of the air conditioning equipment is not stated
- B. The exhaust temperature is exceeding the ASHRAE recommended values
- C. The raised floor pressure is too low and/or the raised floor tile % opening is not adequate
- D. Dust inside the server causing issues with convection-based heat transfer

Answer: D

Explanation:
The server's repeated overheating despite adequate intake and exhaust temperatures suggests that dust buildup inside the server may be impeding heat transfer. Dust accumulation can obstruct airflow within the server, insulate components, and disrupt the convection-based cooling systems that regulate internal temperatures, leading to overheating and potential hardware failures.
Detailed Explanation:
While the intake and exhaust temperatures appear within acceptable ranges, internal dust can reduce airflow and impede cooling efficiency, causing internal components to overheat despite seemingly normal ambient conditions. Regular cleaning and maintenance are critical for preventing dust-related issues, especially in high-powered equipment like a 5kW server.
EPI Data Center Specialist References:
EPI emphasizes regular maintenance to prevent dust buildup in data center equipment. Dust can significantly impact cooling efficiency

and lead to overheating, which underlines the importance of routine cleaning for optimal server performance.

NEW QUESTION # 75
The noise levels in the data center are approximately 91 dB (A).
Do employers need to take precautions?

- A. Yes, since it is mandated by regulations.
- B. As long as the data is compliant to ISO/IEC 27001 it is acceptable.
- C. There are no regulations regarding noise levels inside a building. Regulations only apply to noise pollution outside of the building.
- D. No, anything less than 100 dB (A) is acceptable.

Answer: A

Explanation:
In a data center with noise levels of 91 dB (A), employers are indeed required to take precautions to protect personnel, as this level exceeds commonly accepted safety thresholds for occupational noise exposure.
Regulations, such as those from the Occupational Safety and Health Administration (OSHA) or similar agencies, mandate specific controls and protections for environments with high noise levels.
Detailed Explanation:
Noise levels above 85 dB (A) typically trigger requirements for hearing conservation programs. At 91 dB (A), steps like providing ear protection, conducting regular noise assessments, and possibly implementing engineering controls to reduce noise should be taken. Extended exposure to such levels can lead to hearing loss, so regulatory compliance ensures both immediate and long-term protection for personnel.
EPI Data Center Specialist References:
EPI guidelines for data center safety address noise exposure as part of the environmental safety measures. EPI recommends adhering to local occupational health regulations, as excessive noise can harm personnel and affect operational efficiency due to potential health hazards.

NEW QUESTION # 76
You need to install a highly sensitive fire detection system. The data center has a high airflow rate. Which system should you recommend?

- A. Dry pipe sprinkler system
- B. Photoelectric smoke detector
- C. VIEW (Very Early Warning) smoke detector
- D. Ionization smoke detector

Answer: C

Explanation:
Data centers typically have high airflow environments due to CRAC/CRAH units, containment, and raised floors. Standard smoke detectors (ionization or photoelectric) often fail to detect incipient smoke because the air movement disperses particles.
The correct solution is VESDA/VIEW (Very Early Warning) smoke detection systems, which use aspirating smoke detectors (ASD). These systems continuously sample air through pipes and can detect smoke particles at concentrations as low as 0.001% obscuration/m. This provides early detection well before fire growth, allowing mitigation without system shutdown.
* Dry pipe sprinklers (A) are suppression, not detection.
* Ionization detectors (B) are sensitive to flaming fires but unreliable in high-airflow environments.
* Photoelectric detectors (C) are better for smoldering fires but still inadequate in high airflow compared to ASD systems.
References: NFPA 75 §5.4.3, NFPA 76 (Telecom facilities - aspirating systems), ISO 7240-20 (Aspirating Smoke Detectors).

NEW QUESTION # 77
The electrical diagram of the data center shows the following UPS configuration and has a load of 80 kW.
What is the set-up in this data center?

- A. 2(N+1)
- B. N+N(+1)

- C. (N+1)-(N+1)
- D. 2+N+1

Answer: A

Explanation:
A 2(N+1) configuration implies two independent UPS systems, each with N+1 redundancy. This configuration provides high availability by ensuring that each UPS system can independently support the load with an additional unit for redundancy. Given the 80 kW load, this setup implies that two separate N+1 systems are running, providing reliability and fault tolerance for the data center's power needs.
Detailed Explanation:
The N+1 notation denotes that each system has one additional unit beyond what is needed to carry the load, providing redundancy. With 2(N+1), there are two such setups, ensuring that if one fails, the other can still support the load without interruption, fulfilling high availability requirements.
EPI Data Center Specialist References:
EPI teaches that multiple redundant systems, such as 2(N+1), enhance data center reliability by ensuring that power is maintained even if a failure occurs in one system. This meets the stringent demands for uptime in critical environments.

NEW QUESTION # 78

......

As a prestigious platform offering practice material for all the IT candidates, Dumpkiller experts try their best to research the best valid and useful CDCS exam dumps to ensure you 100% pass. The contents of CDCS exam training material cover all the important points in the CDCS Actual Test, which can ensure the high hit rate. You can instantly download the CDCS practice dumps and concentrate on your study immediately.

Unlimited CDCS Exam Practice: https://www.dumpkiller.com/CDCS_braindumps.html

Besides, if you need an invoice of our CDCS practice materials please specify the invoice information and send us an email, EXIN Reliable CDCS Dumps Book You just need to wait for obtaining the certificate, EXIN Reliable CDCS Dumps Book We provide free tryout before the purchase to let you decide whether it is valuable or not by yourself, EXIN Reliable CDCS Dumps Book You may choose the most convenient version to learn according to your practical situation.

Generation X and Small Business Tammy Erickson's CDCS Study Guide Pdf blog Across the Ages has a post on generation X being unhappy with corporate life, This is good news, but organisations Reliable CDCS Dumps Book will need to ensure their approach to privacy shifts from are we compliant?

Pass Guaranteed Quiz 2026 EXIN Professional Reliable CDCS Dumps Book

Besides, if you need an invoice of our CDCS practice materials please specify the invoice information and send us an email, You just need to wait for obtaining the certificate.

We provide free tryout before the purchase to let you decide whether CDCS it is valuable or not by yourself, You may choose the most convenient version to learn according to your practical situation.

According to the different function of the three versions, you have the chance to choose the most suitable version of our CDCS study torrent.
