Candidates must know about malware protection, intrusion prevention systems, command and control channel detection, deception technologies, identity threat detection and response, browser isolation, and incident detection and response.   Data Protection Services</li> </ul>

## Zscaler Digital Transformation Administrator Sample Questions (Q82-Q87):

### NEW QUESTION # 82

How is the relationship between App Connector Groups and Server Groups created?

- A. When you create a new App Connector Group you must select the list of Server Groups to which it provides visibility
- B. The relationship between App Connector Groups and Server Groups is established dynamically in the Zero Trust Exchange as users try to access Applications
- C. Both App Connector Groups and Server Groups are linked together via the Data Center element
- D. When a new Server Group is created it points to the App Connector Groups that provide visibility to this Server Group

**Answer: D**

Explanation:

When you create a Server Group in the ZPA admin console (or via API/Infrastructure-as#Code), you explicitly select which App Connector Groups should serve that Server Group. Those connector groups are then used to advertise reachability and steer traffic to the included application servers.

### NEW QUESTION # 83

Which Advanced Threats policy can be configured to protect users against a credential attack?

- A. Configure Advanced Cloud Sandbox policies.
- B. Block Suspected phishing sites.

- C. Enable Watering Hole detection.
- D. Block Windows executable files from uncategorized websites.

**Answer: B**

Explanation:

By blocking suspected phishing sites in the Advanced Threats policy, you stop users from reaching malicious pages engineered to capture their credentials.

#### NEW QUESTION # 84

Which types of Botnet Protection are supplied by Advanced Threat Protection?

- A. Vulnerabilities in web server applications, Unknown C&C using AI/ML, Vulnerable ActiveX controls
- **B. Connections to known C&C servers, Command traffic (sending / receiving), Unknown C&C using AI /ML**
- C. Malicious file downloads, Command traffic (sending / receiving), Data exfiltration
- D. Connections to known C&C servers, Detection of phishing sites, Access to spam sites

**Answer: B**

Explanation:

Advanced Threat Protection provides botnet protection by monitoring connections to known Command and Control (C&C) servers, inspecting command traffic (sending and receiving), and detecting unknown C&C servers using AI/ML techniques. This comprehensive approach helps in identifying and blocking botnet activities effectively.

The study guide details these mechanisms as key elements of the botnet protection feature set in ATP.

#### NEW QUESTION # 85

What is the immediate outcome or effect when the Zscaler Office 365 One Click Rule is enabled?

- A. All traffic undergoes mandatory SSL inspection.
- B. Non-Office 365 traffic is blocked.
- **C. Office 365 traffic is exempted from SSL inspection and other web policies.**
- D. All Office 365 drive traffic is blocked.

**Answer: C**

Explanation:

When the Zscaler Office 365 One Click Rule is enabled, Office 365 traffic is exempted from SSL inspection and other web policies to optimize performance and user experience. This rule simplifies policy configuration by automatically identifying and excluding Office 365 cloud traffic from inspection, reducing latency and avoiding potential conflicts with Office 365 services.

The study guide clarifies that this rule helps balance security with seamless cloud application usage.

#### NEW QUESTION # 86

Which Zscaler feature detects whether an intruder is accessing your internal resources?

- **A. Deception**
- B. Browser Isolation
- C. SandBox
- D. SSL Decryption Bypass

**Answer: A**

Explanation:

The Deception feature in Zscaler detects intruders attempting to access internal resources by deploying deceptive assets or traps that identify unauthorized or suspicious activity. This proactive approach to threat detection helps identify attackers who have bypassed other defenses.

## NEW QUESTION # 87

.....

As we all know, through the judicial examination, you need to become a lawyer, when the teacher is need through the teachers' qualification examinations. If you want to be an excellent elites in this line, you need to get the Zscaler Digital Transformation Administrator certification, thus it can be seen through the importance of qualification examination.
